RATE INCREASE ORDER CHANGED

Public Service Commission Is
Informed of Action Taken
at Washington.

Director General McAdoo's order No. 28 for a freight rate increase of 25 per cent effective June 25 has been modified, the Oregon public service commission is informed in a telegram from Charles E. Elm-

quist, secretary of the national association of railway and utility commissioners. One of the amendments is that the minimum car charge of \$15 will not apply to brick, cement, coal, coke, logs, ore, sand, gravel and stone, though all increases will apply to both state or interstate class and commodity rates and classifications subject to the minimum on class rates provided in interstate classification.

With the exception of grain and grain products only one increase will apply to through or combination rates. Car minimum charges will not apply to switching movements within terminals.

Commissions representing about thirty states conferred with McAdoo

and he authorized them to take up the questions of co-operation and modification with Judge Prouty, a director of the railroad administration, and specific recommendations covering both subjects were approved by Prouty. The Oregon commission and shippers conferred on the subject of intrastate modifications in Portland yesterday.

One Emergency Meeting May Suffice for Year

At a meeting of the state emergency board to be called some time in July, instead of this month as formerly planned, the amounts of de-

ciency appropriations needed by state institutions will be closely estimated. There is a possibility that my taking care of all deficiency appropriations at the July meeting may further necessitate for the board to meet before the next session of the legislature will be obviated.

Notwithstanding high prices shown when bids for the semi-annual purchase of supplies were opened Wednesday, it is still apparent that some of the state institutions will be able to get by the remainder of the biennium without deficiencies, but that deficiencies will be created in the maintenance funds of some of them, notably the penitentiary and the state hospital, seems certain.

Warden Murphy of the penitentiary is still of the opinion that his institution will not need more than \$57,000 as a deficiency appropriation.

EXAMINATION OF CREEL SATISFIES

Head of Committee Explains
Motive in Writing Social-
istic Editorials.

WASHINGTON, June 12.—Editorial articles written by him at Denver seven years ago which members of congress have attacked as Socialistic and inimical to American institutions were repudiated today by George C. Creel, chairman of the committee on public information, during the closing hours of a two-day examination before a house appropriation sub-committee.

When questioned about these articles Mr. Creel explained that they were written in the heat of a campaign conducted by the newspaper on which he was employed and that they did not now represent his views.

Members of the sub-committee, one or two of whom have been among Mr. Creel's bitterest critics, indicated afterward that they were satisfied with the explanation. They are considering an estimate of \$2,098,000 for the expenses of the committee on public information during the coming year. No vote has been taken, but it is expected that most of the items in the budget will be approved.
