

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c box. All druggists.

Pensions for Workers

Reaching 65 Provided

OLYMPIA, Wash., Jan. 22.—First of the reconstruction bills to be introduced in the state senate this week, by Senator Wilburn Fairchild of Pierce county, is one providing old age pensions for workers reaching the age of 65 years, and creating a new industrial insurance commission including male and female workers, and a bill aimed at child labor and unfair competition in trade.

The proposed committee of three would investigate labor conditions and fix wages to support standard conditions. Five per cent assessments against the wages paid to employes would go into the old age pension fund. Free employment offices would be established to handle employment on public works.

The bill aimed at unfair trade competition and would make it unlawful to sell in Washington products manufactured under conditions prohibited by state laws until a permit has been obtained from the industrial welfare commission.

HARD COLDS—People whose blood is pure are not nearly so likely to take hard colds as are others. Hood's Sarsaparilla makes the blood pure; and this great medicine recovers the system after a cold as no other medicine does. Take Hood's.

SUFFRAGE GETS BOOST

BOISE, Ida., Jan. 22.—National woman suffrage was given special attention today when the senate of the Idaho legislature by unanimous vote a memorial addressed to the United States senate urging favorable action on the proposed equal suffrage amendment.

PIG CLUB WORK BRINGS RETURNS

List of Children Eligible for Achievement Pins Just Compiled

Pig clubs in Marion are making a showing and a promising list of children who have recently completed their projects has been compiled by the county school superintendent's office. Each youngster is to receive an achievement pin for his work.

In the county alone the 94 pig club members have raised 124 hogs with a profit of \$1942.11 in 1918. The total cost was \$1040.81 and the total cost \$3069.67. Their final value was \$5083.78. In the year the 4458 pounds initial weight grew to 22,743 pounds.

Figures just sent out showing pig club work for the state in the last three years illustrate the expansion of the movement. The 431 members in 1916 had grown to 1280 in 1918 and the 251 pigs in the first year appears small beside the 788 last year. The final value of the porkers is placed at \$24,529.81, which means the children have netted a profit of \$11,112.97 and have produced from the 24,205 pounds initial weight 101,133 pounds of pork.

The following Marion county children have just completed their projects:

- Division I
 - Elmer John Roth
- Division II
 - Pearl Brown
 - Eneling Bloom
 - Theresa Bartruff
 - Lillie Bartruff
 - Delchis Brinkly
 - Homer Bray
 - Ruth Bartruff
 - J. Harvey Brougher

HE KNOWS WHEREOF HE SPEAKS

J. F. Harper, 416 Navarre St., San Antonio, Tex., writes: "I consider Foley's Honey and Tar absolutely the best cough remedy on the market. I know whereof I speak, having tried it in my own family. Your remedy acts quickly and relief is permanent." Good for colds, coughs, croup. Contains no opiates. J. C. Perry.

Alaskan Herring Packing Industry to Be Inspected

SEATTLE, Wash., Jan. 22.—Alaska's new herring packing industry, begun during the war, will be given a thorough system of inspection and supervision by the inclusion of a \$25,000 appropriation in the civil bill for this work, according to a dispatch from Washington received here today by Henry O'Malley, field representative of the bureau of fisheries. Mr. O'Malley said the appropriation would be used to demonstrate the Scotch methods of curing to the Alaska packers and to induce the packers to comply with uniform commercial standards in packing. The Alaska Herring industry already has grown to a considerable proportion due to the war having cut off the Scotch and Scandinavian packers from their markets.

Who will be the next German ambassador to the United States? Don't speak all at once.

BIG RAIN STORM DROWNS ASTORIA

Streets Partially Blocked With Slides—Trains to Portland Tied Up

ASTORIA, Ore., Jan. 22.—Wholly without warning, the heaviest rain-storm Astoria ever experienced struck last night and continued throughout today. Precipitation during the 24 hours ending at 5 o'clock was 6.5 inches, the greatest ever known. The streets were flooded for several hours, small landslides occurred in various parts of the city, partially blocking the streets and considerable damage was done by the flooding of basements.

In the surrounding country all small streams were overflowing to-night and the lowlands were inundated. Roads and bridges have been damaged by the rushing waters, but the full extent of the loss will not be known for several days. Owing to slides on the railroad near Myager and close to Westport, all trains to Portland have been tied up since morning.

LABOR TRIBUNAL IS BRITISH PLAN

LONDON, Jan. 21.—(British Wireless Service)—According to George Nichol Barnes, laborite and minister without portfolio in the British government, Great Britain is to propose that representatives of British organized labor be appointed members of the special committee which is to be named by the peace conference to consider international labor problems. In any event the British Labor party will be asked to send representatives to Paris to give testimony before the special committee. This committee will consider hours and conditions of labor throughout the world.

Mr. Barnes said the wage question is regarded as too complicated to permit of any international settlement but with regard to other matters it was hoped to set up standards applicable to each country which would produce general uniformity of results.

