YAMHILL FIRST TO MAKE QUOTA

Methodists Show Activity in Campaign for Reconstruction Work

The little town of Yamhill, Or., one of the first to complete its quota in the \$105,000,000 Methodist centenary drive, in advance of the actual campaign dates, claims a record which is said never to have been equalled in any campaign of the war period.

Despite the fact that he is 68 years of age, Hugh Nesbitt was one of the leaders in the successful Methodist drive at Yamhill.

Stricken with palsy, his wife just out of a hospital and with a heavy mortgage on his 12-acre farm, Mr. Nesbitt made a pledge of \$500 to the centenary.

Then he gave up his work and became a member of one of the soliciting teams, his team making a record. "We have much to be thankful for," was Mr. Nesbitt's explanation. The story of the Yamhill achievement reached local centenary headquarters yesterday from Northwest headquarters at Portland.

Methodism began its actual canvassing May 18. Its \$105,000,000 will be spent \$40,000,000 abroad, \$40,000,000 in America and \$25,000,000 on war reconstruction work. More than half of the \$2,500,000 which is the quota for the northwest, will be expended in Oregon, Washington and northern Idaho.

Sal election ballot on July 3 Salem will have no special election on that date. Many cities in the state are taking advantage of the special state election to place local issues on the ballots, and in Salem there has been some talk in favor of presenting to the voters a measure for increase in the salaries of the chief of police and the city recorder, but this has been dropped.

For Ache of the Feet

Sprinkle one or two Allen's Foot-Powders in the foot bath and soak and rub the feet. It takes the sting out of corns and bunions and smoothes, softens feet. Then for lasting comfort, shake Allen's Foot-Powder into your shoes. It takes the friction from the shoe, rests the feet and makes walking a delight. Always use it for dancing parties and to break in new shoes. All dealers sell it.

City Y. W. C. A. Is Opened for Operation in Paris

The beginnings of a typical city Y. W. C. A. as America knows it, were laid the other day when the American Y. W. C. A. in France took over the lease of a big building in the center of Paris on the rue Daunou.

Into the building, as soon as it can be ready, one of the Y. W. C. A.'s Paris foyers, or clubs for French girls, will be moved. This is the Villiers foyer, which takes its name, like a lot of things in Paris, from the street where it is located.

But there will be much more than just the foyer in the new Blue Triangle House. The project of this building is a joint one with the Union Chretienne de Jeunes Filles, a French women's organization, which in many ways corresponds with the Y. W. C. A.

Miss Marguerite Jones of New York City, the present director of the Villiers foyer, is to be the executive of the new work.

Inexpensive restaurant facilities, rest rooms, gymnasium, classes, lectures, and all kinds of club room good times, will be part of the program for the new building.

The project is a tangible result of the Y. W. C. A.'s Provisional Council, which is made up of French women working for girls, and American Y. W. C. A. representatives in

France. The purpose of the council is to put the work the American Y. W. C. A. had started in the hands of French women who would carry it on permanently after the Americans leave.
