

# Revelations of a Wife

The Story of a Honeymoon

A Wonderful Romance of Married Life Wonderfully Told by ADELE GARRISON

AN UNPRECEDENTED SUCCESS  
IN A SERIAL FORM

Commencing in the Statesman, Tuesday, June 4

Whether you are a man or woman, married or single, happily married or less happy than you could wish, this throbbing story of a woman's heart, will seize and hold your deepest and sincerest interest.

Through this story you look, in fact, into a woman's soul. No matter what you may know about life, this frank, personal confession vibrant with feeling, tingling with the sensibility of an affectionate, clear sighted, high idealized woman will teach you impressively of the workings of the human heart.

### THAT DEADLY EVIL, JEALOUSY

Whether you are jealous, whether you have suffered from jealousy, or have watched it happen in others, you will follow its workings in Adele Garrison's often startling story of a honeymoon, "Revelations of a Wife," with more than intensity of interest.

### A VIVID PICTURE OF THE CONFLICTS OF LOVE

You see the flash of human feeling, you feel the throb of real heart life, you are made to see more clearly than you ever before have seen, that one heart doesn't know how the other heart lives.

### AN IMPRESSIVE DRAMA RIGHT OUT OF REAL LIFE

It is the woman's story told with a woman's power to express the subtle emotional colors of love drama in its most human shades and meanings.

A Chapter a Day—Read the Opening Chapter in the Statesman Tuesday, June 4

"Look at Me, Margaret!"

"I WILL BE HAPPY. I WILL! I WILL!"

A woman's heart cry sounds at the beginning of the story and never loses its longing or the grip on the reader's fascinated attention.

## LINN DEPUTY CALLS POSSE

But When It Arrives Stranger Who Looked Like Baldwin, Is Gone

Had a Linn county deputy sheriff cared to arrest single handed a lone pedestrian whom he casually met on the road near Sweet Home about 7:30 o'clock Thursday night, Jeff Baldwin might now be in custody. The deputy sheriff, whose name is not known here, was traveling in an automobile between Lebanon and Sweet Home when he overtook a man walking toward the latter place. So closely did the stranger tally with the description of Baldwin that after going some distance farther the officer turned around and went back toward Lebanon so that he might have another look at the suspect. This time he was sure the man was Baldwin and drove on into town for help. When a posse returned the stranger had disappeared and no trace of his whereabouts could be found.

Sheriff Bodine of Albany informed Warden Murphy of the incident by telephone. A squad of state police from Portland has been sent to search the neighborhood.

## First Air Mail Letter Has Arrived in Salem

Probably the first letter by the new air mail service arrived in Salem yesterday, having been sent in the regular course of business from a representative in New York to the Pheasant Northwest Products Company. The letter was carried from New York, by way of Philadelphia, to Washington, thence by regular mail to Salem. It bears a 24-cent stamp with the legend, "Air Mail Service: Washington, New York, Philadelphia." The letter sent by the air service does not require an extra stamp for its journey after leaving the air service. The 24-cent special stamp is sufficient. In the course of time, no doubt, the receipt of letters from the air will be a commonplace incident. In these pioneer days of the service, it is a novelty.

## RAILROAD WAGE BOARD TO MEET

Claims of Machinists and Shopmen Will Be Given First Consideration

WASHINGTON, May 31.—Claims of machinists and other railroad shopmen for higher wages than were allowed by Director General McAdoo's recent order, is one of the first questions to be considered by the board of railroad wages and working conditions when it meets here tomorrow for the first time since its creation. Hearings may be held and wage scales for machinists in other industries analyzed, in an effort to make recommendations for the modification of the wage order at the earliest possible moment. News of the strike of Rock Island shopmen was received today at the railroad administration with evident disappointment. It had been believed that all employees would heed Director General McAdoo's promise yesterday that further increases in wages might be made on recommendation of the new wage board. Representatives of the railroad administration immediately were assigned to confer with the strikers in an effort to persuade them to return to work tomorrow morning. Thousands of railroad men tomorrow will receive higher pay for the first time under the director general's order. Within a week payments of back wages will begin.

## 75-25 BASIS CHOSEN POLICY OF DEALERS

(Continued from page 1) opinion, and brought in a majority and a minority report. The former advocated the placing of the country upon a basis of 25 per cent wheat flour to 75 per cent of substitutes. The latter favored a compromise by going on an absolutely wheatless basis for several weeks, and then a basis of 25 to 75 per cent for the balance of the season. Among other arguments, the minority urged that Marion county would be placed in a bad light among the other counties of the state, the great majority of

which had thus far been pledged to a wheatless basis. After several minutes of warm debate the majority report was adopted, with but two dissenting votes. According to this resolution, the dealers express themselves in favor of the stated ratio until August 1.

