TROELSTRA ON **WAY BACK HOME**

Socialist Leader Disappointed in Failure of Henderson to Get Passport

GENEVA, Tuesday, Aug. 13.-Pieter Troelstra, Dutch Socialist leader, and Germanophile, who came to Switzerland in order to arrange an international pacifist conference, has announced from Vevey that he is returning home. The British government's refusal to issue a passport Labor party in the house of commons, appeadrs to be the finishing blow on the enterprise of Troelstra, but the Germans, especially since their recent defeats, continue to exert heavily their peace propaggnda in Switzerland.

This propaganda chiefly is concentrated at Geneva and the object frankly is to get in touch with the allied representatives. The Germans now are employing every diplomatic means in order to minimize their difficult military situation.

COOPERATION TO BE URGED

Reading, Lloyd George and Balfour Will Confer on Future War Plans

LONDON, Aug. 14 .- According to the Evening News, Lord Reading, the British ambassador to the United States, who is here, will discuss with Premier Lloyd George and Arthur J. proposals for a closer Anglo-American co-operation, both during the war and afterward. The newspaper says the proposals involve an ofwhich the co-operation of other dem-

ocratic nations will be welcomed. Lord Reading's visit has mainly to do with financial readjustments connected with the assumption by the United States of responsibility for loans to allied nations heretofore borne by Great Britain, the Evening News says, and with the conclusion of negotiations for certain further loans in which the United States, Great Britain and France are to par-

are progressing slowly. North of Gury, where the Germans are installed in the old French trenches of 1914, they have gained no ground. The enemy here in a lucky moment tumbled into ready-made fortified positions.

As the enemy retreats he is picking up his slow moving material and is accumulating an increasing number of guns and quantities of munitions. The French, in advancing, have tended to outstrip their artillery and there are no tanks to assist the infantry.

The French are advancing against the line, which is thinly held, but which is bristling with machine guns, and are fighting in the atmosphere of mustard gas. Yet, they have wrested dominant positions on the battlefield from the enemy.

U. S. Patrols Successful WASHINGTON, Aug. 14.—"In Lorraine one of our patrols made a successful raid on the enemy's lines and brought back prisoners," General Pershing's night communique said. "In the Vosges a hostile raiding party was repulsed. With the exception of considerable artillery activity along the Yesle there is nothing further to report."

Explanation Must Be Public, "The consuls demanded that to be acceptable the explanations must be publicly made by the head of the government himself. They also pointed out that the question was inseparable from that of the departure of the members of the former military

After having agreed to facilitate the departure of these persons, in accordance with international law, the governent, they said, had raised absolutely inadmissible objections. The foreign representatives also stated that they could not see in this attitude anything but confirmation of Lenine's declaration of the existence of a state of war. Tchitcherto Arthur Henderson, leader of the in said that he would give a reply within three days.

"On the night of August 2 a reply was received from Tchitcherin. It stated that inasmuch as Lenine's utterances were made behind closed doors in a meeting at which an agent of the allies could be present only owing to a special courtesy on the part of the soviet government, public explanation could not be given about non-public utterances. As to the members of the military missions Tchitcherin said that negotiations had been begun with the German authorities to procure safe passage from Petrograde to Stockholm for these officers, passage through Archangel being impossible because British cruisers had already begun the bombardment of the islands, covering Archangel.

Conference Significant. "A third report from Consul-General Poole states that on the afternoon of August 5 there was a conference between Tchitcherin and the consulsgeneral of Japan, Sweden and the United States with the following

"First, the soviet government gave solemn assurances that allied persons having diplomatic of unofficial chaarcter would not be molested; second, Tchitcherin stated that the allied military missions would not Balfour minister of foreign affairs, be allowed to depart, as had already been promised; third, that civil persons arrested were hostages for the lives of soviet members in territory occupied by the allies. Tchitcherin fensive and defensive alliance in said that these persons are civil prisoners arrested, in accordance with the practices of war, for internment. He added that no responsibility could be assumed for their future safety because Great Britain and France attacked Archangel without a declaration of war.

> "A fourth message from Mr. Poole dated August 8, stated that the authorities forcibly entered the consulates-general of France and England. on the afternoon of the fifth and arrested the consuls-general and their staffs. At 3 o'clock on the morning of the sixth, the consuls-general and part of their staffs were released through the untiring good offices of the Swedish consulu-general. Mr. Poole pointed out that these acts occurred immediately following the solemn assurances given by Tchitcherin that all persons having diplomatic or consular character would be re-

"All steps were being taken for the security of private American citizens who had not been molested so far. Mr. Pooles added that departure would probably be by woy of Petrograd and Stockholm. At the instance of the Swedish consul-general, the German embassy had atready recommended to the German government the issuance of the neessary safe conduct.
