War Not Won With Signing of Armistice, Says Wilbur

"If you think the war was won when the armistice was signed you were mistaken. Other problems have arisen that are just as important as attacking German trenches," former State Senator George R. Wilbur of Hood River told the state senate yesterday when he was extended the courtesy of the chamber and asked to speak. He recently has returned to civilian life after service in the coast artillery, where he held a captain's commission. He was ready to embark for France when hostilities ceased. At the 1917 session of the legislature he occupied the seat now held by Senator Nickelsen. Captain Wilbur congratulated the legislature on its reconstruction program.

CHILDREN ARE ASKED TO AID

Response to Call for Returned Soldier Census Not Up to Expectations

Letters are being sent by Mrs. Frank M. Brown to all principals of schools in Marion county with the request that he read the following questions to the children in each room.

Do you know that a great number of our soldiers and sailor boys are returning from training schools, cantonments, aviation stations, naval training stations, and from actual service at home, on seas, and in foreign countries?

Do you know that we are going to hold a grand celebration in honor of these boys at Salem in the near future?

Do you know that to make this occasion a grand success your assistance is necessary?

Then follows an appeal to the youngsters to assist in bringing to the attention of each and every soldier, sailor, aviator or anyone who has been in the service, with whom they may be related or acquainted that it is necessary for them to call at the war department office in the court house and register with Mrs. Brown.

Already a number of boys have left their names, among these from Salem and adjoining towns, being Oscar Cutler, Claude Stenshoff, Edward F. Schroeder, Earl Jones, Bert W. Kook, Daniel C. Cebirman of Turner, Louis J. Frost, Z. M. Chase, Edward M. Bailey, Robertson Brooks, John N. Neitling of Stayton, Harold H. Smith, Howard B. Churehill, Roy W. Nathis, Clifford Walter Welty of Pratum, Donald Riches of Turner and Harold W. Kelley.

Bailey is a sergeant who left for Fort McDowell July 1 and was then sent on to Fort McArthur, where he has been ever since. He returned home Friday.

Kelley just returned yesterday morning. He had sailed with the 8th auto corps for France, but was turned back when the vessel was 1800 miles out at sea.

BOND ISSUE IS GIVEN APPROVAL

Reconstruction Committee Will Recommend Using Five Million for Soldiers

As finally decided upon by the reconstruction committee at a meeting Wednesday night and as it will be recommended to the legislature, the state reconstruction program as it pertains to building and land settlement contemplates a bond issue of \$5,000,000. This is an increase of \$2,000,000 over the amount stated in the tentative bill No. 266 introduced recently by Senator Eddy. June 3 is the date set for a special election for the people to vote on the issue.

As outlined an expenditure of \$5,000,000 is contemplated, leaving \$2,000,000 to be used at the discretion of the state board of control. The \$3,000,000 call for an application of \$775,000 to land settlement and public buildings as follows:

New state penitentiary, \$500,000; reconstruction hospital at Portland, \$350,000; Oregon Agricultural college, \$500,000; University of Oregon, \$500,000; Oregon Normal school, \$100,000; Eastern Oregon Hospital for Insane, \$150,000; State Soldiers' Home at Roseburg, \$25,000; armories at Medford, LaGrande, Astoria and Baker, \$100,000.

What buildings are to be constructed under the plan of the three state educational institutions will be decided upon by the board of control and the boards of regents of the respective institutions. If the bill passes the \$125,000 for the Penitentiary insane hospital will go into the construction of a new wing. The armory program requires that cities put up amounts equal to that provided by the state and if they do not comply the money may be applied elsewhere.

Senator Eddy's reconstruction bill to create a land settlement commission and appropriate \$50,000 to put it into operation was passed by the senate without debate and with but one or two negative votes. The commission is to be appointed by the governor.

REETS AS ENSILAGE.
The tops of sugar beets make very satisfactory ensilage, declares the agriculturist of the Utah-Idaho Sugar Company, of Yakima, Washington. This was proven by an experiment in feeding such beets near Tappanish, the tops used in that way being considered worth close to \$9 a ton.

Health Bill Changed So as to Please Scientists

Important among measures passed by the senate yesterday was Senator Eddy's bill providing for a state board of health and codification of the state health laws. In its original form the Christian Scientists attacked the bill, but Dr. Wood, chairman of the committee that had the bill under consideration, announced today that amendments had been effected making the bill agreeable to the Scientists.

"The bill does not discriminate against Holy Rollerism, tongues of fire, Christian Science or any other belief," said Dr. Wood. The meas-