## MEYERING GETS SERVICE CROSS

American Lieutenant Decorated for Gallant Conduct in Action

WITH THE AMERICAN ARMY IN FRANCE, Thursday, May 30.—In the office of the commander in chief today the distinguished service cross, awarded early this month for gallant conduct in action, was pinned to the blouse of Lieutenant William D. Meyering, an infantry officer in the presence of the staff, by the deputy chief of staff. Lieutenant Meyering commanded a platoon of company F., 23rd Infantry, which was attacked on April 6. He took effective action before and during the attack to drive off the enemy and remain at his post until wounded seriously. Being compelled to seek medical attendance, he walked unassisted through a barrage to a dressing station and refused to go to the rear until he learned the result of the engagement. His brave example inspired his men, his citation says, to drive off the enemy, who did not reach the American trenches. Lieutenant Meyering's right hand was amputated in consequence of his wound.

## Pharaoh's Foresight Cited to People of This Country

NEW YORK, May 31.—The foresight of King Pharaoh, who saved Egypt from famine by following the following the advice of Joseph, to store grains in years of plenty against a period of drought, was cited by Herbert Hoover, United States food administrator, in a message to the federal food board for New York tonight, announcing the intention of the government to place in storage every possible kernel that can be saved from the forthcoming wheat harvest.

## WITHYCOMBE IS FOR RIGHTS OF MEN AT FRONT

Governor Thinks Opening of Grant Lands Now Is Big Mistake

## SOLDIERS ARE LEFT OUT

Sub-Division of Larger Farms Suggested as Better Method

That the government has overlooked the welfare of Oregon soldiers and sailors upon their return from the war in throwing open for homesteading the Oregon-California land grant is the opinion expressed by Governor Withycombe in a formal comment made on the action. The governor believes that men in the service of the country on land or sea should be allowed preferential rights relative to the lands, particularly for the reason that the grants offer the last opportunity to homestead lands that can be farmed without irrigation.

Governor Withycombe suggests that as far as increased production of food is concerned, a better move would have been some enactment to stimulate sub-division of the larger farms of the state and consequently more intensive farming.

"I believe the government has made a serious blunder in permitting the Oregon-California land grant to be homesteaded at this time," says the governor in his comment. "In the first place, development will be very minimal because of the great scarcity and high price of labor, particularly for rural development. In the next place, there are about 25,000 of the bravest and most worthy young men of Oregon now in the service of their country and many of these young men would doubtless be very glad of the opportunity to file on this land but are denied the privilege because of their service to their country."

"It would seem to me that these men would be entitled to a preferential right on account of the sacrifice they are making. This is the last opportunity for choice land without the need of irrigation to be homesteaded in Oregon. It would have been far better if we could have stimulated the sub-division of our larger farms which are already under cultivation so that we could have had more intensive farming and consequent larger production of food. "But a small fraction of the farms of Oregon are producing their capacity and this idle unimproved land could have remained for a few years until our boys from the front could have an opportunity of securing homes for permanent settlement."

## OREGON EAGER TO SAVE WHEAT

State Believes in Doing Well Anything That Is Worth Doing At All

PORTLAND, Or., May 31.—That Oregon believes what is worth doing at all is worth doing well and without loss of time, is shown by the reports that are pouring into state food administration headquarters here from every section of the state. "Every county," said Assistant Federal Food Administrator W. K. Newell "seems to be enthusiastically in the race for first honors in getting on an absolutely wheatless basis. Our long distance telephones are kept busy, and the mails and telegraph wires bring almost hourly messages of sweeping progress throughout Oregon. Dealers and consumers in every section are eager to assist in every way they can to save every possible pound of wheat, and to help gather in the turned-back flour for export overseas to the armies and the cities. The plan for assembling the turned-back flour has been perfected in detail by the United States food administration grain corporation, 310 Board of Trade building, from which a letter of definite instruction has been sent to every flour dealer in the state. "Under this plan, citizens turning back flour will receive cash or credit at retail rates, from their dealers, who in turn are recompensed, upon presentation of properly signed receipts and statements, to their banks. Dealers turning back unsold stocks of wheat flour will be paid the wholesale prices. All dealers are asked by the food administration to act as stewards of the flour, gathering it and holding it until they receive definite shipping instructions for sending it to the nearest assembling point. "Because the people of Oregon are ready for it, and because they are eager for the opportunity to make any sacrifice that will directly aid our fighting forces and our loyal, long-suffering allies, the adoption of the 'wheatless-until-harvest' program has been welcomed with cheers instead of with grumbling. The real war service spirit, in which selfishness has no part, is abroad in Oregon. Any who are inclined to lag behind in their readiness to go wheatless, I am sure will find themselves swept along on the splendid tide of patriotism and helpfulness that is putting Oregon in the front line trenches here at home."

## SPECIAL MEN MUCH NEEDED

Spruce Division and Military Aeronautics Sends Out Urgent Call

PORTLAND, May 31.—Men rejected from the army because of minor physical defects are given the opportunity to volunteer for important special or limited service, through a call just issued by the war department.

