Playing Football in France—Sergeants "Vic" Taylor and Paul Hendricks, of Salem, members of old Company M, but later of guard Company No. 1, at Nevers, France, but now with the marines in a football squad made up of university men from all over the United States, most of them stars, had, up to February 21, remained with the outfit for about a month, without being eliminated, and had played in three games, the first one being a tie and the last one being victorious for their team. The third game was at Tours, Feb. 18, where their team

by a score of 13 to 7, defeated the aviation champions of the whole A. E. F. They were to play Bordeaux on the 25th, and if they won that they were to go to Paris to play the finals—and then, according to the promise of their marine major, home. So the Salem soldiers were practicing and playing to the full limit of their strength and ability.

Bread and Pastry Sold—As well as peanut brittle, in Davies shack, 387 State street.

FRECKLE FACE

Now Is the Time to Get Rid of These Ugly Spots.

Do you know how easy it is to remove those ugly spots so that no one will call you freckle-face? Simply get an ounce of Othine, double strength, from your druggist and a few applications should show you how easy it is to rid yourself of freckles and get a beautiful complexion. The sun and winds of March have a strong tendency to bring out freckles, and as a result more Othine is sold in this month. Be sure to ask for the double strength Othine, as this is sold under guarantee of money back if it fails to remove the freckles.

SPUD CARLOADS CAUSE TROUBLE

Mount Angel Commission Man Is Said to Have Sold Them to Two Buyers

The alleged selling one car of potatoes to two purchasers failed to prove a successful venture for Nick Schmaltz, a commission merchant of Mount Angel, against whom a larceny charge was sworn out yesterday by the firm of Maagis brothers of this city. To this complaint there attaches a complicated tale.

A week ago last Friday Schmaltz is claimed to have arranged to ship 440 sacks of spuds alleged to have been sold to the local brokers, on Saturday he held a telephone conversation with a member of the firm, giving him the number of the car, which had been sent out on a bill of lading. Mangis brothers mailed him a draft on a local bank and on Sunday Schmaltz is supposed to have come to Salem and attempted to get it cashed by a bank clerk, but failing in this, returned home.

Meanwhile he is said to have replied to the inquiries of the purchasers that he had mailed the bill of lading and it must have been delayed in the postoffice. It is said discovery was finally made that he had gone to the Southern Pacific office before cashing the draft and had asked that the bill of lading be altered, saying he was an agent and had a right to do this. The load of potatoes then went on to California, where they had been sold to the Delta Growers and already contracted by retail dealers. Consequently they had already traveled so far to be brought back to Mangis Brothers.

Burglars Take Overalls from Store at Turner

Burglars entered the general merchandise store of Moore brothers at Turner Wednesday night by breaking through glass of front door. Several pairs of overalls were taken from stock of dry goods, but as far as ascertained no other articles were stolen. Burglary is believed to have been work of hoboes, as a couple were seen on the street at 4 a. m. The case was reported to Sheriff W. C. Needham, who is investigating.

Early Inspection Is Granted Teel Project

To inspect the Teel irrigation district prior to passing on \$1,100,000 in bonds which the district asks the irrigation securities commission to certify, the commission, composed of State Engineer Cupper, Attorney General Brown and State Bank Superintendent Will H. Bennett will go to Echo Monday. O. D. Teel, J. Frank Spinning and A. H. Thompson, representing the district, were here yesterday and asked the commission to take early action, which the commission agreed to do.

The district has issued \$1,200,000 in bonds, of which \$100,000 worth have been sold, and the commission is asked to certify the remainder. The project covers 16,000 acres. Water is conveyed from a tributary of the John Day river and turned into Butler creek for distribution to the acreage. Fourteen miles of canal, five miles of flume and two miles of tunnel are necessary to take the water across the divide to Butler creek.

CROWDS LISTEN TO BIG ORGAN

Raymond Ballard Introduces Mammoth Instrument to Theatre Patrons

First it plays a concert from one side and then from the other and first thing you know two concerts are going on. That's what the new Hope-Jones Wuritzer unit orchestra did last night when Raymond Ballard introduced the new musical instrument to a crowded house at the

Oregon theatre. The mighty organ was played for the first time last night and the playhouse was thronged for hours with a crowd of curious music lovers. Only a small part of the instrument is visible, the complete marimba-like keyboard before which the organists sit. Way up behind the lattice work on the left hand side, arranged compactly in a little room are the pipes, the snare and the kettle drums and all the rest of the paraphernalia that create the moaning winds, bird-like twitters, chimes and a great variety of sounds that the organ can produce. Mr. Ballard, as a special feature, played two selections at the opening of each performance, especially intended to show off the great number of tones the instrument creates.

A CHIROPRACTIC VICTORY

The science of Chiropractic has just received another merited endorsement. Chiropractic adjustments are now a prescribed part of the care given to heroes of American forces. Although a comparatively young science its virtues are so apparent that national authorities are already giving its endorsement by prescribing its use.
