Humors Come to the Surface in the spring in no other season. They don't run themselves all off that way, however, but mostly remain in the system. Hood's Sarsaparilla removes them, wards off danger, makes good health sure.

Six Fatalities Reported To Commission Last Week

Six fatalities were reported to the state industrial accident commission out of a total of 506 accidents for the week ending May 9. Names, addresses and occupations of the fatally injured workmen follows:

David Bradley, Astoria, logger; Dan McCrimmon, Blind Slough, logger; Alex Hill, Astoria, iron worker; Everett Jeffery, Tillamook, logger; Charles Nostrum, Cascade Locks, contractor; C. A. Price, Portland, worker in shipyard.

Of the total number of cases 461 were subject to the provisions of the workmen's compensation act, 17 were from firms and corporations that have rejected the act and 28 were from public utility corporations not subject to the application of the compensation law.

Good Road From Portland to California Country

With the exception of some rough places in Cow Creek canyon the Pacific highway is in excellent condition between Portland and California. State Highway Engineer Nunn reports, and summer automobile traffic on the road is already heavily under way. The road through Cow Creek canyon is a stretch of about eight miles. Between Ashland and Medford, a distance of approximately 16 miles, the highway is paved, and all the remainder of the road through the state with the exception of Cow Creek and Pass Creek canyons, is macadamized.

OBITUARY

County Chairman F. G. Deekbach of the Liberty loan committee has recently received a letter from Chairman Edward Cookingham, of the state committee in which he expresses gratification upon the results of the campaign in this county. In the course of the letter he says:

"The excellent manner in which the campaign was handled in your county is in itself a tribute to the patriotic ardor of yourself, your chairman and your other workers who labored so earnestly and effectively to make the campaign a success. While none of us have worked for a reward, or for public expression of appreciation for a patriotic duty well done, it is nevertheless the wish of the executive committee that every volunteer worker in the state should understand how commendable his work has been."

Enclosed with this letter was a note from General Campaign Manager Weeks of the northwest district, who points with pride to the fact that every county in every state in this district passed its quota in the campaign.

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, dizzy headache; or, if your meals sour and turn into gas and acids, you have a real surprise awaiting you.

To-morrow morning immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning inside-bath. It is said that men and women who try this become enthusiastic and keep it up daily.

Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless.

ALASKA TO SEND MOSS.
JUNEAU, Alaska, April 10.—(By Mail.)—This section of Alaska will likely contribute a large share of the sphagnum moss needed by the American Red Cross for surgical dressings. There are bogs near here which are said to produce it abundantly and local Red Cross workers are making preparations to collect large quantities of it.

DISCUSS SCHOOL PROBLEMS.
TACOMA, Wash., May 9.—Problems that the war has imposed on the home and the schools were discussed at the state convention of the congress of Mothers and Parent-Teachers' association today. C. E. Beach, superintendent of schools of Olympia, declared education instills self reliance and soldiers with that quality are the most valuable.

The new war flour is a godsend for the folks that could not make good bread out of the old-fashioned wheat flour. It is a perfect allit.

ARMY OFFICER WANTS RECRUITS

Lieutenant Evans of Canadian Engineers Urges Britishers to Sign Up

The British and Canadian recruiting commission staff is actively engaged in recruiting throughout the whole of the United States and has in this district at the present time a traveling recruiting squad in charge of Lieutenant Evans of the Canadian engineers. Lieutenant Evans was in Salem yesterday, traveling south by auto. This officer and non-commissioned officers are traveling through the state of Oregon in quest of eligible Britishers and Canadians for the British and Canadian army.

It was made public some time ago that all Britishers and Canadians of military age will be subject to be drafted into military service immediately after the conventions signed between the plenipotentiaries of the two countries are ratified. This is expected very shortly, and the object of this search being made for recruits in the way it is by traveling through the country is to give every Britisher and Canadian the opportunity to enlist voluntarily in the British or Canadian army.

All Branches Open.
By doing so now they have the privilege of joining whatever branch of the service that they may wish, and it is stated that every branch of the British and Canadian service is open to enlistment at the present time. At such a time as men will be drafted all privileges of this kind will be dropped and men will be replaced when they are most needed by the military authorities. Many men are needed in branches of the service such as the engineers, railroad construction, skilled railroad operating corps, and general construction work, together with artillery, tank corps, infantry, cavalry, and every other branch.

Many men are loath to enlist who have special ability as tradesmen and mechanics because they doubt whether they may be used along the lines that they are accustomed to, but Lieutenant Evans gives assurance that a man's ability is today the thing that counts and is never lost sight of and is made use of to the utmost degree.

Will Return to Salem.
Lieutenant Evans and his squad are working south from here and will be back in Salem in the course of a few days. Letters of inquiry may be addressed to him at the Marion hotel, and notification will be made in this paper of the time he will be in Salem again, when he will be pleased to interview and give information to anyone desiring it.

WANTS TO HELP OTHER MEN.

M. W. Taylor, Calvert, Ala., writes: "To Whom It May Concern: I recommend Foley Kidney Pills, the best I ever used. I tried different remedies, but none gave me relief like Foley's." They restore regular action of kidneys and bladder and relieve backache, rheumatic pains, stiff joints, sore muscles. J. C. Perry.

AT THE LIBRARY

The following books are put on the shelves of the public library this week:

"Women and War Work," a survey of the war work that English women have been doing which may be suggestive to patriotic American women. Fraser.

"Military Policy of the U. S." Upton.

"Ports of the U. S." Report on terminal facilities, commerce, port charges and administration at sixty-eight ports. Jones.

"Tuberculosis Among Industrial Workers," the results of an investigation made in Cincinnati. Robinson.

"Centennial History of Oregon, 1811-1912." Gaston.

"Major Prophets of Today," studies of some men who are influencing thought today, including Maeterlinck, Bergson, Poincare and Haackel-Stimson.

"Old Spain and New America," Spanish peoples in the United States with special consideration to the mission work that is being done. McLean.

"History of English Literature." Moody and Lovett.

"Student's History of American Literature." Simonds.

"Fables of La Fontaine."

"The Golden Dog," a romance of the days of Louis Quinze in Quebec. Kirby.

Two sets which were the gift of C. E. Burnett are added this week. They are seven volumes by Richard Harding Davis and four volumes of "Mr. Dooley."

For the Children.
"Middle Five; Indian Boys at School." La Flesche.

"In Double and Hose," a story for girls. Madison.

"Uncle Robert's Visit." Parker.

The library is ready to help the housewives to find the hundred ways of serving potatoes that will do a bit toward "spudding the kaiser." Some of the recipes are posted where they may be copied. Others are in the cook books which the library will loan to its patrons.

Have you seen the exhibit of new recruits which are lined up for service on a table at the library?