This special service is in spruce production work and includes a wide range from telegraphy and cooking to automobile and locomotive driving. Those who desire to volunteer must do so, however, by June 6, for after that date if the required number of men has not been obtained voluntarily, they will be taken from the draft registration lists.

"The military aeronautics branch is in need of certain skilled men," says the war department's call. "Men qualified for special or limited military service only will be accepted under this call. Men qualified for general military service are not desired for this service."

"Repeated requests have been received at this office for an opportunity for limited service men to enter the service. These men will be engaged in spruce production work for aeroplanes, which is interesting and healthful work. The following types are desired: "Locomotive engineers, firemen, railroad grade foremen, railroad track foremen, warden bridge carpenters, locomotive repairmen, telephone linemen, surveyors or railroad instrument men, telegraphers, draftsmen, pile driver foremen, stationary engineers for donkey engines, steam shovel operators, carpenters, steam fitters, electricians, auto mechanics, auto drivers, cooks, clerks, railroad brakemen, railroad conductors, and a large number of laborers."

## Unlawful Drilling in Ireland To Be Punished

LONDON, May 31.—A dispatch to the Central News from Dublin says a proclamation was issued today saying that the counties of Limerick and Tipperary will be proclaimed special military areas if unlawful drilling and assemblies continue.

## HUNS REACH MARNE

(Continued from page 1) wire entanglements. The Germans are not making the same use of artillery as heretofore. They are using trench mortars in large numbers for wire cutting. "Is this the enemy's main attack?" "He probably did not know when he initiated it whether it would prove to be a subsidiary or leading operation. It must be remembered that the enemy has three great geographical objectives as a means toward his great objective of destroying the Franco-British armies—the channel ports, separation of the allied armies by an attack through Amiens and an attack on Paris."

"In the present operations he is doing all possible to develop his initial success by attacks both on the center and on the flanks of the salient. He has achieved considerable success in the center, but on the flanks the French are holding well on the heights west of Soissons and the British are similarly fighting hard on the heights around Rheims. "No review of the past week is complete without mention of the fine exploit of the American troops in the extremely well conducted operation, and in view of the facts that the troops were untired, it is notable that they not only captured their objective, but held it. It is always much more difficult to consolidate and retain a position than to capture it and the performance of the Americans shows the very high standard as well as their training, bravery and fighting qualities. 45,000 HELD PRISONER. BERLIN, via London, May 31.—"On the front from Noyon to the west of Rheims our attack is progressing favorably," says the German official communication issued this afternoon. More than 45,000 prisoners and so far in excess of 400 guns and thousands of machine guns have been taken by the Germans, according to the German official communication today.

The text of the communication follows: "There have been artillery duels of varying intensity and minor infantry engagements. "We have closely pursued the enemy from Ailette front. South of the Oise and the Ailette we captured

ed the Britigny-St. Paul County Loire line. "North of the Aisne in constant fighting we drove the enemy back by way of Bleux-Chavigny. Violent Counter-Attacks. "To the south of Soissons the French brought forward cavalry and infantry for a violent counter-attack. They were caught with disastrous effects by our fire and defeated. "We have crossed the Soissons-Hartennes road. "French divisions which were brought up in the direction of Fere-en-Tardenois from the southwest across the Marne and from the south east were unable anywhere, in spite of their desperate counter-attacks to offer successful resistance to our advancing corps. "The rear positions of the enemy at Arey and Grand Rosoy were penetrated as far as the river between Chartres and Jaugonne. The heights of Sainte Gemme, Romilly and Champloisy are in our possession. "On the southern flank of the Vesle, to the west of Rheims, German Gueux and Thillois were captured. "The number of prisoners in booty are increasing continuously. More than 45,000 prisoners and more than 400 guns and thousands of machine guns have been taken."

REPULSED ON ALLETTE. PARIS, May 31.—German attacks on French positions on the right bank of the Ailette river have been repulsed. The Germans have reached the Marne, light detachments having penetrated as far as the river between Chartres and Jaugonne. On the right flank of the battle area the situation is unchanged which also is the condition west and north of Rheims, according to the official statement issued by the war office tonight.

The statement reads: "On our left wing in the region of the lower Ailette the Germans have continued their pressure during the course of the day. Our troops have broken all enemy attacks in the region of Hieracourt and west of this locality. The enemy, who had succeeded in crossing the Oise east of Sempigny, was repulsed on the right bank of the river. Soissons is Center. "The principal effort of the enemy has been in the sector of Soissons and further to the south in the direction of Neuilly St. Front. "The west of Soissons our troops have delivered vigorous counter-attacks and have arrested all the enemy's efforts, inflicting very severe losses. "The enemy was unable to make any progress in this direction. On the other hand the enemy has been able to win some ground to the west of the road from Soissons to Chateau Thierry and in the direction of this town he has passed Oulchy-Ville and Oulchy-le-Chateau. "In the center weak German forces have reached the north bank of the Marne between Chartres and Jourlonne. On our right the situation is unchanged as well as to the northwest and to the north of Rheims."