The productive capacity of the Russian workmen, for example in a 10-hour day is no greater than that of a British worker in a six-hour day.

Mr. Barnes expressed the belief that labor difficulties ahead can be overcome and that when the league of nations is formed, labor members will be attached to the permanent committee of the league to see that in all countries the employment of labor is on a basis fair to the workmen in every nation.

Who will be the next German ambassador to the United States? Don't speak all at once.

For Ladies

The Dressy Greys, Browns, and Blacks we have in plenty at prices \$6 to \$11, all carrying the newest styles.

The Comfortable Soft Kids in round toes, medium heels and combination lasts are very easy and only cost from \$3.95 to \$8.50.

ALLEN ELECTED FOR CHAIRMAN

Made Head of State Industrial Accident Commission at Meeting

Wilford Allen, who more than a year ago was appointed by Governor Withycombe to membership on the state industrial accident commission pending the return of Lieutenant Colonel Carl Abrams from overseas, was elected chairman of the commission at the biennial organization yesterday.

The lumbering industry, led in taking toll of life during the last year, a report of the commission shows, contrary to the general belief that most of the fatalities were in the shipbuilding industry. The following statement was issued:

During the year 1918 a total of 25,285 accidents was reported to the Industrial Accident Commission. In the adjustment of these claims 60,000 employees injured in the course of their service in Oregon industry, the commission disbursed in medical and surgical aid and in compensation for time lost or set aside for pensions for widowed workmen and the widows and orphans of workmen, \$1,635,144.99. The number of widows now receiving a monthly pension from the fund is 189, while 205 orphaned children are also on the roll.

Of the accidents occurring during the year and coming within the jurisdiction of the commission, 182 were fatal. The lumbering industry led in taking toll of life, 85 of the fatal accidents being charged to that industry. The fatal accidents reported in the year were divided among the industries of the state as follows:

Mining and Quarrying.	
Mining	6
Dredging	1
Quarrying	2
Manufacturing.	9
Fabricating	1
Sawmill and Logging (include Logging)	85
Cooperage	1
Box manufacturing	1
Paving plant operations	1

NAVY INCREASE IS CONSIDERED

Republican Members of House Hold Party Conference; No Decision Made

WASHINGTON, Jan. 21.—Republican members of the house, meeting in party conference tonight, discussed the administration's three year naval building program and legislation likely to come before the next congress, but no decision for party action of any questions was proposed.

Representatives Kelley of Michigan and Browning of New Jersey, both members of the naval committee, expressed opposite views on the naval program. Mr. Kelley was understood to have endorsed the administration policy, while Mr. Browning was reported to have opposed increase of the navy, urging that congress wait the decision of the peace conference as to reduction of world armament. Mr. Kelley said that while the administration's policy was for such reduction, America's interests demanded a navy second to none and that objections would be urged to congress approving a policy for such navy as this action would give the president additional influence at the peace conference.

Republican Leader Mann, in opening the meeting, said the Republicans should be prepared for an extra session if one were recalled, but urged that they not attempt to force one.

Representative Fordney of Michigan who probably will be chairman of the ways and means and committee, in the next house said he believed a revision of interest rates on liberty bonds would be necessary. He said non-taxable bonds bearing 3 1/2 per cent interest were selling nearly par, while taxable issues, paying more interest were selling below par. Representatives Mason of Illinois, Good of Iowa, Garland and Moore of Pennsylvania, Cannon of Illinois and

Green of Iowa urged speedy return and demobilization of the army. Mr. Garland who recently returned from Europe, said the soldiers were anxious to get home.

WORTH \$50.00 A BOTTLE
Wm. Barnes, San Antonio, Texas, writes: "Foley's Honey and Tar has been worth \$50.00 a bottle to me. I had 'the flu,' followed by pneumonia, which left me weak, with a persistent cough. The cough hung on. Some one advised Foley's Honey and Tar. I have completely recovered and do not cough at all." J. C. Perry.

ROADS MAY GET AID FROM STATE

Norblad Bill Would Provide Funds for Those Going Through Municipalities

SALEM, Ore., Jan. 23.—To provide that roads passing through municipal corporations and that are part of general roads systems may be improved with partial aid from the general fund is the object of a bill that will be introduced by Senator Norblad. He calls attention to a portion of the lower Columbia river highway passing through Astoria which is not improved that the abutting property owners are unable to stand the assessment. The bill, it is argued, would make it possible to improve the gap in the highway and would similarly benefit roads passing through other cities and towns in the state.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
Bears the Signature of *Chas. H. Fletcher*

In Use For Over 30 Years
The Kind You Have Always Bought.

THE CENTAUR COMPANY, NEW YORK CITY.

Indiana Governor to Aid Fight Against Burleson

INDIANAPOLIS, Ind., Jan. 22.—Governor James P. Goodrich of Indiana today placed the resources of his office back of the fight of the Indiana public service commission against the new long distance telephone rates ordered by Postmaster General Burleson and issued a statement criticizing government control of wire communication systems and Postmaster General Burleson's acts.
