STOCKS TAKE UPWARD TREND

Dealings Moderate in Aggregate but Cover Large Number of Issues

NEW YORK, Aug. 9.-Gratifying war news and prospects of an early amicable adjustment of the dispute between the railroads and federal authorities gave an upward impetus to stock today, the hardening processing extending to bonds.

Dealings were very moderate in the aggregate, but encompassed more than the usual variety of issues. Active rails scored extreme gains of one to two points, that range also applying to industrials and specialties.

United States Steel presented the way throughout, its extreme advance of 1 1/2 points to 111 1/2, the highest price in several weeks, and retaining all but a small fraction.

Baldwin Locomotive advanced 2 1/2 on the strength of reported dividend action in prospect.

Other firm and strong features included marine, preferred, American Locomotive, Railway Steel springs, New York Airbrake, Great Northern Ore, Mexican Petroleum, and tobacco.

Sales amounted to 360,000 shares.

Exchange was firmer, all around, reflecting the more confident feeling regarding the foreign situation. Sterling and francs were higher and likewise rates to neutral centers, Spain excepted.

For the first time this year Liberty 3 1/2 sold at a slight premium, touching 100.02. Foreign flotations also stiffened fractionally on an appreciable increase of trading. Total sales, par value, aggregated \$7,450,600. United States bonds, old issues, were unchanged on call.

THINGS THAT NEVER HAPPEN

THINGS THAT NEVER HAPPEN

Barley, bu. 55,996,000 57,664,000
Oats, bu. 50,652,000 43,037,000
Rye, bu. 1,043,000 580,000
Hay, tons 12,651,000 13,604,000

Although a marked increase in production of wheat, oats, and rye over last year is indicated, an extremely cold spring with scanty rainfall has caused a reduction in the earlier estimates. This is most noticeable in California, where the barley production is estimated at nearly 6,000,000 bushels less than in 1917, although the acreage is only 40,000 less. In California, Arizona, and Nevada the new crop of barley is already coming into the warehouses, and the wheat harvest has started.

Pastures are reported as about 10 per cent below the average. Short crops of peaches and prunes are expected, while apricots and the other deciduous fruits will probably yield an average crop. A heavy crop of cantaloupes is indicated. Fruit is now being shipped from California in considerable quantities, and the canneries are in operation. Lemon and orange groves are in splendid condition, but a shortage in sugar beet production is expected, due not only to adverse weather conditions but also to a reduced acreage. Present indications point to a normal grape crop at double last year's price. The food administration is regulating the prices of most products on a basis eminently fair to producers and consumers, speculation being prohibited.

California has the highest yield of cotton per acre of any state in the Union, Louisiana ranking second. Acreage yield and farm value for the last three years are as follows:

Yr.	Acres.	Ttl. bales.	Value.
1917	117,000	67,000	\$9,280,000
1916	52,000	44,
