

## Churches

A seven-day campaign, beginning today, with the aim of recruiting 1,000,000 intercessors, pledged to daily prayer; a sermon on "Prayer" preached from every Methodist pulpit, the broadcasting of the slogan: "Prayer Gets Things Done," the distribution of 4,000,000 pamphlets on prayer with a blank of enrollment and the launching of a united Methodist week of prayer for the success of the \$105,000,000 Methodist centenary movement, are features of the centenary plan which will be participated in by every Methodist Episcopal church in America.

On Easter Sunday the pastor of every Methodist church hopes to be able to report that he has enrolled 25 per cent of his membership as intercessors. Twenty-five percent in each Methodist church will produce more than 1,000,000 members for the army of prayer makers.

This army is to prepare for the Methodist centenary financial drive for \$105,000,000 which begins May 18 for seven days.

Every Methodist Sunday school, every Epworth league, and 100,000 Methodist minute men are taking part in the effort to enroll 1,000,000 intercessors.

In Salem the drive has already begun and up to Friday \$25,000 of the \$45,000 allotted to this city had been subscribed by the three English speaking Methodist congregations. The vast sum of money to be raised is intended for reconstruction work, \$40,000 to be expended in the next five years in the foreign field, \$40,000 at home and the remainder for war emergencies.

Local pastors are hoping to have Salem's quota raised by Easter Sunday.

### HOW WEAK WOMEN ARE MADE STRONG

Mrs. Westmoreland Tells in the Following Letter.

Harrison, N. Y.—"When my first child was born I did not know about Lydia E. Pinkham's Vegetable Compound and had a very hard time. I read in the newspaper about the Vegetable Compound and when my second child came I took it and was well during the whole time, and childbirth was a hundred times easier. Ever since then I have used it for any weakness and would not be without it for the world. I do all my work and am strong and healthy. I am nursing my baby, and I still take the Vegetable Compound and it keeps a woman in good health. You may publish my testimonial for the good of other women, if you choose to do so."—Mrs. C. WESTMORELAND, Harrison, N. Y.

Women who suffer from displacements, irregularities, inflammation, ulceration, backache, headaches and nervousness should lose no time in giving this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial, and for special advice write to Lydia E. Pinkham Medicine Co., Lynn, Mass.

**WOMEN! DRY CLEAN THINGS AT HOME**  
Try it! For a few cents you can dry clean everything.

Save five to ten dollars quickly by dry cleaning everything in the home with gasoline that would be ruined by soap and water—suits, coats, waisis, silks, laces, gloves, shoes, furs, draperies, rugs—everything! Place a gallon or more of gasoline in a dishpan or washbowl, then put in the things to be dry cleaned, then wash them with Solvite soap. Shortly everything comes out looking like new. Nothing fades, shrinks or wrinkles. Do not attempt to dry clean without Solvite soap. This gasoline soap is the secret of all dry cleaning. A package of Solvite soap containing directions for home dry cleaning, costs little at any drug store. Dry clean outdoors or away from flame.

**300,000 Persons Who Value a Dollar Drive a Maxwell**

ONE reason—and the main one—why persons change from one car to another after a year's use is this: the cost is too much to keep it running.

A Maxwell possesses the prized virtue of staying out of the repair shop and running and running. This is why:

Raw materials are purchased in large quantities and for cash. Economy No. 1.

There are no engineering knick-knacks in a Maxwell. Economy No. 2.

The road engineer who spends 12 months a year testing Maxwell cars for weaknesses, and who has driven a motor car further than any living man, finds the "mistakes" before they get into production and are therefore not passed on to you. Economy No. 3.

Maxwell cars are built on the original chassis plan laid down 5 years ago. 300,000 have been built to date. Doing one thing always results in doing it well. Economy No. 4.

All "temperament" is taken out of the car by the engineering department so that it is well nigh impossible to find a Maxwell with an "uneven disposition". Economy No. 5.

There are 25 others. These forty you against after-troble in a Maxwell. That is why you can be doubly sure on a Maxwell if you value highly a thrifty dollar. Most persons do, and 300,000 of them drive Maxwells.
