Miss Minnie Breeden, who has had several months experience in holding down a man's job elsewhere, has recently been installed as operator of the elevator in the Hubbard building. An increase of business may be looked for at that point. For some time Miss Breeden was a street car conductor at Murphysboro, Ill.

Irrigation for 1918—For the purpose of trying to make the irrigation service more satisfactory the city will be divided into two districts so that each district will get the full service of the plant upon the day it irrigates.

The plan is to have the houses which bear even numbers on the streets irrigate only on Monday, Wednesday, Friday and Sunday, and the houses which bear odd numbers on the streets irrigate only on Tuesday, Thursday, Saturday and Sunday. This plan will permit every house to irrigate four days out of each week. The purpose of the Water Company in furnishing water for irrigation is not to furnish all the water a person can run through the hose in the six irrigation hours every day, but to furnish enough water to keep the lawn in condition. To use more than enough is a waste. We will pump the usual amount of water and hope to furnish it more satisfactorily.—Salem Water Light & Power Co.

The Apex Electric Cleaner—Gets all the dirt that can be gotten by any vacuum cleaner and cost much less. Let us give you a demonstration. C. S. Hamilton.

PUBLIC ESTIMATES
A good many people are agreed that the Chiropractors have a peculiar kind of ability to help the sick, with which they have not met in their dealings with other kinds of health practitioners. A large measure of the public have concurred in the opinion that there is merit in Chiropractic spinal adjustments great enough to insure the permanency and steady growth of the practice. This consensus, necessarily of slow accumulation due to the comparative newness of the work, is now of ample proportions to not only vindicate the judgment of those who created it by lending their favor to the Chiropractic mode but to influence a proportionately greater public recognition through the future. At its present rate of growth, Chiropractic health service in every home in a not far distant time is a feasible proposition.
