Buy "Firestone" TIRES NOW

It is predicted that in just a few months there will be very few if any pneumatic tires on the market, and if there are any—the price will be greatly advanced. The Government has taken over 50 per cent of the raw Rubber already and will probably take more.

BUY A NEW Firestone TODAY. THE NEW SERIES now on the market, is giving wonderful mileage.

THE HAGUE, May 18.—Reports of a fresh outbreak of Turkish atrocities on the Jews of Palestine have

received official confirmation, according to the Jewish correspondence bureau.

SHIPS DOMINATE STOCK EXCHANGE

Industrials Indicate Liquidation on Expected Developments

NEW YORK, May 18.—Shares of the steamship companies and a few specialties monopolized the bulk of today's stock dealings for the bull account. Industrials and equipments indicated further liquidation on expected trade developments, while rails of the better class were almost ignored.

Prospects of the early sale of Mercantile Marine's British tonnage on advantageous terms brought further extensive gains to those issues, the preferred rising 1-2, the common two-and the 6 per cent bonds four and one-half.

Other shipping denoted moderate strength, the remaining features on the constructive side including Royal Dutch oil, Sloss-Sheffield Steel, American Linseed and secondary rails, such as New Haven, St. Paul, Baltimore & Ohio preferred and Western Pacific.

Extreme declines in United States Steel and rail issues ran from one to two points, the setback being ascribed to the controversy now pending between producers and the government respecting control of output. Short covering effaced most of these losses at the end. Salem amounted to 500,000 shares.

The bank statement in no way reflected the week's financial operations, including payments for account of the new liberty bonds. A decrease of about \$55,000,000 cash of members at the federal reserve bank accompanied a contraction of \$56,600,000 in actual reserves, wiping out the greater part of last week's gain.

Bonds were irregular, liberty issues displaying variable tendencies. Sales, par value, aggregated \$3,100,000.

United States 2's and Panama's gained from one-half to 3 per cent on call during the week.

Barton Opens and Auto Electric Service Company

R. D. Barton has opened the Auto Electric Service company at 148 South Commercial street. He has the agency for the famous Ajax batteries and does testing and repairing of all kinds of electrical equipment for automobiles—light systems, self-starting systems, and ignition systems. He has just installed an Ambu electric tester, a device which unerringly locates trouble and will greatly facilitate his work.

Mr. Barton is well known in Salem and has been actively engaged in this kind of work for several years. He took a course in electrical engineering at the Mechanics Institute, Rochester, N. Y., and is an expert in the occupation he has chosen.

LIME BOARD NEED FUNDS

governor requesting that the emergency board, and Governor Withycombe says he will have the board called if the attorney general holds that the action requested is within the province of the emergency board.

The last legislature appropriated \$20,000 for the use of the lime board and only about \$2300 of this amount remains. A second-hand tram in good condition was purchased for \$3000. According to Warden Murphy of the penitentiary, who is a member of the board, a new tram would have cost not less than \$25,000 or \$5000 over the appropriation. The lime board hopes, through the emergency board, to have additional money available by June 1 and if the money is provided he expects the plant to be in operation by August 1.

Unique Plans Being Made to Observe Memorial Day

Since the second Red Cross war fund drives comes so near Decoration day, it is suggested to local drive managers by head Campaign Manager Whitney that each chapter join in a special "Red Cross Memorial."

"Last year," says Manager Whitney, "many chapters made arrangements whereby money formerly used for the purpose of placing flowers on the graves was donated to Red Cross relief. Large sums annually are spent for this beautiful custom and this could very suitably be directed this year into the Red Cross."

"Each day in France the graves of our boys are increasing rapidly. There are many mounds of earth on which no blanket of roses can be laid. At home we need no flowers. Let us forget."

"It would be a beautiful act to dedicate our holiest of days to the memory of the boys who have given their all for us."

The suggestion of Mr. Whitney meets with the hearty approval of many Red Cross workers here and action will probably be taken soon looking to the observance of Decoration day this year in the Red Cross way.

ent district for this drive and local workers are prepared for vigorous action.

Aumsville and Shaw are combined under the leadership of Suerm Swank and will go out for the record. Turner will line up under Judge Duncan and Mr. Gray for thorough work and a full count.

Jefferson, under the chairmanship of Joseph Fontaine, will retain its envious position in war drive activities and probably excel them.

Butteville will be heard from in genuine appreciation of Red Cross service. The workers will rally under Joseph Murray.

St. Paul is in line for a complete canvass and a report that will uphold her patriotism. B. L. Van De Wiele is chairman there.

Donald will be heard from to her credit and honor under the leadership of C. J. Espey.

Colonel Poorman Leader. Stayton, under the leadership of H. A. Beauchamp, will write its name on the rolls with old-time pride and promptness.

Woodburn has an enthusiastic bunch of workers headed by Colonel J. M. Poorman, who will amply vindicate their previous honors and doubtless win new laurels. They were volunteer soldiers of former campaigns and thoroughly understand their job.

Hubbard will line up with L. C. McShane for thorough work and a new record.

Aurora will be heard from as of yore only more so. Guy M. Hickok is marshalling the workers there.

Gervais will come to the front again under the leadership of Sam Brown.

Monitor will be led to Red Cross victory by Mrs. W. A. Wood and an active corps of workers.

Brooks forces will rally with Howard Ramp for a vigorous and thorough campaign.

Preparations Best Ever. The foregoing, with the points heretofore mentioned, cover the field pretty thoroughly. The field, as a whole, comprising both Polk and Marion counties and the city of Sa-
