PACIFIC COAST TAKES HONORS

Makes Clean Sweep of Emergency Fleet Corporation Flag Awards.

WASHINGTON, June 28.—Shipyards on the Pacific coast made a clean sweep of the honors awarded for the first time by the Emergency Fleet Corporation to plants excelling in construction of vessels.
First honor blue flags, awarded on the basis of output in May, will go to the Bethlehem Shipbuilding Corporation (Union Iron Works plant), San Francisco, for yards building steel ships and to the Grant-Smith-Porter company of St. Johns, Or., for the yards building wooden vessels.
Second and third honors among yards building steel ships were awarded to the Skinner and Eddy Corporation, Seattle, Wash., and Moore Shipbuilding company of Oakland, Cal., and among yards building wooden ships to the Aberdeen, Wash., yard of the Grant-Smith-Porter company and the Allen Shipbuilding company of Seattle.
Rear Admiral Frank F. Fletcher heads the board which made the awards. Officials hope that the flags will reach the yards in time to be raised July 4. They will be retained by the winning yards for one month.

Large Number of Officers Picked for New Ranking

WASHINGTON, June 28.—President Wilson today sent to the senate the names of eight new major generals and forty-three brigadier generals of the national army to fill vacancies now existing in the military service. Most of the men advanced in rank are now serving in France and the selections are those of General Pershing. Officers in this country were selected by General March, chief of staff, and in both cases the lists show that capabilities of the officer and not his seniority in the service, governed his selection.
General Pershing's list includes two national guard colonels—Cornelius Vanderbilt and John H. Shuburne to be brigadier generals. The others are all regulars.

- 2. Salem, Or.; George J. Bobal, Hastings, Pa.; Paul N. Crow, Crossetts, Ark.; Bert Cunningham, Five Lake, Mich.; Chester L. Curtis, Atlanta, Ga.; Robert J. Duffy, Boston; Lacey Gibbs, Ellis, Kan.; Vincent J. Ichniowski, Baltimore, Md.; Earl E. Kragan, Cleveland; James E. McGinn, Minnesota, Minn.; Daniel T. McKenna, Roxbury, Mass.; William O. Mitchell, Louisiana, Mo.; John E. Oberle, Riverview, O.; Andrew Ontke, Larksville, Pa.; William M. Park, Brooklyn; Martin L. Parson, Palmyouth, Ky.; Emmett L. Patton, Winesap, Tenn.; Howard M. Pell, Creston, W. Va.; Andrew M. Perash, Courtdale, Pa.; Hugh V. Schenck, Chicago; Laurence W. Thomson, Estes Park, Colo.; Herbert R. Wegenas, Rome, Ind.

COUGHS AND COLDS VANISH
"Summer colds" are not hard to break up, coughs and hoarseness are easy to get rid of, if you will take Foley's Honey and Tar Compound. Mrs. Mary Sogdam, 232 Maple st., Perth Amboy, N. J., writes, "It helped my throat, never had anything better." Slightly laxative. Contains no opiates or narcotics. J. C. Perry.

HUNDREDS ARE YET TO ARRIVE

Schedule for Recruits at Camp Lewis Disturbed—800 Men on Way.

CAMP LEWIS, TACOMA, Wash., June 28.—Although only 2,000 men were scheduled to arrive at Camp Lewis in the draft tomorrow, it was expected the number would far exceed that figure because of the failure of several hundred men due today to report on schedule time, nineteen hundred and eighty-eight were due today but early this afternoon they were running about 800 behind schedule and officers at the receiving tent expected a whirlwind finish to the little induction into service of the June draft.

The men are being put through the mustering office this month as fast as they are being received at the receiving station. Thirteen hundred men are being given their final medical examination daily and definitely accepted or rejected. The percentage of rejections is running higher than for many months, in some cases being as high as 20 per cent. The reason for this is unexplained. Officers believed it was due to the new physical requirements, made more stringent this month. Most of the men were examined last winter after filling out their questionnaires while the less stringent regulations were in force.

Precautions against fire were urged upon the troops here today in instructions calling for frequent inspection of fire buckets and apparatus. All inflammable material, especially paper and straw, must be kept away from the barracks, the instructions said.
Apartments with private bath, hot and cold water and bell boy service are not a part of the soldiers life at Camp Lewis. An Idaho draft recruit today found this out. "He came to camp with a contingent from his draft board packing along a big trunk containing several changes of clothing, bedding and toilet articles.
"Where can I find a good apartment near here?" he asked Lieutenant C. S. Reidy. I want near enough so I can go back and forth from drill."

