Indian School Objects—
Advertisements appearing in the Statesman that public dances are given at Chemawa are misleading to the public and embarrassing to the management of the Indian school. These dances are not held at the Indian school and have absolutely no connection whatsoever therewith. Also advertisement in Hauser Bros. store window, exhibiting cups that are to be given as prizes at Chemawa

dance, is misleading. No public dances are given at the Chemawa Indian school. Such advertisement no doubt refers to a public hall in the neighborhood and not at Chemawa. Harwood Hall, superintendent.

Construction of Lumber Carrying Vessels Urged

A joint memorial introduced by the reconstruction committee urging congress to provide for the construction of lumber carrying vessels was adopted by the senate yesterday. The purpose of the resolution is to revive the lumber industry and to provide employment directly by building of the carriers.

RUBBER BOOTS TO BE DONNED

Judge Will Follow Creek Since Witnesses Fail to Agree on Course

When something like 17 witnesses swore in court that the original course of a stream was across one field and about 18 testified that it was across another, Circuit Judge G. G. Bincham decided yesterday to don his rubber boots and make a trip to a point east of Silverton himself and personally investigate the situation. For nearly two days the court has been hearing the suit of Fred M. Reardon versus J. F. Daws, involving water rights on property 20 miles east of Salem, but the witnesses on both sides have consistently contradicted each other.

The plaintiff is the owner of an L-shaped piece of property, across the road from which are two springs—streams from which take a course through land belonging to Daws and another farmer. Recently a ditch has been put along the upper edge of the defendant's land with the result that the water from one spring is diverted into a field belonging to Reardon and has practically ruined it. Daws maintained that the water before the construction of the road always went across Reardon's property, while the latter's witnesses say it should follow the course of the water from the second spring which runs through Daws' land. Neither side had secured the services of a surveyor in ascertaining the true lay of the ground.

The foreclosure suit of J. F. Morris against the Gates Lumber company was taken up yesterday and will be concluded probably this morning. This involves the foreclosure liens of 18 loggers. The divorce case of Woolery versus Woolery is also on today's calendar.

Valley Packing Company Is Name of New Concern

Articles of incorporation are today being filed with the state corporation department for the Valley Packing company. This name having been decided upon by the organizers of the new packing plant for Salem. The company is capitalized at \$200,000. At a recent meeting of the directors the following officers were elected:

F. W. Stensloff, president; W. H. Stensloff, vice-president; Curtis B. Cross, secretary-treasurer. Since the city has given the company the assurance of sewerage the officers have decided not to wait until next fall to start construction, but are going to start just as soon as the weather will permit. The company has definitely decided upon F. J. Leonard of Portland as packing house expert and engineer to make all detail drawings, specifications and other preparations for the plant and these definite plans will be finally decided upon within the next thirty days when they will be ready for contractors' bids.

Income Tax Officers Will Offer Assistance

Income Tax Officers J. J. Collins, George Shaw, T. A. Rinehart will be stationed at the postoffice building at Salem from and including February 24 to and including March 1, 1919.

Where tax forms have been sent out, the parties receiving same should produce the forms to the officer as a reference number is assigned, essential to the return of such party.

The treasury department has extended the time for filing income tax returns to March 15, 1919, and anyone not thoroughly familiar with the provisions of the income tax law and their obligation thereunder, should at once make inquiry of the above mentioned officer or write this office direct, as this will be the last opportunity to do so in connection with the filing of returns of income for the year 1918 prior to the new date of filing.

As soon as possible after March 15 an extensive "drive" will be made in the entire state and heavy penalties will attach where persons liable to tax have failed to disclose their liability and make return on or before March 15, 1919.

TEACHERS' BILL PASSES HOUSE

Lane County Members Lead Fight But Measure Wins Out by Narrow Margin

The bill by Senator Patterson of Polk county providing for doing away with the county fund law and placing the high school tuition law in effect all over the state, passed the house yesterday morning by the narrow margin of 22 votes. Bean changed his vote in order to be able to move for reconsideration so a total of 33 yeas was given. Charges that a heavy school lobby has been working for the bill and that the bill was in the interests of giving teachers better jobs at higher salaries, and that the measure would kill a large number of rural schools in Oregon were all made in the debate. Lane county members, who declared their rural high schools would be in many instances wiped out by the bill, led the fight on the measure.

Some Corset Truths for women to consider

It is not an easy task to reshape a neglected figure into shapely lines. Neglected or poor corsetry allows little bumps, angles or hollows to mar the figure lines.

To smooth out these inequalities a properly designed corset and the use of proper materials in the corset will recreate the figure.

MODART CORSETS

are poised designed. The designer of the MODART Corset makes all MODART Corsets give proper poise to the figure and then designs the corset to symmetrical artistic proportions.

Women with badly poised figures can never be graceful—try as they may. If proper poise is lacking, the grace is lacking too.

So whether you are tall or short, stout or slender, you can have the carriage that will show your figure and your clothes to the greatest possible advantage if you will adopt the MODART Corset.

We ask you to accept a trial fitting, which costs you nothing, and you will immediately see why social leaders, famous actresses and beautiful women generally wear the MODART.
