Aliens Must Register—United States Marshal G. F. Alexander of Portland will be in the city today and tomorrow to supervise the registration of aliens who do not want to be barred out of the half-mile zone about the armory. The government regulation provides that no alien may approach within half a mile of any armory, arsenal or munition plant without a special permit. Hence, those aliens in the rural sections who expect to come into the city on business errands must be provided with a certificate of registration or it may be made inconvenient for them. There is a penalty prescribed for failure to register.

Irrigation for 1918—For the purpose of trying to make the irrigation service more satisfactory the city will be divided into two districts so that each district will get the full service of the plant upon the day it irrigates.

The plan is to have the houses which bear even numbers on the streets irrigate only on Monday, Wednesday, Friday and Sunday, and the houses which bear odd numbers on the streets irrigate only on Tuesday, Thursday, Saturday and Sunday. This plan will permit every house to irrigate four days out of each week.

The purpose of the Water Company in furnishing water for irrigation is not to furnish all the water a person can run through the hose in the six irrigation hours every day, but to furnish enough water to keep the lawn in condition. To use more than enough is a waste. We will pump the usual amount of water and hope to furnish it more satisfactorily.

Sun Is Badly Freckled—It is a fancy of astronomers that spots on the sun have a lot to do with weather conditions on the earth. Possibly this may account for the spotted condition of the weather in Oregon, for the man with the big telescope on the street corner says the sun is developing a very bad case of eczema. There are now a couple of eruptions or cyclones of fire in sight which he estimates to be 20,000 miles in diameter.

PITTSBURGH HOUSEWIFE

Tells How Hard Working Women May Keep Well and Strong.

Pittsburgh, Pa.—"I keep house for my husband and myself and I got into a weak, run-down, nervous condition and no appetite. I heard how Vinol helped others and tried it and it built me up so I am strong, have a good appetite and feel better in every way."—Mrs. James Croker.

The reason Vinol was so successful in Mrs. Croker's case is because it contains the very elements needed to build up a weakened, run-down system, make rich red blood and create strength. Emil A. Schaefer, and druggists everywhere.
