ELIMINATE CLASSES IN THE UNITED STATES.

"The reign of terror in Russia is as bad as despotism, and if continued may become worse than despotism. Thoughtful people are beginning to understand that liberty without the safeguards of law and order is only license and that democracy without organized self-control is only demagoguery!

"These are not hours for wild and unrestrained conduct upon the part of any American citizen. The lesson of the war should be the elimination of classes. If the oppression by the lords and gentry of the bourgeois is to be followed by oppression at the hands of the proletariat—that is only change; it is not progress.

"From this time forward in the American republic, if we are to have prosperity we must have no classes. The measure of the man must be not what he does; rather must it be the spirit in which he does his life work.

"There never was so fine an outlook for the prosperity of a people as that which confronts the republic today if it shall only receive the thoughtful consideration of American citizens, and shall not be spoiled by the blind prejudice of class antagonism and class distinction.

"The whole republic ought to flourish, not only with prosperity, but also with added grandeur, and men ought, each and all, to have the largest opportunity ever afforded for individual success, honestly and honorably attained.

"But the wiping out of preferred sense and of classes in the American republic ought to add something to the effort of the individual beyond mere personal preferment. It ought to add the spirit of service, of comradeship and of good-will. It ought to disclose that peace, friendship and good-will with a thousand a year are far more valuable to any man than enmity, hatred and turmoil with even a hundred thousand a year."

The above quoted words are the utterances of Vice President Marshall.

They are well chosen. There are many evidences accumulating that the very thing which Mr. Marshall says is the paramount thing is coming out of the experiences of the people of the United States in the great war. Castes in America are tabu.

The soldiers, when they all return to civil life, will assist powerfully in making this true; and keeping it true.

The Missouri House of Representatives calls on United States Senator Reed of that State to resign, because he does not represent Missouri in opposing the proposed League of Nations. If their demand can be carried out, a boon will be conferred not on Missouri alone, but on the whole United States and the whole world. Reed is a wart on the hand of progress.

If you see any vacant stores or houses in Salem six months from now, please report them. There will be more than one applicant for each one of them.

Watch Salem and the surrounding country grow. They will grow together from now on.

Of course the Democratic minority in the senate will have their uses. They can rise to their feet at the proper moment and announce that there is no quorum of senators.

Good luck to the government plans to decrease the high cost of living! Hit old H. C. L. as hard as you please, for all we ultimate consumers care.

Food is so scarce in Petrograd that cats are selling for \$5 apiece. Why don't some of these people who want to get rid of our felines charter a vessel and send a shipload of cats to the suffering Bolsheviks?

Mexican bandits are reported again on the Mexican border and have railed one or two American properties. Those fellows had best confine their attentions to cutting one another's throats or the prophecy of the negro trooper may be fulfilled. When taunted by a Mexican that he did not dare cross the line

HEALTH WITHOUT DRUGS

Health depends upon a normal supply of healthy blood. The blood supply depends upon the circulation of the blood. This circulation depends upon the normal functioning of the nervous system. Anything, therefore, that interferes with nerve function will affect the health. Contracted muscles, displaced bones or other tissues, eye strain, and errors of diet are some of the things that interfere with nerve function and consequently with health. It is our business to correct the conditions that interfere with normal nerve function. We are working at our business.

vent a commercial boycott," declared Secretary Lansing the other day. "Regardless of the outcome of the peace conference, she stands or falls by her future trade. Germany's position reminds me of Paul Musser of my home town.

"Paul, one wintry day started to repair a water pipe on the outside of his house. He sat on the concrete steps while he worked. Half an hour later, when he tried to rise, he found he couldn't. His trousers were frozen to the steps. So he called to his wife, and explained his predicament.

"Mrs Musser got a kettle of hot water and proceeded to thaw him out. 'The water was pretty good darn hot,' admitted Musser, 'but I was determined to save them there pants at all hazards.'

SINK OR SWIM

Dr. John Chekhoff of Rutgers University, one of the 200 experts chosen by President Wilson to study out the new Central European boundaries, said at a dinner in Raleigh: "I heard a Czech-Slovak story on my last visit to Prague. It's a story about a chap named Mucha, who arrived in Prague penniless and hired himself to an undertaker. The undertaker sent him off to lay out an old man who had died the night before.

"Mucha departed, finished his job, and returned to the undertaking shop.

"There's nothing else to do now," the undertaker said. "We'll go and get a drink."

"So they had a drink at the corner cafe, and then Mucha produced a gold piece.