"Run along with the rest of the boys and you'll find one with eight shower baths, two tubs and plenty of ventilation," the lieutenant answered. "And you'll be called in plenty of time for drill every morning," he added.

COAST LEAGUE

RURAL POINTS BUY HEAVILY

(Continued from page 1)
More than \$1000 of its quota of \$6320, and this is expected to be made up by Monday. A good meeting was reported at Hazel Green, where the quota was passed by the canvassers. District No. 96 has beaten its quota by a liberal margin. Shaw, in District No. 80, is \$500 to the good with a quota of \$4370.

WOOL CONSUMED IN ONE MONTH

United States Department of Agriculture, Bureau of Markets, Washington, D. C., June 17, 1918.—An effort was made to obtain information from all manufacturers of woolen and worsted textiles throughout the United States, of the wool consumed during the month of May, 1918. Schedules were sent to 575 concerns; 47 concerns reported no wool consumed; 6 returned schedules stating that their raw material consisted of tops, yarns, and wastes; one firm failed to reply.

This comparison is based on the wool consumption report issued June 17, 1918.

Big Lawyers Volunteer Services Against O'Leary

H. Snowdon Marshall, former United States attorney in New York, and Delaney Nicholl, former district attorney for the state, both of them famous lawyers, volunteered their services to the government to prosecute Jeremiah H. O'Leary, the Irish leader, who was captured as a fugitive in Sara, Wash., to be tried on a charge of violation of the Espionage Act.

1,500,000,000 QUARTS IN 1918.

The home-canning drive for 1,500,000,000 quarts of "put up" foods in 1918 is on. Three thousand home-demonstration agents and leaders in boys' and girls' club work in the United States Department of Agriculture are ready to help the Nation to this goal. They have started out to each the Nation to can and to do a good job of it. In addition to this number many thousands of volunteer leaders are working with these extension forces of the department of the summer campaign. Last year the home canners put up 850,000,000 quarts, it is estimated.

Leaders are being trained in the department's laboratories. This work will continue all summer and expert demonstrators will be turned out to carry the latest canning information into the field. In the North and West canning schools for demonstrators are being conducted at many of the state agricultural colleges and in community centers.

Every canning club group among the boys' and girls' clubs in the North and West is organizing a demonstration team of expert canners. These teams will be uniformed and will give demonstrations at public meetings in their communities. Over 30,000 boys and girls will take part in this work.

Ten manufacturers of rubber rings for glass jars have raised the quality of the rings to a standard required by the federal department of agriculture. This will be an important factor in encouraging more canning, for the assurance of good rings will mean an increased output of canned products among the home canners.

Manufacturers of glass jars, stone crockery ware, tin cans and fibre box-

BATTALION IS MUCH ADMIRER

Salem Guard Companies Put Through Exhibition Tactics Last Night.

The Salem battalion, three of four hundred men in brown khaki, stalwart, energetic, with every indication of solidity and fitness in the erect form—a force to be counted upon in any emergency, were put through an exhibition drill at the high school athletic ground last night.
Forming in lines on Ferry street under the direction of Major A. A. Hall and his subordinate officers, the three companies were marched in platoons up Court street, past crowds of admiring and applauding citizens, and out to the athletic grounds. There, before a crowded grandstand and a semi-circle of spectators about the grounds, they were put through a series of drill marches in files, by platoons, by companies and in ensemble. The ground was rough and covered with tangled grass, and the marching furnished a good test for the men in khaki. They got the glad hand as they passed the grandstand—as fine a column of men as ever wore the uniform.

es are also co-operating in improving their products and in securing a sufficient supply to meet the summer's demands.

Sufficient sugar will be available this summer for home canning, according to the United States Food Administration. The only requirement made is for a signed statement that the amount purchased is to be used for that purpose. Local regulations governing the maximum amount of sugar for canning allowed to individuals during the season are made by state food administrators.

Policing of Panama and Colon Ordered by Baker

WASHINGTON, June 28.—Secretary Baker instructed Major General Blatchford commanding the department of Panama, to take over the policing of the cities of Panama and Colon for the purpose of maintaining public order. The action required from information received at the state department from the government of Panama that grave disorders were expected because of the postponement of the national elections set for June 30.

COAL PASSERS IN DEMAND
CHICAGO, June 28.—Edwin N. Hurley, chairman of the United States shipping board said today that the most important work for which volunteers are wanted in the carrying out of the government's shipping program is shoveling coal aboard the ships.

WHAT DO THEY SAY

When they read your circulars or catalogs? Do they answer or throw them into the waste basket?
