Forty Five Years of Success The astonishing Record of PERUNA

Not a cure-all, but a rational remedy for catarrh and all inflammation and congestion of the mucous membranes.

Catarrh attacks the mucous linings in any organ, in any part of the body. It is not, as some imagine, confined to the nose and throat, although nasal catarrh is the most common form and affects many people. Untreated catarrh soon breaks down the tissue and destroys the organs or part. Evidence of the ravages of catarrh are all around us. Without desire to frighten anyone, we say: "Guard yourself against catarrh as you would against the direct plague. Fortify your system. Take Peruna."

INSPIRING WORDS FROM THOSE WHO KNOW. A Good Medicine in the Family. I had a bad case of LaGrippe and could get no relief. Peruna cured me. It is a fine medicine. We often use it in the family and find it good. MR. C. S. WALKER, 525 First Avenue, East Lake Station, Birmingham, Alabama.

PERUNA IS LIKE A DIFFERENT PERSON. Peruna has cured my stomach and I feel like a different person. I only took twelve bottles of Peruna and can eat anything without distress, something I have not done for fifteen years. I recommend Peruna to everybody suffering with catarrh of the stomach. J. J. THOMPSON, 1021 1/2 St., Columbus, Georgia.

FOR ALL FORMS OF CATARRH. Peruna is indicated for all forms of catarrh or catarrhal inflammation and congestion of the mucous linings in any part of organ, such as nose, throat, bronchial tubes, lungs, stomach, bowels, kidneys, bladder, etc. It is fine for coughs, colds and effects of the grip and an excellent preventive remedy. If you want health, insist upon having Dr. Hartman's World Famous Peruna Tonic. Sold Everywhere.

Cuba Sending Us Sugar, Tobacco, Ships; Money

WASHINGTON, Oct. 12.—Cuba's latest war offering took the shape of a consignment of 240,000 cigarettes and 3,500 packages of smoking tobacco for distribution to the American soldiers in France. In transmitting the gift, the Cuban minister explained that it was sent by the Cuban people in recognition of the work of the American army and as a token of the sincere friendship between Cuba and the United States.

This is not the most important contribution Cuba has made. While larger nations of this hemisphere have been doing their best to defeat the Prussian dream of world conquest, Cuba has not been idle. Her declaration of war came on the same day as our own. Since then, Cuba has furnished us with sugar and sent us ships. She has made outright presents of money and has established an active Cuban Red Cross organization headed by Senora de Menocal, wife of the president of the Republic. She has passed a national service law and has issued \$30,000,000 worth of government bonds. American officers have been invited to the island to train her troops. There has been constant co-operation between Cuba and the food authorities of the United States. Everything within her power to do, Cuba has done.

In his war message President Menocal sounded the keynote of Cuban allegiance. He said: "Cuba cannot remain aloof from the stand nobly and courageously taken by the United States, to whom we are bound by sacred ties of gratitude and fraternity."

Czecho Slovaks at Home Are Collecting Rifles

WASHINGTON, October 12.—Czechoslovak peasants have created consternation among their German rulers by demanding firearms in exchange for the foodstuffs and produce which they bring to the city markets. Whereas they formerly traded their wares for dry goods and clothes, they now insist upon having rifles and cartridges. The German officers regard this as outrageous.

Writing in the "Reichenberger Zeitung," the German deputy Hartel complains bitterly of this new habit of the Czechoslovaks. "I reminded Premier Seydler of the enormous danger which can ensue from this," he says. "Furthermore, I presented to him a written report, citing and describing specific cases of the said practice. In concluding my report I said: 'It is a fact that the Czechoslovaks are thus providing themselves with arms, and are thus depriving us of them.'"

Hartel further appeals to the German authorities to keep tabs on all attempts by Czech peasants to obtain guns and ammunition, asking that he be informed of every individual case and the names of the persons involved. It is clear that the Teutonic deputies fear an uprising in Bohemia and will take every measure to stave it off.

Logged-Off Land Could be Made Food Producing

SAN FRANCISCO, Cal., Oct. 12.—Eleven million acres of "logged-off" timber land on the Pacific coast might be reclaimed and used for agricultural purposes, according to the statement of Walter H. Graves, whose appointment by Secretary Lane as an engineer of the reclamation service was recently announced. Mr. Graves has been instructed to make a study of the large districts of cut-over timber land in the west for the purpose of determining its availability, when cleared, for farms for soldiers after the war. The land denuded of timber would have to be freed of the encumbering logs, stumps and brush.

The redemption of this vast wilderness, it is estimated, would add \$3,000,000,000 to the farm wealth of the Pacific states. The cost of clearing the land would be less than the value of the land if improved mechanical devices were used, Mr. Graves said.

URGES CO-OPERATION

BUTTE, Mont., Oct. 12.—Adoption of a plan of co-operation among local employers in the hiring of labor is being urged by W. F. Keeley of the federal employment bureau here. Under this plan all employers would accept employees only through the federal bureau and all advertising for help would be handled by the same instrumentality.

IDAHO FORESTS PAY

BOISE, Idaho, Oct. 12.—Revenue received by the state during the last fiscal year from the federal government as its 25 per cent share of receipts from national forests in Idaho shows an increase of \$14,707 over last year. It is \$1,977,177. The money is to be expended on public schools and roads in counties in which the reserves are situated.
