CUPPER CHANGES OFFICE SCHEME

Title of Assistant State Engineer May No Longer Be Made Use Of

Whether any person in the office of State Engineer Cupper will carry the title of assistant engineer, the position that was held by Mr. Cupper prior to his appointment to succeed John H. Lewis has not yet been fully determined. The work that was done by Mr. Cupper as assistant engineer is to be divided between Robert J. Simpson, who will be in charge of the office, and Charles F. Stricklin, who will be in charge of field work.

Mr. Cupper as assistant was detailed to the duty of checking up on all data coming in from the field and also all correspondence affecting the various projects under the office through his hands.

Mr. Simpson came to the engineer's office from the Tualum project about five years ago and Mr. Stricklin has been in the office since 1911 his duties being in connection with the adjudication of water rights. Both men are said to be thoroughly familiar with the work. Engineer Cupper says he will make arrangements so that the employees of the department who are now with the colors may have their positions upon their return. Joe McAllister, who was assistant secretary of the desert land board, is now with an engineering regiment in France, and H. K. Donnelly, who was assistant in charge of adjudication surveys, is with the colors elsewhere. Harold Cook, who was a bookkeeper in the office, is with the students' army training corps at Willamette university.

Prizes will be awarded not only for the best layers at the exhibition but also for the best shaped eggs.

Order From Burleson Is Expected Momentarily

The public service commission is expecting momentarily to receive a telegram from Postmaster General Burleson announcing that he will order the Pacific Telephone & Telegraph company to proceed in a lawful manner toward increasing rates by making application before the commission in a regular manner as provided by law. The commission believes Mr. Burleson will take this action in view of the telegram sent him by the commission Saturday night in which the state law was quoted and the postmaster general told in plain words that the commission does not propose to see the law violated. All messages that have been received from the postmaster general indicate that he has been misled into the belief that the company has proceeded in a lawful manner. Members of the commission said today that they do not see how Burleson can take any other step than to recognize the authority of the commission.

Two Men Try to Sit as Mayor at Klamath Falls

The supreme court probably will be prevented from handing down a decision today in the case of the state ex rel T. L. Perkins against Dan Kellaher for the reason that the city of Klamath Falls has filed a petition with the court to file a brief in the case. A situation parallel with that of Portland exists at Klamath Falls where two men claim the office of mayor and both have attempted to preside over meetings of the city council. The Klamath Falls petition, which was filed by City Attorney R. C. Groesbeck, has been granted and a brief will be filed in a few days.

The state supreme court has set Tuesday, Dec. 3, as the date for a memorial program at the supreme court chambers in honor of the late Justice F. A. Moore. STEUSLOFF SEES PEACE PAGEANT

Local Merchant Spectator When President and Wife Lead Marchers

Broadway, buried six inches deep beneath scraps of paper was the sight witnessed by F. W. Steusloff, president of the Salem Commercial club, who returned Friday night from an extensive trip in the east. After visiting his former home in Cheyenne and Buffalo he went on to New York City, arriving there in time to witness the false peace rumor celebration. With the closing of places of business and blowing of whistles, Mr. Steusloff says, people in skyscrapers began to sift a steady shower of paper snow on the main streets.

Soldiers and sailors on the streets passing bottles of liquor to the crowd were not infrequent sights. Crowds thronged the streets in every part of the city. Mr. Steusloff was in Atlantic City at the time the true report came through and saw the celebration revived at 4 o'clock in the morning. During the day he passed through Philadelphia, Wilmington and Baltimore, pulling into Washington just as the liberty parade headed by President and Mrs. Wilson was passing.

"Salem people have no cause to complain about prices of food," the traveler remarked. "Butter is from 10 to 15 per cent higher in the east and fresh meats sell at from 35 to 40 per cent more. In certain portions of the south they are selling frozen meats, a thing unknown in the northwest. The meat loses its flavor once it is frozen."

Speaking of the future food situation, Mr. Steusloff said, meat appeared plentiful for the coming winter. Texas, Colorado and Wyoming having large herds ready for the markets.

While on his trip the local merchant visited his nephew, Earl Matthews, at Camp Dix; N. J. and another nephew Claude Steusloff, at the marine barracks at Quantico, Va. Boys both are well known in Salem.

Mr. Steusloff was away not quite two weeks. He stopped at New Orleans, Denver, Houston, Dallas, Fort Worth, and Wichita Falls on his return trip.

Handkerchiefs

There's nothing particularly difficult about the laundering of handkerchiefs or any other flat work but just the same, you want them clean and white, and you don't want them returned to you "stiff as a board."

If your nose itches, you don't want to scratch it with your kerchief. We are very careful with all kinds of flat work—washing it thoroughly and "ironing" it so that it possesses exactly the proper amount of pliancy and softness. SEND US YOUR FLATWORK.
