ROBERT S. GILL ENTERS SERVICE
 (Continued from page one)
 but undoubtedly it will be along the line of welfare work in the spruce department. He expects to leave about August 1.
 In the meantime his resignations as rector of St. Paul's Episcopal church, and as manager of the Commercial club, have been presented. For five years Mr. Gill has been rector of St. Paul's church.
 Although serving the Commercial club in an official capacity for only a few months, he has made himself invaluable there through his administration of its affairs and through the movements he has helped to initiate. Probably no one citizen of Salem has involved himself in such a number of activities in the past few months. Mr. Gill has been especially active in the various drives and campaigns for war funds in the past few months, not only shouldering a big burden of executive work in the office but lending his eloquence to repeated speaking campaigns in the city and county. For these reasons his absence from the club and from the city will be severely felt.

REGIMENT OF OREGON MEN BEING PLANNED
 (Continued from page one)
 Several companies will be located in Portland, and others will be located in Salem, Eugene, Ashland, La Grande and other points. Term of enlistment will be six years, three years active and three in reserve.
 Plans call for annual encampments for the regiment, and equipment is to be furnished by the federal government. Local officers will be allowed to work out their own systems of recruiting men.
 Adjutant General Williams has just returned from Washington where he took up the question of furnishing guns for the Home guard and Oregon guard troops. He was informed by the war department that arms are not available, but with the organization of the new regiment which will be furnished by the government and with many men enlisting from the other state companies a sufficient number of guns will be provided for the state.

DOCTORS TO BE INDUCTED
 BOSTON, July 24.—Guns to be inducted into military service on August 13 all physicians and surgeons in this state who are of draft age and age in class one were received from Provost Marshal General Crowder. The registrars will be called August 13 and are to report to Fort Slocum for special training.

CLEVELAND TO FINISH GAMES
 CLEVELAND, July 24.—Pending a decision by Secretary Baker on the "work or fight" regulations as applied to professional baseball players, the Cleveland club will play out its schedule. It was announced here tonight. The Indians are to meet the New York team here tomorrow.

Australia Great Wheat Granary This Season

WASHINGTON, July 24.—Nearly three hundred million bushels of wheat is stored in Australia, the food administration was informed today. Details of the guarantees surrounding 1918-1919 wheat harvest in Australia also were transmitted. The Australian government has guaranteed 83 cents per bushel and to this the commonwealth has added 12 cents, making the price 95 cents to the producer.
 In Buenos Aires the cash price for wheat is \$1.41 per bushel. Cash corn is selling there for 62 cents per bushel.

LOWER RATE FOR WOOD OBTAINED
 Slab and Cordwood Excepted From \$15 Minimum Ruling of McAdoo

Important to Oregonians who are now paying exorbitant prices for wood is an announcement received by the public service commission from F. W. Robinson, chairman of the district freight traffic committee, that the traffic department of the railroad administration has excepted fuel wood from the ruling making the minimum rate of \$15 a carload on wood shipments. Exceptions apply to slab and cordwood, which are in common use in this state, and among other wood products named are bark, billets, bolts, logs, sawdust and pulp wood, but not wood pulp.

The commission protested at application of the \$15 minimum to fuel woods because of high prices and declared the ruling would be unjust as applied to shipments from points taking a rate of \$1 or less a cord for the reason that many cars carry only fourteen cords.

OREGON BANKS SHOW GROWTH
 Deposits and Resources Increase Many Millions During Year

Notwithstanding that numerous war purposes have been met, Oregon banks show a satisfactory and substantial growth during the last year. Indicated by an increase of \$22,776,417.87 in resources and \$22,395,414.72 in deposits. This is the substance of content made by Will H. Bennett, state superintendent of banks, in issuing a statement covering the condition of all banks and trust companies in Oregon on the basis of the call of June 29.

The total deposits is shown to be \$191,594,420.73. While this is a big increase over the deposits of a year ago, it is a decrease of \$2,744,577.84 from the total at the call of May 19, this year.

AUGUST CALL TO BE HEAVY, LETTER SAYS

Class 1 Men of 1918 Registration to Be Taken Next Month
RELEASES ARE REFUSED

Induction August 5 Will Exhaust Class 1 of 1917 Registration

Draft board No. 1 was inforced in a telegraphic message from Acting Adjutant General Williams yesterday that the August call of drafted men in Oregon will be as heavy as the July call and that about 2200 white men will be taken from the state. Local boards are ordered to refuse releases to the navy, marines or emergency fleet to all 1917 or 1918 registrants in Class 1 until enough are in sight to fill the August call.

Classification and examination of the 1918 class of registrants has not proceeded far enough to make any of that class available for July calls, but a large part of them will be called next month. The Salem board says that the call of August 5 practically will exhaust in this district Class 1 men of the 1917 registration. The message from Adjutant General Williams follows:

"The provost marshal general advises by telegraph that the August calls upon this state will be as large as the July calls and that approximately 2200 white men will be called. Some of the August calls have already been announced, but allments have not been made upon all boards on account of local agricultural conditions. Local boards are hereby directed to refuse releases to the navy, marine corps or the emergency fleet to all registrants of the 1917 or 1918 classes who have been or will be classified in Class 1 until a sufficient number of Class 1 registrants, physically qualified for general military service are in sight to fill promptly and properly all calls up to August 31 with generous allowances for physical deflection at camp. This applies whether or not registrants have been finally classified or examined physically.

"Reports reaching this office indicate that the 1918 class has not been finally classified and examined physically, although boards were directed on July 8 by circular 242 and by telegraph on July 14 to proceed to classification of new registrants and to calling those finally classified in Class 1 for physical examination. Local, district and medical advisory boards are urgently requested to exert every effort to make a sufficient number of men available to fill August calls. Medical advisory boards are especially requested to speed up examination of registrants as yet unexamined. The needs of the army are imperative and there must not be further delay in making the class of 1918 registrants available for service under August calls."

FOR CONSTIPATION AND BILIOUSNESS

They should be in every traveling man's grip." Relieve sick headache, bloating or other condition caused by bad digestion.—J. C. Perry.

Postal Planes Operate at 50 Cents Per Mile
 WASHINGTON, July 24.—Postal airplanes are being operated at a cost of approximately 50 cents per mile between Washington, New York and Philadelphia, a statement issued by the postoffice department said. Nine machines traveled 7,224 miles. Pilot's pay, gasoline, supplies and all other charges are estimated at \$3682. A plane of the army training type showed the lowest cost, 43 1-2 cents a mile. Gasoline consumption was said to have been low, as compared with military experience, a 400 horsepower Liberty motor used 17 gallons per hour.

"Robbie can't you play without making all that noise?" "No, mamma, I can't. You see, we're playing picnic and a storm has come up and I'm the thunder"—Yonkers Statesman.

Prices on Puget Sound Fish Announced by Beck
 SEATTLE, July 24.—Prices to be paid fishermen for the season's catch of Puget Sound cohoes, chums and humpbacks were announced by Charles Hebbard, federal food administrator for Washington, in a telegram today to E. C. Beck, assistant for Western Washington. Prices will be as follows: Cohoes, 50 cents each; chums, 30 cents each, and humpbacks, 12 cents each, effective at once. Mr. Hebbard said in his telegram to Mr. Beck that these prices were fixed after due consultation with those most interested.

"The United States food administration," he said, "after consultation with those concerned, has announced that these maximum prices for Puget Sound salmon will assure fishermen a reasonable profit on their operations. Any higher prices will be regarded as unreasonable."
