### LIBERTY LOAN · TWICE AS BIG

#### Oregon's Quota in Next Cam- ONE WAY FREE paign Double That of Third, Letter Says

In a letter from J ames K. Lynch, governor of the Federal Reserve Bank of San Francisco, to Governor Withycombe is the information that Oregon's quota in the fourth liberty loan car paign will be double that of the third loan which was 32,000,-000 for Oregon. The fourth drive is to last three weeks, beginning Saturday, Sept. 28, and ending Saturday, October 19.

Mr. Lynch's letter says in part: "The secretary of the treasury has informed us that the fourth campaign will last three weeks, commencing Saturday, Sept. 28, and closing Saturday, Oct. 19. While no further particulars have been announced. the indications are that the amount will be so much in excess of previous liberty bond issues that it will call for the greatest possible effort of all interested in making this loan a com-

plete success. "This can be better appreciated when it is remembered that of the three billion dollar third loan the twelfth district's share was 7 per that if the next loan is six billion dollars, this district's portion would therefore practically double the quota allotted to Oregon in the last cam-

#### SELECTION OF CLASS UP TO GOVERNMENT

(Continued from page 1).

"They had heard from outside sources that the department was considering bringing professional classes, like lawyers, newspapermen and persons who were not actually engaged in producing war supplies under the order."

The committe, Mr. Baker continued, was especially interested in the effect of the extension of the draft ages on colleges and also in the question as to whether young men from I up would be drawn indescriminatein class one or placed in a deferred maturity.

#### Eighty Per Cent Crop Is Outlook for Remaining 6000 Acres

The yield in a number of hop ards promises to be very light unless there should come some unusual rainfall. There are about 6000 acres still bearing hops, in the valley and it is estimated here that there may be 80 per cent of a crop on the

According to advices received from Independence, the hop growers there are quite discouraged over the present prospects and there are even some of the growers who will not attempt to harvest their 1918 crop.

One of the largest growers says he does not believe Oregon will produce 5000 bales of hops by 1920. In Polk county picking is expected to begin about September 5, and the smallest acreage in years is reported. The workers are to be paid 50 cents per box for picking this year.

The total acreage for Polk county this year will be only 375 acres.

#### Court Holds Wolfard Was Over Age at Registration

A hearing before Judge Bingham of the circuit court was necessary to determine whether Louis J. Wolfard of Silverton was of draft age when he registered at the first call. He was uncertain of his age at the time, but it was decreed yesterday he was born May 16, 1885, hence was 32 years old when he registered.

Subsequent to his registration Wolfard enlisted in the aviation section of the service and is now stationed at Redwood, Calif. When the probability of a new draft law, including men from 18 to 45, began to loom, Wolfard was confronted with the possibility of having to register again and a chance of being transferred in the service. The case was then taken into court.

Relatives and neighbors were called as witnesses and the etstimony was convincing enough to cause the
