

FORD

THE UNIVERSAL CAR

The Ford Sedan is high-class in appearance and appointments. The seats are restful, and deeply upholstered with cloth of high quality. Large doors give convenient entrance on either side; plate glass windows make it a closed car for inclement weather, and give fresh air when open. With high quality in appearance and equipment there is the simple and safe control in driving. A woman's car—a family car for every day in the year. Ford Sedan, \$865 f. o. b. Salem.

SALEM, ORE

OVER THE TOP ALL THE TIME

That's the Way Yanks Are Fighting in France, Says Roy Berry.

The particular contingent of Yanks that Sergeant Roy D. Berry of Salem is with in France, went over the top once and has been over ever since. He writes to Charles Brasher of the Model Barber shop, Salem. To fight two days on two meals, was one experience of Sergeant Berry, but his bunch licked the boche and he thinks the whole army is about whipped now. Here is his letter, and it's a good one:

"Say, do you know it has been a long time since I had a letter from any of you? Now get a move on yourselves and drop me a line. If you knew how a letter would cheer me up I know you would surely do me the honor to write.

"I have been in three battles. Since June I have been on three different fronts. Charley, I thought of you and all of your family and friends, which are my friends as well. I have been in the two largest drives. When there are no trenches, you can guess what's next best, and that is simply a shell hole in the ground.

"What I have seen would take months to tell. I only hope I can forget some of it. I had some close ones, too, Charley. Yes, what I mean they fairly whistled in my ears like the warm or hot breath of flame. My spirits were always good. There were times when I could not think and everything was blank, but I fought it off. Always trusting in the One above us to guide me right I am sure your prayers were answered, and pray they always will be and that some time very soon I will see you and Emma—not forgetting Scotty. Is he in the army yet?"

"I think we have them just about whipped over here. No doubt your papers give you the latest news, and they give it pretty straight, and nothing is enlarged of what is really going on.

"Charley, no doubt you will let Erney read this if you find it interesting enough. I give him my best. I do a little barbering, yet. Why, boys, I have cut hair and shaved in the trenches when shells were splashing doggone close, and after it was over with I would be a bit nervous and have often wondered how I did it. Sometimes my subject would beat it under cover and then I would come in behind a close second. But if the customer is game I'll do it. But it's hard on your nerves.

"I was with some who entered a much talked-of town which was captured about July 20. We were a few hours behind in trying to catch up. It was the first drive I was in. Finally the boche made a stand and we caught up. For two days we fought. Did we eat? Say, no one thought much about eating. Guess we got two meals in two days, but we got them started again. We went over the top once and we have been over ever since. The doughboys are the boys to get the most of the credit. I thank God for their protection and the work they do which is wonderful. I am for the doughboy every time."

QUIT MEAT WHEN KIDNEYS BOTHER

TAKE A GLASS OF SALTS IF YOUR BACK HURTS OR BLADDER TROUBLES YOU.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, when we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys. The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jud Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jud Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

HOSPITAL NEEDS MORE CAPACITY

Supt. Bellinger Calls Attention to Conditions at Sanatorium.

Lack of accommodation for emergency cases and pressing need of more room, accentuated by exigencies of war, are pointed out in the biennial report of Dr. C. C. Bellinger, superintendent of the State Tuberculosis hospital to the state board of control. Responsibility of the state for the care of tubercular persons is increased, the report shows, because of the lack of local or county organization to carry on the work. An open air pavilion recommended by Dr. Bellinger has been allowed by the board of control.

Another one of Superintendent Bellinger's recommendations is a provision to accept the pay patient. The present policy is to accept only those persons who are unable to pay for care at private sanatoria.

"This biennium, like the previous one," says the report, "has found us short of room. As this is written we have 26 applicants on our waiting list. Inasmuch as this institution is caring for many far-advanced cases and because of the fact that there is little or no organized relief for them elsewhere, we should never be without an available bed for the 'emergency' case. There constantly arises the homeless tubercular and the tubercular who is a menace to his home, both of which should be placed under care with but little, if any, delay. The field work, to locate, care for, advise and assist the tubercular in his community has not been started in most of our counties. It is but newly organized in a few and nowhere, I venture to say, do the field workers find a complete system of agencies to fight tuberculosis at their disposal. The lack of county hospitals for tuberculosis throws the burden of the advanced cases upon this institution. These should be cared for nearer home in most cases.

"Though our policy has been and should be to care for those of Oregon's residents who cannot afford the expenses of a private sanatorium, I believe that some provision should be made for the pay patient. An amount approximating our per capita cost would be more moderate than the fees of a private sanatorium and could be met by some who are legally entitled to enter the sanatorium. The pay provision should be available to non-residents when an emergency exists and they cannot secure proper treatment at home and to those who have come to this state to reside but have not resided here 12 months as required by law. The government also expects to pay for the care of soldiers accepted for service and afterward discharged from service suffering from tuberculosis.

"The state must assume a large obligation in caring for rejected registrants who have been found tubercular. These are not accepted for service and are not entitled to care or support from the government. Their care, therefore, falls upon the tuberculosis agencies of their respective communities."

The present population of the tuberculosis hospital is 79 with 26 on the waiting list. There are 58 males and 21 females at the institution. An appropriation of \$75,562.60 was allowed by the legislature of 1917 and of that amount \$67,741.31 has been expended.

MILLIONS ARE SERVED BY Y

Christian Association is Great Morale-Building Organization.

Since the Y. M. C. A. instituted its war work abroad the transports carrying American troops across the Atlantic Ocean, it has served more than a million men. It has distributed two million song books and sheets of music, given two thousand motion picture entertainments, delivered five thousand educational lectures and distributed more than 200,

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded, or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By working the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

Batteries Should Never Freeze

If your battery freezes it's your own fault. There's proof right in the ice that you haven't taken care of it—that you haven't kept it charged.

A properly charged Willard Battery can't freeze, even in the coldest weather.

Come in and we'll tell you why batteries do sometimes freeze, and how you can tell when yours is cold-weather proof.

While you're here ask for a copy of our booklet—"A Mark with a Meaning for You." It tells just what the Willard Mark stands for.

such high morale-building service as this that the Y. M. C. A. and the great welfare bodies serving the enlisted men of the allied forces are making a drive for \$170,500,000 every cent of which will be expended for the benefit of the fighting man.

AUTOCRACY'S COLLAPSE SEEN
GLASGOW, Nov. 1.—Herbert K. Asquith, former prime minister, in a speech here tonight alluded to the most striking change taking place in Europe—"the collapse, complete and irreversible, of autocracy."

FRISCO "FLU" Waning
SAN FRANCISCO, Nov. 1.—At 1 o'clock tonight 398 fewer cases of Spanish influenza and seven more deaths had been reported to the board of health than for the 24-hour period ending at 5 p. m. yesterday.

WAR AND MEDICINES

What Many of the Sick and Ailing Are Learning Nowadays.

So many doctors have gone to war, the services of comparatively few are available at home.

Good proprietary medicines are more widely used than ever, and more and more people are finding out how great their merit is.

At this time, when there is greater need of economy than ever before, Hood's Sarsaparilla, a thorough blood purifier, Peptonin, a real pepton-nutrient tonic, and Hood's pills, a potent yet mild cathartic, are especially good and liked by all who use them. These medicines are remarkably efficient, whether taken in conjunction or separately.
