AGED RUSSIAN WOMAN COMING

Grandmother of Slav Revolution Due to Arrive in U. S. Early in Week

SAN FRANCISCO, Cal., Jan. 15.—Catherine Breshkovskaya, known as the "Grandmother of the Russian Revolution" and on her way from Russia to Washington, has spent 50 of the 75 years of her life working for what she believed to be the betterment of her native country. Thirty of these years she has spent in various Russian prisons, and as a political exile in the bleak Siberian penal institutions.

Born of well to do and educated parents, she early evinced an ardent interest in the condition of the people about her. Their ignorance and condition of semi-slavery aroused in her the determination to do what she could for their betterment, and this has been the keynote of her efforts ever since. Her activity was unremitting and of a practical kind, including lectures and the raising of money for the purpose of education. As an anti-imperialist, she was in the United States on a lecture tour during 1905. When the first revolution broke out in Russia at that time she immediately cancelled all her engagements and returned to that country to render what aid she could to the movement.

Again she came to America just prior to the outbreak of the great war and lectured in all of the larger cities of the country, including New York, Chicago and San Francisco. With Russia embroiled, she believed the situation there again demanded her presence. In the general arrest by the government of the czar of all those who were suspected of having revolutionary tendencies, Mme. Breshkovskaya was included and deported to Siberia.

Her liberation came with the downfall of the Romanoff dynasty. All political exiles were set free and asked to return. Roads leading out of Siberia were filled with these released prisoners. As a mark of special attention, Mme. Breshkovskaya was provided with a special train. Hers was a triumphal return to Petrograd. As she passed through its streets, crowds were lined up to do her homage while little children strewed her pathway with flowers. Then followed the days when Premier Kerensky was endeavoring to bring order out of chaos. To his cause Mme. Breshkovskaya gave every ounce of her effort and support. With the downfall of the Kerensky regime and the rise of Bolshevism under the leadership of Lenin and Trotsky, for which she had no tolerance, Mme. Breshkovskaya disappeared from public view. Many rumors of her assassination or death were current.

In an interview accredited to her while in Japan, on the way to this country, she is reported to have said:

"Neither Bolshevik nor monarchist can rule Russia. An elected government is our hope, the people never will consent to anything but the constituent assembly. The Bolsheviks beyond the Urals and the monarchists who now are in power at Omak must go."

Mme. Breshkovskaya has many friends in this country as the result of her previous results. They are professors, social workers and men and women who were students when she was in this country on her first visit thirteen years ago. She knows Jane Adams and has lived in Hull House. One of her early American friends was Mr. Arthur Bullard, now head of the Russian division of the American committee on public information.

NOTICE TO NERVOUS WOMEN

Mrs. Seibert Tells How You Can Overcome Nervous Conditions

Louisville, Ky.—"I suffered badly from nervousness, a run-down condition, no appetite and pains in my back—until I just had to give up. A friend told me about Vinol and I felt better after taking the second bottle. Now I have a good appetite and am feeling fine, strong and healthy in every way."—Mrs. I. F. Seibert.

The reason Vinol was so successful in Mrs. Seibert's case, is because it contains the very elements needed to build up a weakened, run-down system, make rich, red blood and create strength. Dr. E. A. Schaefer and druggists everywhere.

DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Says we can't help but look better and feel better after an inside bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which if not eliminated, form toxins into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, before putting more food into the stomach.

Men and women with sallow skins, liver spots, pimples or pallid complexion, are those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs.

FIVE PRINCIPLES IN BOLSHEVISM

Former Dutch Minister Sends Warning Against Spread of Russian Doctrines

AMSTERDAM, Dec. 9.—(Correspondence of The Associated Press)—The five cardinal points of Bolshevism are, according to M. Oudendyk, formerly Dutch minister in Petrograd, as follows:

- One: High wages.
 - Two: Don't work.
 - Three: Take other people's property.
 - Four: No punishment.
 - Five: No taxation.
- Said Mr. Oudendyk: "I wish to give a solemn warning to the working classes of all nations against the high-falutin notions which I have seen in Russia. Bolshevism, I say without exaggeration, is the end of civilization. I have known Russia intimately for 20 years under the old regime and under new conditions. Never have the working classes of Russia suffered as they are doing at the present moment notwithstanding all that the present so-called ruling classes in that country choose to tell the world. The bulk of the workmen in Russia are today far and away worse off than they ever have been and the

Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid.

state of unemployment is simply terrible. When I left Petrograd the situation was one of utter starvation and most people hardly knew how they would exist through the following day. Wherever Bolshevism rules, the nation has been beaten to a pulp and is utterly helpless. The future to me seems hopeless. One thing is certain, that, left as she is now, Russia will be in a state of utter and complete ruin.

"Factories are at a standstill and are being ruined and, without the aid of foreign capital, they can never be revived. I have never seen or dreamt of the possibility of such corruption, tyranny, and the absence of all semblance of freedom as there is in Russia at the present moment.

"Most of the workmen now begin to see that the regime of Bolshevism cannot possibly last. The whole world must stand shoulder to shoulder so that out of the ruins something may arise, but personally I know not what."

Girl Guardian Who Kept Down the A. W. O. L. List

MISS NETTA D. ROSS.

Doughboys and sailors alike agree that when a fellow has been away from home for a long time it's mighty nice to be "mothered" and looked after. And the mothering is all the more acceptable if administered by a pretty girl. That's the reason Miss Netta D. Ross has been such a success behind the counter of the information bureau of the American Y. M. C. A.'s Eagle Hut in London. This photograph will be recognized by hundreds of men who went to her with inquiries ranging from how to get hold of needle and thread to how to get back to camp or ship before they were listed as A. W. O. L.

Some one notes that the brewer did not send out any of their cute little calendars at the beginning of 1919.
