Lewis to Medford

State Engineer Lewis left last night for Medford to confer with directors of the Medford irrigation district relative to a proposal to take the water supply for that district from Big Butte creek instead of Beaver creek. Whether the plan will be feasible will be determined as investigations are made. The Medford directors believe Big Butte creek would furnish a safer supply. Arrangements have not yet been completed for the sale of bonds which the directors propose to put to the vote of the people in the district. Also the bonds would have to have the approval of the capital issue committee. The project covers about 20,000 acres.

LEMON JUICE TAKES OFF TAN

Girls! Make bleaching lotion if skin is sunburned, tanned or freckled

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quarter pint of the best freckle, sunburn and tan lotion, and complexion beautifier, at a very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck arms and hands each day and see how freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

Purchasers of Tickets—For the Apollo club concert at the Grand Opera house on Wednesday night, can now exchange their tickets for reserved seat tickets, at the Opera House Pharmacy.

Irrigation for 1918—For the purpose of trying to make the irrigation service more satisfactory the city will be divided into two districts so that each district will get the full service of the plant upon the day it irrigates.

The plan is to have the houses which bear even numbers on the streets irrigate only on Monday, Wednesday, Friday and Sunday, and the houses which bear odd numbers on the streets irrigate only on Tuesday, Thursday, Saturday and Sunday. This plan will permit every house to irrigate four days out of each week.

The purpose of the Water Company in furnishing water for irrigation is not to furnish all the water a person can run through the hose in the six irrigation hours every day, but to furnish enough water to keep the lawn in condition. To use more than enough is a waste. We will pump the usual amount of water and hope to furnish it more satisfactorily.

LIME BOARD TO DEBATE PROBLEM

Meeting Is Called at Corvallis and Differences May develop.

At a meeting of the state lime board at Corvallis today differences may develop between Warden Chas. A. Murphy of the state penitentiary and other members of the board relative to a plan for raising money to complete and begin operation of the plant at the Gold Hill lime quarry. Funds appropriated for the board by the last legislature are all but exhausted and the state's lime industry will have to be dropped temporarily unless further funds can be obtained.

Chairman A. B. Cordley of the lime board has wired Warden Murphy from Corvallis that a meeting will be held there today and that he has a plan to submit. Murphy does not know what Cordley's plan is, but says the only method of going into debt that will receive his approval is through creation of a deficiency by the state emergency board which is the only regular manner of procedure under law.

"A plan might be offered for creation of indebtedness with the expectation that enough lime could be sold to pay off the debt," said Warden Murphy. "But who knows whether the farmers are going to buy lime? If they did not buy then the board would have a problem on its hands to get rid of the debt. I have protested against any similar action and will continue to protest."

The Teachers' National Service Bulletin is issued by the federal committee on public information.

"Through this committee all war work will be unified," said Superintendent Churchill, "any other organizations that want assistance from the schools must work through the committee. I expect it to result in greater accomplishment by the teachers and the schools and with less effort. Teachers have been depended upon to a great extent to help in war work and the schools have assisted willingly whenever possible. Sometimes there has been doubt as to whether some of the organizations asking help from the schools have been clothed with the authority they claimed, and through the new committee all doubt will be eliminated."

Helpful Hints on Banking

"JOINT" ACCOUNTS

THESE may be termed partnership accounts between individuals. For instance, two or more members of a family may open a Checking or Savings account here at the United States National Bank in one name—and, as many as are before hand specified, may make withdrawals from that account.

In these Thrift days, this is a splendid way to build up the household finances.
