ALL AMERICANS, CREED IS NEXT

Big Husky Soldier Misses His Train and Is Given Lift by "Y" Secretary

By JAMES ELVIN. He was a big husky American, and he blew into our French town one day with a bunch of horses to deliver at our camp. I met him up at the railroad station, and he was very much distressed. He had just missed his train, and did not have papers to show why he should be in the town after that train left. This fact would have placed him immediately under the charge of the military police.

I said to him, "I am going down to the city and if you will come with me I think I can place you on a train early tomorrow morning that will send you straight to your destination."

He gladly accepted my invitation, and we rode down to Bordeaux to go on the train and successfully passed the secret service men and the military police at the station, and no questions were asked when I vouched for him and said that he was with me.

I took him at once to the big Y. M. C. A. hotel, a place where officers and men mingled with the finest spirit of fellowship, and hired a nice comfortable room for the night. As he looked at the clean white sheets on the bed he said:

"Gee, but it looks good to see sheets and a comfortable bed once again."

I took him over to the big Y. M. C. A. restaurant a restaurant where Mrs. Vincent Astor and Mrs. Russell, two of the leading society women of New York, have worked like regular old war horses. And in the restaurant we soon sat down to a real honest-to-God American meal.

On the broad veranda of the hotel one of the crack regimental bands was giving a concert, and the square in front was crowded with thousands of American and French soldiers who were enjoying the music. As we passed out through the crowd the boy plucked my sleeve and he said to me:

"Say, you're a Y. M. C. A. secretary and you have been very kind to me, but I guess you do not know that I am a Roman Catholic."

And I said to him: "Now, cut that stuff, because it doesn't make a bit of difference to me whether you are a Protestant, a Roman Catholic, Jew, or Mohammedan, or any other old thing—the fact that you are an American soldier and wearing an American soldier's uniform is all that is needed to make me, and all the workers who wear the uniform I wear, give the best that we have to you."

The soldier dying on the battlefield doesn't ask whether he is dying for a Protestant, a Roman Catholic or a Jew. He is simply laying down his life for America, and the Roman or woman who refuses to give because he or she will not give to a Protestant, or to a Catholic, or to a Jew is a pretty poor sort of a proposition.

They are dying for Americans, and there is only one thing for the people at home to say, namely: It is a great and inestimable privilege to give for the welfare of this country, and the men that are giving so much to you.

Plan Calls for Memorial Trees for Soldier Dead

Memorial trees in honor of American soldier dead of the world war is the plan of the American Forestry association, an outline of which has been made known to Governor Withycombe. Since it is proposed to plant the trees along the motor highways of the country the governor has referred the letter to the state highway commission, but gives the plan his unqualified approval. The reason for proposing to plant the trees along motor highways is the prominent part played by motor vehicles in the war.

Approval has been granted by the federal capital issues committee for the state highway commission to issue \$590,000 worth of bonds and discussion as to whether the commission shall sell the bonds soon will take

CUT THIS OUT Old English Recipe for Catarrh, Catarrhal Deafness and Head Noises.

If you know of some one who is troubled with Catarrhal Deafness, head noises or ordinary catarrh, cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment.

Sprays, inhalers and nose douches are liable to irritate the delicate air passages and force the disease into the middle ear which frequently means total deafness, or else the disease may be driven down the air passages towards the lungs which is equally as dangerous. The following formula which is used extensively in the damp English climate is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climate conditions.

Secure from your druggist 1 ounce of Parmint (double strength). Take this home and add to it 1/4 pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. This will often bring quick relief from distressing head noises. Clogged nostrils should open, breathing become easy and hearing improve as the inflammation in the eustachian tubes is reduced. Parmint used in this way acts directly upon the blood and mucous surfaces of the system and has a tonic action that helps to obtain the desired results. The preparation is easy to make, costs little and is pleasant to take. Every person who has catarrh of head noises or is hard of hearing should give this treatment a trial. Capital Drug Store.

place at a meeting of the commission in Portland, Friday, November 22.

No further application need be made to the United States Highway council for its approval of road building projects announced a telegram that was received yesterday from Chairman Pace of the federal council. The message adds that previous disapprovals are now revoked and pending applications require no further action.

Procedure in securing materials and transportation should follow the normal channels, the telegram states. Removal of the restrictions does not affect highway bond issues which are under the control of the capital issues committee by law. State highway departments are not asked from now on to submit their improvement programs for this next year.

Chief among the projects in Oregon that have been disapproved and which may now proceed is the crossing project at Divide, Lane county. Several smaller county projects are affected.
