CAMP LEWIS NOTES

CAMP LEWIS, TACOMA, Wash., June 18.—Captain Cassius R. Peck, head of the exemption board, has been made camp judge advocate. It was announced today. Heretofore Lieutenant Colonel George V. Strong division judge advocate, has filled both offices. Captain Peck, whose home is at Coos Bay, Or., will continue as head of the exemption board. The promotion of Lieutenant Colonel W. H. Jordan of the 32d infantry to colonel was announced today. Colonel Jordan has been assigned to command of the Twentieth infantry, regular army, at Fort Douglas, Utah. His home is at Portland, Oregon. Colonel Jordan is one of the regular army officers who has risen from the ranks, enlisting as a private in the Oregon volunteers in the Spanish-American war. He was sent to the Philippines where he was commissioned first lieutenant in the 18th infantry in 1898. In 1904 he became a captain in the 12th infantry, served for a time in the quartermaster's corps, in 1913 was transferred to the 14th infantry in 1914, and was adjutant of that regiment at Fort Lawton until 1916 when he was sent to the border during the Mexican troubles. He was one of the instructors at the first officers' training camp at The Presidio, San Francisco, and after his promotion a year ago in August to major and then lieutenant colonel he was sent to Camp Lewis to the 32d infantry. The Y. M. C. A. at camp has a woman secretary. She is Miss Marguerite Aellen, formerly of the Spokesman-Review at Spokane and comes as a stenographer at Y. headquarters. She is the first woman employed by the camp Y. M. C. A. First infantry troops who recently arrived at Murray, near here, from Honolulu, are getting their first real night's rest in six years. Though the temperature in the day is approximately the same as in Hawaii, the men soon found that they were not equipped for Washington nights and the Red Cross was called on for a supply of quilts and sweaters. One thousand two hundred and eighty quilts were supplied the soldiers. Elmon L. Wiener, Seattle attorney, who for several months has been in charge of the Jewish welfare board work at Camp Lewis, left today for Camp Kearney, Cal., to take charge of the board's work among the soldiers there. He will be succeeded by E. C. H. Saulson, Detroit business man, who is in camp today. Mr. Wiener's assignment to Camp Kearney comes as a recognition of his services here where he has made the Jewish activities an important part of army life. It was through his efforts that the center for Jewish activities was opened in one of the officers' training camp buildings where a reading and social room comfortably furnished is available for soldiers at any time of the day.

Lazy Bowels—Lazy Brains

Lowered efficiency can often be traced to Constipation. Do you tire easily? Does your work lack interest? Is it hard to concentrate? If so, your intestines may be clogged. This often poisons the entire system. And other ills result. Constipation should be treated knowingly. Don't merely buy some remedy hastily—study the new and better way. The crudest treatment is a violent cathartic. It spurs the system into an abnormal action. Then comes chronic Constipation. The intestines depend upon artificial activity. All this is needless. All these old-fashioned purgatives have been replaced. Stanolax is the name of a new and great corrective of intestinal debility. Stanolax is a lubricant, not a cathartic. It keeps the walls of the intestines clean and healthy. It dissolves and carries away the treacherous poisons. It encourages the normal muscular contractions of the intestines.

Stanolax is absolutely neutral—tasteless, odorless, colorless. It is devoid of drugs. It can be taken in large or small doses without the slightest injury. It passes through the system without being digested or absorbed. Stanolax causes no violent, gripping action. Nor does it injure the intestinal walls. It soothes while it lubricates. Free yourself from Constipation now—and stay freed—by keeping your intestines lubricated with Stanolax. Your druggist has Stanolax, or will get it. One bottle will convince.

BITS FOR BREAKFAST

Rain wanted, still. And it is wanted soon. Not after all the hay is down. Italy is holding, and even coming back.

And Hindenburg is hesitating again, on the western front.

An outstanding item of yesterday's war news is that of several attempts of the Germans to penetrate the American lines in the Chateau Thierry sector. And that they were all smashed, and it may be added that there are smashings due on all such future attempts.

The Austrian pinners are those of a crawfish, this time, on the Italian front. The crawfishing has already commenced.

Thousands of American troops have been passing through Salem during the past two days and nights—solid train loads of them. They are on their way to France, to join their victorious brothers who are beginning to put the finishing touches on the power of brute force in the world.