"We'll have another," he said. "But you were penniless this morning," said the undertaker.

"Where did you get that piece of gold?"

"I found it," says Mucha, "in the old miser's head when I laid him out."

"Oh, good gracious," said the undertaker, "you shouldn't have touched that. We Czech-Slovaks always put a gold piece in the hand of the dead."

"That's a queer custom," said Mucha. "What good is a piece of gold to a man when he's a corpse?"

"It pays his fare across the Jordan," said the undertaker.

"Oh, well," said Mucha, with a laugh, "we'll let this old boy swim. What are you drinkin' boss?"

WHY?

(Contributed)

Why didn't I wait to be drafted and led to the train by a band. And put in a claim for exemption? Oh, why did I hold up my hand! Why didn't I wait for the banquet, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it. You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

senator from Texas, declares that he will not henceforth vote for the candidates of a party that constantly reduces our liberty and unnecessarily increases our taxes. That eliminates the Democratic party. Joe has no place to go excepting with the Republicans.

Are you keeping up with the drives?

People all over Oregon are talking about the boom in Salem. No boom here. Let us hope there may not be a boom. But there is growth, and there is going to continue to be growth, as long as the city and the country help one another—and that looks like a long time.

The five-year extension of the period of railroad operation by the government appears to be bagging at the knees. The fever called government control is likely to be ended with the coming of the Sixty-sixth congress.

There are some compensations with the job of holding a cabinet office. The salary may be inadequate in some cases, but the official gets to ride in an automobile without being compelled to pay the oil and gas bills. That helps a lot.

As we understand the situation, the allies expect in the future to keep a watch on the Rhine.

"Onions going up," reads the advertisement of a grocer. To the innocent individual who is sometimes compelled to sit by the side of an inveterate adulterer in the festive on "his is better news than if they were going down.—Exchange.

American naval officers abroad will not wear a collar provided by the new uniforms. Now if it can be arranged that the democratic members of congress are not in the future to wear the Wilson collar we may be happy yet, you bet.—Exchange.

Capital punishment has been restored to the organic law in the state of Washington. Every commonwealth is the best judge of how the ends of justice are to be met in their communities. Premier Paderewski says that immediate aid, in the way of material and munitions, is necessary to the people of Poland. And he is not using the soft pedal on the demand, either.

Dandruff Surely Destroys the Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it gently with the finger tips.

Eugene Chamber Urges Retention of Mr. Booth

Governor Olcott has received from the Eugene Chamber of Commerce a copy of a resolution urging the governor and the people of the state to do all in their power to cause R. A. Booth to remain as a member of the state highway commission. The resolution says that Mr. Booth has felt impelled to leave the commission because of the demand on his time by personal business, but asserts that the magnitude of the road building program of the state and Mr. Booth's knowledge of the highway situation demand that he should remain on the board.

Lemons Whiten and Beautify the Skin! Make Cheap Lotion

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold cream. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, smoothen and beautifier.

Just try it! Make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It should naturally help to whiten, soften, freshen, and bring out the hidden roses and beauty of any skin. It is wonderful for rough, red hands. Your druggist will sell three ounces of orchard white at little cost, and any grocer will supply the lemons.

Mothers' Advice

The responsibility for a daughter's future largely rests with the mother. The right influence and the information which is of vital interest to the daughter imparted at the proper time has not only saved the life but insured the success of many a beautiful girl. When a girl's thoughts become sluggish with headaches, dizziness, or a disposition to sleep, pains in back or lower limbs and a desire for solitude, her mother should come to her aid and remember that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, will at this time prepare the system for the coming change and start this trying period in a young girl's life without pain or irregularities. Thousands of women residing in every part of the United States bear willing testimony to the wonderful virtues of this medicine, and what it has done for their daughters.

WOMEN workers in the liberty loan campaigns will be awarded medals for their services, according to information sent out by Mary Synon, treasurer of the national woman's liberty loan committee. Two million of the medals have been made out of captured German cannon.

In accordance with this Miss Mattie Beatty, chairman of Marion county's women workers, has appointed committees and begun a canvass to make a list of women entitled to a medal. The committee for Salem is Mrs. Lawrence T. Harris, Mrs. Charles Weller, and Mrs. William Hamilton. Miss Beatty estimates that about 75 or 100 medals will be awarded in this county.

The state conference of county chairmen, both men and women workers, will be held in Portland within the near future. The women's meeting will be presided over by Mrs. Emma Baldwin, of San Francisco, chairman of the reserve district of the 12 western states.
