When Governor Charles S. Whitman of New York was asked by friends of boxing a year ago to stop his campaign to kill the law which permitted boxing in New York state he turned upon a delegation and demanded: "What are the fighters doing to win the war?" The answer

## MATHEWSON TO GO TO FRANCE

CINCINNATI, May 1.—Manager Christy Mathewson of the Cincinnati Nationals, declared today that he would go to France to direct and develop baseball among the American soldiers if he was assured that his services were indispensable and would improve the morale of the troops "over there."

Mathewson's declaration came after he had held a lengthy conference with Dr. George C. Fisher of New York, who is international director of physical instructors of the Y. M. C. A. Dr. Fisher came here on purpose to enlist the Red leader's services for baseball among the soldiers. The whole matter was left in abeyance until Dr. Fisher returns to New York and gets into communication with the Y. M. C. A. leaders in France. If they continue to insist on Mathewson going over he probably will do so. President Herrmann will confer in Chicago tomorrow with B. Johnson, president of the American league, and Charles Weeghman of the Chicago Nationals, relative to the plan of sending over two teams of ball players.

## WAR CONFERENCE MAY 22 AND 23

Governor Issues Statement Calling Attention to Importance

War workers of every city and community are urged by Governor Withycombe to participate in the first Oregon war conference, to be held in Portland, May 22 and 23, under the auspices of the state council of defense. In a statement issued Governor Withycombe says: "Because many matters of vital importance will be discussed at Oregon's first war conference to be held in Portland, May 22 and 23, I respectfully urge the war workers and officials in the cities and communities of Oregon, to make their best effort to be present and participate in the proceedings which are to be conducted under the auspices of the state council of defense."

"So many of the war time emergencies arising in the various local communities are of a similar nature that it would be both helpful and wise to exchange views looking toward a uniform or co-operative treatment of the different situations insofar as a general plan could be worked out feebly and comprehensively."

"The success of the coming conference depends largely of course upon the measure of support given by the war workers of Oregon who have thus far enthusiastically and wholeheartedly promoted the general patriotic program. May I not, therefore, rely upon the loyal people of Oregon to assist the state council of defense in accomplishing constructive results?"

Added to the thousands of tons of produce that will go through these plants there will be carloads—trainloads—of fruit that will go into the manufacture of fruit juices, or that will be evaporated or shipped fresh to outside markets.

Prune Demand Immense. All local buyers and shippers of fruits are looking forward to a great fruit season in spite of the frosts and continued cold weather in April. The only possibility of disappointment seems to be in a repetition of the dry summer of last year, and that is not at all likely. The value of the crop is going to be enhanced by the increased marketing capacity of the nation generally, and further by the entry of the government into the field.

A prominent fruit shipper of this city has just received a wire from California to the effect that the government is going to commandeer from 60,000,000 to 75,000,000 meet all the possibilities of produc-

tion. There will be little need for people of the working class to look away from the Willamette valley for employment after the fruit harvest begins. Rather there is likely to be a campaign inaugurated to induce people who do not care for this line of work to turn out and help about saving the crops as a patriotic duty. The people of Europe will be sorely in need of the products of this valley. In this connection one point should be made plain to the fruit consumers. There has been some apprehension with regard to the canning proposition on account of the limitations upon the use of sugar; but according to the food regulations the restrictions upon sugar are removed where individuals or manufacturing concerns are making use of it in the preservation of food products.

As was to be expected, Manager Bezdek of the Pirates has gathered what appears to be a right smart ball team. It was admitted that Bezdek knew nothing of baseball when he came into the big top.

Connie Mack seems to have shifted his tactics. Instead of kidnapping collegians and sending them to the Athletics, it looks as if Connie was depending upon the pension bureau to supply him with pastimers.

Speaking of his pitching corps, Manager Robinson of the Dodgers says that Grimes will be able to hold the National league batsmen safe all the way. Well, National league batsmen are generally safe all the way when facing Dodger twirlers.

Probably 75 per cent of all this labor, inside and out, will devolve upon boys, girls and women. The rate of remuneration will depend upon the worker, as it is largely piecework. In the cannery last season women earned all the way from \$1 to \$4 a day on piece work.

Big Plant Is Active. At the Salem King's dehydrating plant there will be one continuous round of excitement, with the new crop of fruits and vegetables coming on and the huge government contract for dehydrated potatoes still under way. There will not be hours enough in the day nor

THIS is one that has been stamped "certified" and then signed by an official of the bank. It is, in other words, guaranteed to be good. Such a check is immediately charged to the depositor's account and is equivalent to cash. Care should be taken, then, that it is not lost or destroyed.
