ADMIRAL SIR REGINALD TYRWHITT

al canteens and there will be a canteen in the hut to fill the needs in this direction. A secretary will be assigned to permanent duty at the trench camp.

This mole, which juts out into the North Sea more than a mile and a half from Zeebrugge, thus forming the harbor for the town because there is no natural bay to receive ships, was the scene of the desperate battle between the British raiders under Admiral Sir R. Y. Tyrwhitt and the Germans recently.

HUSTON'S NAME NOT TO APPEAR UPON BALLOTS

Secretary Olcott Immediately Sends Telegram Informing Clerks

In reply to an inquiry by Secretary of State Olcott, Attorney General Brown rendered an opinion yesterday advising Mr. Olcott to inform the county clerks of Oregon that they need not print the name of S. B. Huston on the primary election ballot as a Republican candidate for United States senator, but under no circumstances to go to the expense of reprinting ballots if they have already been printed with Huston's name upon them.

In reply to a question the attorney general said the fact that Huston's name might appear on the ballot in some counties and not appear in others, would not affect the validity of the election. Secretary Olcott put the question to the attorney general for an opinion in behalf of the county clerks, the question having passed from Mr. Olcott's jurisdiction when he certified lists of candidates to the county clerks prior to Huston's announcement of withdrawal.

Candidate, Changed Course. Attorney General Brown quotes all the statutes applying to the case, including the original primary law. He holds that, under the original law, Huston could not withdraw on the grounds set forth in his affidavit. The opinion, however, calls attention to the fact that Huston started his campaign under the original primary law, but abandoned it, and filed under chapter 124 of the legislative act of 1915.

Olcott Issues Statement. Secretary Olcott issued the following statement relative to his request that the attorney general write an opinion:

As soon as S. B. Huston filed with this office his request to have his name withdrawn as a candidate for the Republican nomination for United States senator, I at once took the matter up with Attorney General Brown, who officially advised me that it had passed from my jurisdiction, as I had already certified the list of candidates to the various county clerks, and that it was a matter which could be adjusted only by the county clerks.

Although the name of S. B. Huston will not appear as a candidate for the United States senatorial nomination on Oregon ballots that are not yet printed, the numbers corresponding to the names of other candidates will remain unchanged. Direction to this effect was telegraphed to Oregon county clerks by Secretary of State Olcott yesterday after Attorney General Brown had given an opinion holding that the clerks may omit Huston's name on the primary ballot.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed with Sulphur It Brings Back Its Beautiful Lustre at Once.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.
