MADE IN AMERICA PROPER BRAND.

Mark Twain was born in Missouri and it may be a Missouri brand of humor indulged in by Senator Reed in trying to frighten the American people with the thought that the league of nations represents a plot of European monarchs and oriental despots to turn the United States into their vassal.

If anyone outside of a lunatic asylum could be expected to believe such a thing, the Senator's conception might well arouse grave apprehension. The league of nations, as a matter of fact, carries the brand, "Made in America," and in Europe many reactionaries regard it as a Yankee contraption designed to make America lord of creation.

William Howard Taft was advocating the formation of a league of nations while he was President. The burden of his Salem speech at the Marion county court house, while he was President, covered an eloquent appeal for a league of nations.

Mr. Taft has for a number of years, as every one knows, been president of the American society promoting a league of nations to enforce peace.

Many of the best and wisest men in America were working along this line long before President Wilson became a pronounced advocate of the program.

As they make out their federal tax returns, there will be some profit-takers. But no tears of sympathy for them among their victims.

The "little Americans," who are they? The names of thirty-seven of them are on the senatorial round robin. The robin is too large for them. It should be a wren, or a potato bug.

There is no mistaking the sentiment of the people concerning the league. America fought against Germany and what Germany represented with a force and a unanimity almost without parallel; but that was not an indication that America desires to make a practice of fighting. The debts incurred will not be wholly cancelled during the life of the present generation; and a hundred thousand of the young manhood of the nation have either been killed or so seriously wounded as to be incapacitated for active industrial service. The price is not too great to pay for a league of nations that will end wars; but it is too much to pay for an armistice which shall serve only as a prelude to future and more disastrous wars. The great masses of the people are truly back of the president in his crusade. Their hopes are fixed in a league of nations; and the "little Americans" will find that it is futile to argue against that hope.—Los Angeles Times.

THE OUTLOOK IS BETTER

In the course of the current weekly financial letter of Henry Clews, the Wall street authority, the following paragraphs appear:

"Beyond doubt, a more hopeful feeling has been slowly developing throughout the month of February,

expressing itself in an enlarged investment buying of securities, in a partial recovery of confidence in banking circles and in a moderate revival of enterprise. Men at the head of large industrial undertakings are growing more and more optimistic, despite present slackness and a disturbing labor outlook. Many new building projects are likely to be soon launched should nothing prevent; commodity prices are falling; economic law is gradually resuming its sway; the opposition to federal ownership of railroads, telegraphs and telephones is increasing; in short, while many serious problems and more or less consequent disturbance are still ahead of us, it is a well substantiated opinion that the worst is sufficiently known to be fairly measured, and that ere long conditions must improve rather than retrograde. Such beliefs seem to be the basis of the improvement noted during the last few weeks.

"Congress is now about to adjourn, and there is no prospect of an extra session until possibly May or June next. The session just closed has been productive of little work commending itself to the better judgment of the nation, and the new revenue bill occupied the bulk of its valuable time.

"That piece of legislation will go down into history as one of the most complicated, oppressive and unpopular measures of taxation ever conceived.

"Since the war ended no sincere or effectual attempt has been made to cut down unnecessary expenses and stop wanton waste; hence the necessity of increasing instead of diminishing the huge burden of taxation, which cripples industry and unnecessarily blocks industrial recovery at the expense of labor and capital alike.

"The old Congress proved itself

one of the most unsatisfactory on record.

"What the new congress will do cannot be forecast. The house majority is politically opposed to the president; but Mr. Wilson has so enormously enhanced his prestige through his meritorious labors for the league of nations that he may be able to continue his remarkable sway over the course of affairs at Washington during the remainder of his term. Whatever criticisms are showered upon some of Mr. Wilson's policies and actions, he has certainly placed the United States among the very first of great nations; and this is a work of incalculable value in the great future that is before us. It is to be hoped that partisanship will not be allowed to weaken the wonderful influence which America has gained amongst other nations under Mr. Wilson's skillful leadership in foreign affairs."

LEST WE FORGET!

The tumult and the shouting dies—The captains and the kings depart—Still stands Thine ancient sacrifice, An humble and a contrite heart, Lord God of hosts, be with us yet, Lest we forget—lest we forget!

BITS FOR BREAKFAST

Rain and more of it.

Did you hear the French band?

Did you hear them play the Star Spangled Banner and Marseillais? If you did, you also felt it. You could not help it, and you did not want to.

The War Mothers are getting quite a sum of money together, for the welcome or welcomes of our soldier boys home from the war, or for projects to commemorate their deeds and their daring.

Are you going to attend the special Salem Commercial club dinner at 6:30 this evening at Hotel Marion? You owe it to yourself and your city and community to do so. You will hear the discussion of vital community problems by the ablest man in that line in the United States.

The great jelly and jam factory out by the Southern Pacific passenger depot is now running full blast, and there will have to be more berries of all kinds raised to keep it going. It takes a car every two days to carry away the product. Make it a car a day, as soon as possible. That will require only one thing—more and more berries.

It has been figured out that there are but twenty-one hundred one thousand dollar bills in the United States. And we will wager that the corner grocer has the most of them.

Sound the new-rag, beat the tom-tom, strum the ukelele and make a gladsome noise, for the price of meat was reduced four cents a pound on March 1—in England. Why don't you cheer?

The funeral of Kurt Eisner, the Bavarian premier was the most imposing ever seen in Munich. And there are other royalists who ought to be occupying the automobile at the head of the parade.

There still must be a lot of money in this country. At a recent fur sale held in St. Louis the transactions amounted to more than \$8,000,000. And manufactured furs were never so high, nor was the demand ever greater. Milady will not be denied.

CONSIDER THIS WOMAN'S CASE.

Mrs. A. L. DeVine of Los Angeles, Cal., says: "After I had suffered from a female trouble for years, not being able to do my housework, or get any relief from doctors, Lydia E. Pinkham's Vegetable Compound made me a well woman, and I want to tell the world the good this medicine does." This woman is perfectly justified, and should be commended for telling others how she regained her health.

DOAK WILL GO TO CALIFORNIA

Man Who Slew Brother in Los Angeles to Be Deported from Oregon

Arrangements have been made between Oregon and California authorities for the deportation to the latter state of J. L. Doak, who has been an inmate of the criminal ward at the Oregon hospital for the insane. Since 1915 Doak's career has been marked by many sensations, including the killing of his brother in Los Angeles and his subsequent commitment to various penal institutions and asylums.

Doak was first committed to the Oregon insane hospital from Oregon City in 1915, and was adjudged an alcoholic. He ran away from the hospital to his people in California. Trouble arose between Doak and his brother whom he shot and killed in the Hollinshead hotel in Los Angeles. At the same time he wounded another man. Doak was sent to an insane asylum at Patton, Calif., and then transferred to a private institution. After his discharge he was extradited to Oregon on a forgery charge preferred in Multnomah county, was convicted and sent to the Oregon penitentiary. Later he was transferred to the criminal ward at the hospital for insane.

Last week Governor Withycombe granted Doak a conditional pardon so he could be deported. He will be committed to an institution in Oakland, Calif.

Don't Let Soap

Spoil Your Hair

When you wash your hair, be careful what you use. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulsified coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

TURN HAIR DARK WITH SAGE TEA

If Mixed With Sulphur It Darkens So Naturally Nobody Can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.
