Lemon Juice For Freckles

Girls! Make beauty lotion at home for a few cents. Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemon and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

Big Crowds Attend—A large crowd attended the Red Cross program and ice cream social was furnished by Miss Elizabeth Levy and her students of Salem and Mr. and Mrs. Albert Liechty. Two short dramas were given by Mrs. Silkie and others. An interesting feature of the evening was a raffle of a cake between the married men and the single men. The cake brought about \$15 in favor of the single men. Numbers were sold for a quilt made by the Pratum Red Cross, which netted about \$20. After the program ice cream, coffee at Pratum Saturday night. Music and cake were sold. In all about \$80 was realized.

THIS WIDOW WAS HELPED.
Mrs. A. Walden, 466 Glenn Ave., Fresno, Cal., writes: "I had a fever and it left me with a cough every winter. Foley's Honey and Tar helps me every time. I am a widow 66 years old." Nothing better for bronchial, grip and similar coughs and colds that hang on. Just fine for croup and whooping-cough. J. C. Perry.

Funeral Postponed—The double funeral service over Mr. and Mrs. Henry Frey, who died last week at the Willamette sanitarium of trichinosis, which was to have been held in Salem has been postponed and the bodies will be taken to Lodi, Calif., for the funeral and interment. A brother of Mrs. Frey will accompany the bodies. The four children of the couple, who were brought to the hospital with the same disease, are recovering.

Aphis Is Serious—Fruit Inspector S. H. Van Trump is receiving reports from many localities of the depredations of the aphis, both in gardens and grain fields. The unusually cold and moist weather has encouraged the multiplication of the pest. It can be controlled on garden vegetables to large extent by the use of any of the nicotine emulsions, which are used in such extremely diluted form as not to injure the vegetables.

Will Sing For Soldiers—The people of Bungalow Christian church are arranging for an old time entertainment, to consist of songs, recitation and violin numbers, of the good old days, the proceeds to be given to the boys at Camp Lewis.

Red Cross At Scotts Mills—Rev. Robert S. Gill and P. E. Fullerton will be the speakers at a Red Cross meeting to be held tonight at Scotts Mills, this being a feature in the present campaign for Red Cross funds.

Germ of Disease should be promptly expelled from the blood. This is a time when the system is especially susceptible to them. Get rid of all impurities in the blood by taking Hood's Sarsaparilla, and thus fortify your whole body and prevent illness.

Two Fined For Speeding—D. R. Watts, who was taken in last week for speeding, appeared in police court yesterday, concluded to plead guilty, and paid his fine. R. A. Klein was the second citizen to be called in and assessed the same amount for a like mistake.

Sure Way To Get Rid Of Dandruff
There is one sure way that never fails to remove dandruff completely, and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.
By morning most, if not all, of your dandruff will be gone and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.
You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.
You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

LOCAL INDUSTRY IS QUITE BUSY, CANVASS SHOWS

Hunt Cannery About Ready to Start Season's Work on Gooseberries

POTATOES ARE SHIPPED

Twenty Carloads of Lumber Sent Out by Spauldings in Last Week

There has been a steady round of improvement and increase of equipment at the Hunt cannery during the past week. Everything is being put in shape for a greatly increased capacity. It is expected that work may start upon the working up of gooseberries within the next ten days. A large portion of the required working force is already signed up at the office.

Two carloads of dehydrated potatoes have been shipped out from the Salem Kings plant during the week, these cars carrying a total of over 3000 cases of the product, or about 50,000 pounds to the car. Field Agent L. J. Chapin states that he is now giving most of his attention to the contracting of green beans for evaporation. Contracts call for the large stringless variety, of which an immense quantity will be used. The first consignments of spinach are due and the factory work will begin upon that commodity at once. He states that potatoes are coming in freely and that the quality is holding up well.

Lumber Shipments Go.
The Spaulding Lumber company has shipped out about twenty cars of lumber during the week, among the shipments being several cars of 12x12 fir timbers intended for heavy construction. As a profitable side line the company is hauling out from sixty to seventy loads of slab wood every day.

The manner in which the Salem public devours fish is indicated by the figures from one local house. Fitt's market, which during the past six days has disposed of 1500 pounds of salmon, 600 pounds of halibut, 1400 pounds of ling cod, in addition to several hundred pounds of other fish. It will be noticed that the cod is now a close rival of the kingly salmon, on account of its lower price.

Butterfat Is 42 Cents.
The extent of Marion county's dairy interests can only be conjectured by the comparatively small amount of products that pass through the Salem creameries. Queries at the three local plants brought out a rough estimate that something like 75,000 pounds of butterfat was being purchased every month. The price of butterfat has averaged about 42 cents a pound, and from this it can be estimated how much wealth is being distributed to the farmers of this section.

