

WOMEN DEMAND 44 HOUR WEEK

International Garment Workers Threaten Strike in New York City

NEW YORK, Jan. 18.—The international ladies' garment workers' union, with a membership of 35,000 in this city, today advocated calling a strike next week unless in the meantime the employers grant demands for a 15 per cent wage increase and a 44 hour working week. The result of the strike vote was announced at a meeting held late today.

It was greeted by cheers by thousands of men and women. The poll showed 12,721 members in favor of a strike and only 105 opposed. At one time it appeared as if the meeting

might turn into a Mooney demonstration, for when Frank Morrison, secretary of the American Federation of Labor, was denouncing the employer class, a woman cried out: "What is the American Federation of Labor going to do regarding Mooney?"

Mr. Morrison replied that the federation intended to do everything in its power to obtain a new trial for the labor man convicted of murder in connection with the preparedness parade in San Francisco. Mayor Hylan today conferred with garment workers and their employers.

Another conference will be held next week, it was said.

WORTH \$50.00 A BOTTLE

Wm. Barnes, San Antonio, Texas, writes: "Foley's Honey and Tar has been worth \$50.00 a bottle to me. I had 'the flu,' followed by pneumonia, which left me weak, with a persistent cough. The cough hung on. Some one advised Foley's Honey and Tar. I have completely recovered and do not cough at all." & C. Perry.

HONOR ROLL IS GROWING LONG

Many Parents Respond to Request to Send in Names of Men Lost in Service

In response to The Statesman's published appeal to parents of soldiers and sailors who lost their lives in the service to notify the paper of such casualties the honor roll is gradually growing. An accurate list of these names and information concerning them will be invaluable and information concerning gold service stars in both Marion and Polk counties should be sent in as soon as possible.

The following are the names of those from this section who died in France or from disease in camp received up to the present:

Army—Ivan G. Bellinger, William M. Catton, Edward Glittens, Wayne C. Jackson, Benjamin McClelland, Alfred Deranleau, Ray Mark, Paul Rich, Leslie Tooze, Chester M. Wilcox, Curtis W. Willson, Chester A. Simmon, Aubrey Jones, Ernest Eckler, Smith Ballard, Wilhelm E. Ahlgren, Milton A. Kooreman, Thomas D. Cooper, Milton Foreman, Benjamin F. Hill, John C. Braden, Stanley F. Thompson, Monte Christopher, Orley B. Chase, James Gardner, Charles M. Woodke, Elton C. Blake, Ous Hayes, Newman D. Dennis, Roy Johnson, C. L. Hallard, Marines—Charles Auer, Emery Bartlett, Navy—Kenneth C. Crossan, Joseph Martin, Clarence S. Misker, Nurses—Ora E. Cavitt, Marie Blodgett.

Convalescence after pneumonia, typhoid fever and the grip is sometimes merely apparent, not real. To make it real and rapid there is no other tonic so highly to be recommended as Hood's Sarsaparilla. Thousands so testify. Take Hood's.

ELMQUIST TO MAKE PROTEST

Authority Is Telegraphed by Oregon Public Service Commission

The public service commission yesterday sent a letter to Charles E. Elmquist, president of the National Association of Railroad and Utility Commissioners authorizing him to represent the Oregon commission before the house joint committee and present the Oregon commission's emphatic protest against extending federal control of wire systems. The letter follows: "This is your authorization to appear for this commission before the house committee on postoffice and post roads on Moon joint resolution 368 and present our emphatic pro-

POISONOUS WASTE CAUSES SICKNESS.

When the kidneys are well they filter waste matter from the blood. When sluggish or overworked, the kidneys fail to clean the blood, and poisonous substances lodge in joints and muscles to cause aches, pains and soreness. Foley's Kidney Pills strengthen, act quickly and relieve kidney and bladder trouble. J. C. Perry.

test against extending federal control of wire systems. We are in favor of prompt return of lines to owners. Disregard of local conditions and requirements in rate making, signing of contracts guaranteeing returns to major phone companies and failing to accord same consideration to minor utilities rendering like service together with the uncertainty of responsibility has operated to make federal control ineffective. Since control an attempt has been made to increase rates per subscriber station this state from 25 to 100 per cent. People generally are opposed to this

increase. Threaten to discontinue use if increase is permitted. Toll rates recently prescribed in some instances decrease revenues by 25 per cent. One small company \$8,000 per annum. In other instances rates are doubled. Where loss of revenue occurs increased subscriber rates will be necessary, perhaps above the value of the service. New business not available. Telegraph service this section now in deplorable condition. Very unreliable. Our state this year settled, developed conditions vastly different than where systems cover denser populated and diversified country."

HE KNOWS WHEREOF HE SPEAKS

J. F. Harper, 416 Navarre St., San Antonio, Tex., writes: "I consider Foley's Honey and Tar absolutely the best cough remedy on the market. I know whereof I speak, having tried it in my own family. Your remedy acts quickly and relief is permanent." Good for colds, coughs, croup. Contains no opiates. J. C. Perry.
