### WAR SUMMARY

maining Austrian rear-guards from been repulsed, the west bank of the Piave river and ere still barassing them, inflicting heavy casualties and forcing the en-

emy to continue his disorderly retreat Fate has truend somewhat its balce in favor if the Austrians, for the Piave river again has risen and come of the pontoon bridges the Italians had thrown across the stream have been carried away, making impossible quick pursuit and the crushing of the Austrians, which General Diaz had counted upon. The Austrians are declared to be rushing up reserves from the east.

The Austrian war office admits ances that the retrograde movethe lowest estimate is 150,000 men, entente was a dream.

Labor Shortage Heralded Abroad, Attracts Lads in Neighboring State.

SILVERTON GIRLS COME Two thousand, two hundred and

Honor Guard Sends Members to Cherry Orchard-Reserves Active.

Although much has been done to relieve the local labor situation, it still remains a complicated and strenuous problem for those who are trying to meet the demands. Comparatively few berry pickers are beng eurolled at the federal labor office, but continual -additions are made to the ranks of berry pickers from outside points. Undoubtedly dy of considerable property and huslarge numbers of workers have gone iness interests of men now in the directly from their homes to the orchards and berry fields without reporting to the committees. It is known that the cherry orchards are now fairly well supplied.

A group of about thirty young women sent out under the supervision of the Y. W. C. A., is at work in one of the cherry orchards, and yesterday a group of twenty-six Honor Guard girls from Silverton arrived in the city with their chaperone, cook and camp equipment and were stationed at the Legg orchard a few miles from town. A camp of some tyenty-five members of the Working Boys Reserve has been stationed near Brooks by H. N. Aldrich, under the supervision of the Y. M. C. A. It is understood that a similar group of Boy Scouts may be made up in the city, and another camp is on its way here from some point in southern Washington.

Letters Volunteer Service The labor office has received communications from different points in the state offering to send families or groups of pickers providing that camp equipment can be furnished These, of course, must be turned down as there is a dearth of camp equipment for those already in the field. It is impossible even to secure transportation for all those who have volunteered in Salem. This is a feature of the case that is causing the most annoyance to the committees in charge. Out of all the hundreds of cars in Salem less than twenty have been secured for the use of the berry pickers. The comittee has made up an alphabetical list of all the car owners in the city. and now proposes to camp on their The Germans are bombarding the trail with the persistency of a collection agency until enough have been secured to carry the city pickers. the Asutrians in Italy and the spirit | The committee wishes to impress the owners of cars that a shortage of transportation means a loss of fruit in the fields. The names of those who have thus fare responded are as

#### **CAMP LEWIS NOTES**

CAMP LEWIS, TACOMA, Wash. June 25 .- Big husky recruits from Washington, Oregon, Montana and Idaho, to the number of 2265, arrived in camp today and tonight in the biggest day of the June draft. The splendid physique of the new men was specially noted by the officers at the receiving tent, where the new men report. Suitcases were piled high at the American Lake railway station and the men were given their first military hike in the mile and a half march down California avenue to the receiving

fifty-five are due tomorrow, the greater number coming on special trains. Of these 1633 will be from Montana, 293 from Oregon, 258 from Washington and 71 from Idaho. Two specials from Idaho and Oregon arrived tonight.

How a Lieutenant disposed of his household furniture at his own price through the civilian relief branch of the American Red Cross was told today by W. R. VanValen, assistant director The lieutenant had a home near camp when unexpectedly summoned away. He sent the key to the Red Cross and a Lieutenant recently married moved in with his bride a few days later. The Red Cross here has been given the custoarmy and is working with local organizations in each community.

Work is nearing completion on the addition to the Red Cross headquarters. A large room has been built for the use of Tacoma women who come to camp weekly to patch clothing and darn socks for the soldiers. This has become an important part of the work and one which the men appreciate, proof being the quantities of clothing brought in for repairs.

Captain T. G. Cook, camp athletic director, left today for his home near Butte, Mont., for a rest. Captain Cook has been constantly at camp all winter, directing the athcantonment and recently succeded in paying off all indebtedness of the department and placing a large sum in the heands of the 91st division for overseas athletics from proceeds of the military horse show.

Major M. D. Welty, former camp censor and assistant to the chief of staff of the 91st division, today received orders transferring him from Camp Lewis to Camp Funstan, Kan. Major Welty was appointed to West Point from Pennsylvania and recently was promoted from captain of infantry to major,

## BONES CAUSE OF QUANDARY

Workmen Excavating Near Independence Find Human Skeleton.

DALLAS, Or., June 25 .- (Specia) to The Statesman) - While excavating for an addition to the big fruit evaporating plant of the Wittenberg-King company on Horst Bros. old hop ranch near Independence last week workmen unearthed parts of the skeleton of a human being. Word was immediately telephoned to Coroner R. L. Chapman of this city. who with Sheriff Orr and District Attorney E. K. Piasecki went to the place where the remains were found. The skull was about the only part of the body that was still in a fair state of preservation, the balance of

the bones having almost rotted away. From parts of the other bones found the coroner estimated that the remains were probably those of an old Indian who had been buried on the spot a number of years ago. The teeth in the skull were worn down almost to the jaw bone and gave evidence that the owner was probably well along in life when death came. Whether death was due to natural causes or otherwise could not be determined, no evidence of a shot or blow on the head having been found by the coroner's party. The skull was brought to Dallas by Mr. Chapman.