The automobile business has been practically squelched during the past week on account of the failure to secure shipments. The firm that has been doing the most extensive business in Salem during the past year told of selling five cars, and that cleaned up the entire visible supply. However there is no let up in the line of automobile supplies and accessories.

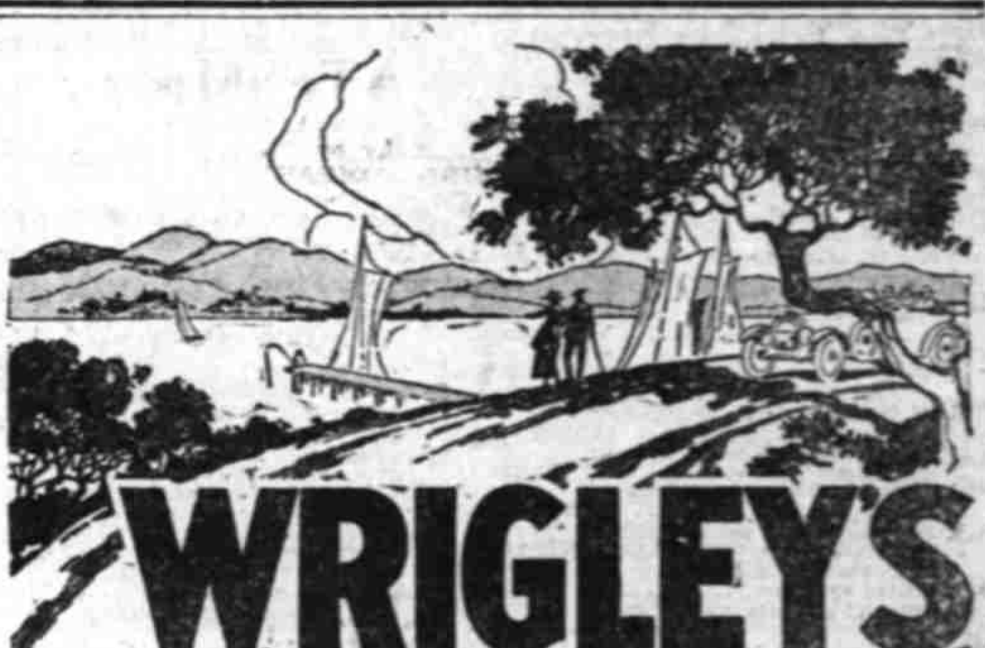

From figures picked up from the shippers of eggs and poultry there is a guess that Salem is profiting considerably from this industry. The principal shippers are handling not less than \$2000 worth of these supplies every week, the greater part of the shipments going to Portland.

Graded Wool Shipped.
Clifford H. Brown reports the shipment of about 75,000 pounds of graded wool from this point during the past week, notwithstanding that the matter of the government price rating is still up in the air with no immediate prospect of adjustment. Mr. Brown states incidentally that there are probably 250,000 head of sheep now feeding in western Oregon, the greater part of them being of the coarse wool breeds.

Service Flag At German Church—A service flag containing six stars was presented at the German Methodist church Sunday night with appropriate patriotic services, the presentation being by Louis Oldenburg, followed by an address by the pastor. Pledges and offerings to the amount of \$40 were taken for the Red Cross funds.

Will Tell of War in France—One of the most interesting and thrilling descriptions of war conditions and war operations yet heard of in this city will be delivered tonight at the armory by Dr. W. T. Foster of Portland, who has been over much of the war territory and not only made a study of conditions but taken many pictures. His subject will be "The Destruction and Re-construction of France." The lecture, which is given under the auspices of the Red Cross, is free to the public.

BAILEY IS BACK FROM CAPITAL

Thinks President May Dissolve Interstate Commerce Commission

J. O. Bailey, assistant attorney general for Oregon, returned yesterday from Washington where he represented the public service commission in the "Shasta arbitrary" case before the interstate commerce commission. Mr. Bailey says there is a feeling at the national capital that the president may use his power under the Oysterman act, recently passed by congress, to dissolve the commerce commission. The enactment gives the president power to transfer public officials from one department to another.

Commenting on the "Shasta arbitrary" case, Mr. Bailey thinks the recent order of Director General McAdoo requiring direct routings of passengers may at this particular time affect the decision of the interstate commerce commission on the question involved in the case. The public service commission of Washington is plaintiff in the case and the Oregon service commission is intervenor. The concession the northwestern commissions are contending for is the same round trip passenger fare by way of Seattle and Portland as by way of New Orleans and Los Angeles for tourists from the east to San Francisco as a destination. All members of the commission sat at the hearing except Clyde B. Aitchison who did not sit for the reason that he had been a member of the Oregon commission.
