## Would You Run on a Flat Tire?

Suppose your front tire went flat ten miles from home. You would not bang and bump along after you knew that every turn of the wheel was tearing the life out of the casing. Why not be as reasonable about your battery? The penalty for mistreating a battery is just as sure as for abusing a tire. The care is just as easy. Drive into our Service Station and let us tell you just how easy it is. Bring your jug, we have installed our own water still, insuring an ample supply of pure water at all times.

The Automobile Show was a decided success, not from the standpoint of sales, however, but from a social standpoint.

Such affairs always create a friendly feeling among dealers and they come to realize that their competitor is their very best friend.

From a standpoint of the customer these shows are a success because of the educational feature and such shows often are the deciding point, as to which car to buy.

We know personally of several parties that made their decision as a result of the show and as one of the exhibitors we feel well repaid and perfectly satisfied with results.

**OUT OF THE MOUTHS OF BABES**  
The sitting room carpet was being taken up preparatory to house cleaning, and little Dorothy, aged three, was watching the operation with a great deal of childish curiosity and interest. Taking up carpet evidently was something new to her

infantile mind. Finally, after some hard thinking on the subject, she looked up at her mother and asked: "Mamma, is you goin' to let the floor go barefooted?"—New York Times.
