OLD AUSTRALIAN BALLOT SYSTEM HAS ADVOCATES

House Passes Measure Which Fills Republican Bosoms With Glee

DEMOCRATS OPPOSE

Will Give Chance for Voting 'Em Straight If it Finally Is Made Law

The house is in favor of re-establishment of the old Australian ballot system and voted favorably for passage of a bill by Lewis placing that form of ballot in vogue in the state.

Under the proposed ballot parties would be segregated with a circle above each party and it would be possible for the voter to vote his ticket straight, or he could scratch his ballot if he desired.

The house split wide open on party lines yesterday with the six democrats lined up against the heavy majority of republicans.

Democratic opposition, however, could not stem the republican tide, despite the fact that the democrats turned loose their floodgates of oratory and let her flow all over the republican side of the house.

Proponents of the measure say it has a good chance of passing in the senate.

DON'T FOOL YOURSELF.

A man suffering from backache, rheumatic pains, stiff joints or sore muscles may laugh and say these symptoms of kidney trouble "don't amount to anything." It is folly to ignore Nature's warnings. EDITORIALS OF THE PEOPLE

(The Statesman is pleased to print communications upon topics of general interest at any time. There is scarcely any limit to the topics of general interest. It is asked only that correspondents refrain from personal attacks and use care that nothing be written of a libelous nature. Letters must have writer's name and address, though not necessarily for publication.—Ed.)

Some sidelights on the defeat of the Soldiers' Preference law.

Editor Statesman:

One soldier declared to a G. A. R. veteran, "We are tired in fact satisfied with soldier legislation and will not pass any more such laws." The veteran replied, "Suppose the soldiers at Chateau Thierry, St. Mihiel or the Argonne Forest had said, 'We are tired of sleeping in the mud, fighting and getting shot, and will not fight any more,' what would you do and the country you represent be doing now?"

Another soldier declared to a veteran, "These fellows were not soldiers by choice but went because they had to (were drafted)." The veteran replied, "They went, did they not, and have you any concrete instance where they failed to measure up as the equals of any soldiers in the world and to the glory of the republic?"

Yesterday, while the house was busy killing this bill, the Oregon State Retailers' association went on record unanimously favoring it.

A member of the house said to the G. A. R. veteran, "This is vicious legislation, an effort on the part of a few individuals to establish a military autocracy. Besides, I do not consider these fellows any more patriotic than I am, and entitled to no more preference." The veteran replied, "I do not expect I am capable to judge on the merits of your patriotism; but if I had to bestow any preference to your brand of patriotism and that of a German scoundrel, I should have to give it to the scoundrel."

The soldier replied, "You are an old man or you to me." The veteran replied, "I am only old in years, and I infer except for my age I might expect physical resentment. If that is your meaning we will go out, hire a room, lock the door and in 20 minutes I will convince you of the truth of my statement."

OPENING NIGHT OF SHOW DRAWS

Enthusiastic Motorists Enjoy Program in Armory; Cars Up to Date

Despite the many other attractions in town last night, a big attendance marked the opening of the first annual automobile show at the armory. Eighteen cars and three tractors are on display, the local dealers showing only their latest models. Two tire agencies, the standard Oil also have exhibits.

Daring Aviator's Plane Just After He Had Landed Safely on Roof in Heart of Paris

Landing with an airplane on the roof of a building fifty-two feet wide and about seventy-five feet long is the feat accomplished recently by Jules Vedrine, one of the oldest of the French aviators. The wing spread of his machine, which was only slightly damaged, was thirty-six feet. To add to Vedrine's difficulties the building, the largest department store in Paris, is surrounded by structures of almost the same height and he had to skim over their roofs by a margin of inches. Vedrine's reward was a prize of 25,000 francs.

year-round style of invertible coupe. The tractors are small, practical farm machines and are strictly up-to-date.

Last night's program pleased the audience. Miss Elizabeth Levy's violin ensemble in which 30 of her pupils played were praised by the visitors as being remarkably well trained. Robert C. Paulus, president of the Commercial club, made a brief address of welcome and talks were given by Senator Orton and Representatives Dennis and Graham. W. Russell Morgan and Sabine Bent Hofer gave vocal selections.

Dancing will be the main attraction tonight.

O. A. C. ASKS FOR APPROPRIATION

No Opposition in Committee Against Budget Presented by College

A total of \$299,161.12, the full amount asked in the budget for the biennium for 1919-1920, was allowed Oregon Agricultural college Tuesday night by the ways and means committee. There was no dissent. The action was tentative, but will probably stand. The amount allowed is in addition to federal funds and continuing state funds. The amount allowed above the millage tax for general maintenance is \$157,566.

The amount of \$28,000 allowed for experiment stations is an increase, making the total for that department \$64,000. The additional amounts are in the form of separate bills that have been introduced and will be reported upon favorably by the committee.

The appropriations for the agricultural college follow: For resident instruction: General maintenance above millage tax, \$157,566; barracks building construction, \$15,000; engineering laboratory building, \$60,000. Total resident instruction, \$232,566.

Western Canada's "Horn of Plenty" Offers You Health & Wealth

Western Canada for years has helped to feed the world—this same responsibility of production still rests upon her. While high prices for Grain, Cattle and Sheep are sure to remain, price of land is much below its value. Land capable of yielding 20 to 45 bushels of wheat to the acre can be had on easy terms at from \$15 to \$30 per acre—good grazing land at much less. Many farms paid for from a single year's crop. Raising cattle, sheep and hogs brings equal success. The Government encourages farming and stock raising. Railway and Land Co's. offer unusual inducements to Home Seekers. Farms may be stocked by loans at moderate interest. Western Canada offers low taxation, good markets and shipping; free schools, churches and healthful climate. For particulars as to reduced railway rates, location of land, blue-traced boundaries, etc., apply to Dept. of Imm., Ottawa, Can., or J. L. Fortin, Cor. 1st and Post Sts., Spassau, L. Ark. the name of the ways and means committee and cut off the means for it doesn't mean anything. They ought to call it a tightwad committee."

Aiding Prison Breaks Is Made Punishable

Because of several recent attempts to escape at the state penitentiary following the introduction of a bill in the house on January 31, making it a crime to escape or aid in escape from the state prison, that bill was sent from second to third reading by suspension of the rules yesterday and passed. Additional imprisonment not to exceed ten years is provided. The bill was introduced by Representative Sheldon at the request of Warden Stevens. It carries an emergency clause. There was no opposition to the bill in the senate.

Give unqualified assent to no propositions but those the truth of which is so clear and distinct that they cannot be doubted.—Descartes.
