WAR INCENTIVE FOR ADVANCES
Market Strong and Moderately Active—Bulletins Give Impetus to Advances.

NEW YORK, June 24.—War news was the chief incentive for today's strong and moderately active stock market, traders attaching much sentimental value to the Austrian retreat. Bulletins from the west front also gave impetus to the advance, which encompassed many leading issues, rails excepted.

United States steel made a gradual rise of 2 1/2 to 10 3/4, its highest level in a month on the turnover, but completely swamped all other issues.

Baldwin Locomotive was the center of additional activity during the morning.

Metals emerged from their protracted period of inactivity at advances of 1 to 2 points in expectation of the adoption of a more liberal attitude by the government toward producers and refiners.

Tobacco, oils and leathers were the objects of successful bullish attention from professional interests, extreme gains of 1 to 2 points being fairly well maintained.

Neither time nor call money rates were disturbed by last week's contraction in bank reserves, but local institutions are taking precautions against heavy withdrawals incident to the thrift stamp "drive."

SHARP BREAK IN PRICES OF CORN
Market Closes Heavy—Oats Relatively Weak Throughout the Day.

CHICAGO, June 24.—Increasing magnitude of the Austrian defeat together with London talk of a possible separate peace with Austria,
