### CHURCH NEWS

The churches of America are today being linked up with the United States employment service. In a great percentage of those in the country today the labor situation will be the topic of sermons or of a special announcement.

The idea is to urge that every church form local committees that will affiliate with the employment service, but more especially it is hoped that special emphasis will be laid on the injunction that every employer "list every job with the United States employment service at its nearest branch."

Dr. Christian F. Reisner, national head of the Methodist minute men, suggested the idea of Employment Sunday, as today is known, to Secretary of Labor Wilson, who has mailed to every pastor in America data concerning employment.

As this is the first Sunday of the month Holy Communion will be held in the Methodist churches. This is also true at St. Paul's. And the first Baptist church. At the latter place reception of new members will also take place. At

Leslie Methodist officers of the Epworth league will be installed in the morning and this will be followed by baptism.

Mother's Day is to be celebrated by the Court street Christian church and a large crowd is expected. Cradle roll certificates will be presented and all new babies enrolled.

An address that promises much of interest is that by C. T. Doty, scheduled for the evening program, at the Evangelical church. Mr. Doty has been a member of the church 23 years and will tell of his reminiscences from 26 years of church affiliation.

Coming events worthy of note are the annual parish meeting and election of vestrymen at St. Paul's on Monday night and the annual Evangelical association conference at Seattle May 8 to 12.

**Court Street Christian Church.**  
North Seventeenth and Court streets. On May 11 we observe "Mother's Day" in the Bible school. There will be several special features of interest given at both Bible school and church service that will be well worth witnessing. A committee is at work with the arrangements for program. A big crowd

is expected. The Cradle Roll certificates will be presented to all new babies now enrolled. We had a fine school last Lord's Day and we are looking for more this time. The contest now on between the men and boys on one side and the women and girls on the other shows the men and boys slightly in the lead. The result will be announced each Lord's Day. Morning service 10 a. m. to 12 m. Bible school begins promptly from the word go. Sermon for children, Lord's Table, special sermon on "Our Home Task." This is Home Missionary Day in the church; let all come prepared to share in the worship and spread of gospel in our nation. The local auxiliary of C. W. B. M. holds its monthly meeting 3 p. m. and the mission study group of young ladies meets also. The pastor will hold service at the girl's industrial school at 3 p. m.; Christian Endeavor 7 p. m. **QUIT MEAT WHEN KIDNEYS BOTHER**  
Take a Glass of Salts If Your Back Hurts or Bladder Troubles You.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys. The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness. Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

Church." Mr. Doty was a member of this church for 23 years and will have many interesting reminiscences. P. S.—This is the last Sunday before the annual conference, that is being held at Seattle, from May 8th to 12th. Bishop Helmiller of Naperville, Ill., will be the presiding officer.

### OAKLAND

The Oakland stands as the foremost example of practical light weight construction among the widely sold automobiles today. The marked reduction of weight in all Oakland models, combined with high power and great sturdiness and stamina, gives results in service and satisfaction to the owner which are very unusual when compared with that of other automobiles.

Elemental simplicity of design and the use of high-grade materials throughout to secure full strength with the lowest possible amount of weight, makes possible the low weight of 2130 pounds in the Oakland touring models and similarly light weight in the other cars of the Sensible Six line. This means only 48 pounds of car weight per horsepower in the touring car. The remarkable performance of these cars in service, both as to pulling power, flexibility, rapid acceleration, and operating economy, is largely responsible for the uncommon popularity of the Sensible Six and for its enthusiastic endorsement by over one hundred thousand users.

The scientifically correct character of Oakland design is further evidenced by the fact that owners of the Sensible Six regularly secure from 18 to 25 miles of travel per gallon of fuel and from 8000 to 12,000 miles per set of tires. The 32x4 inch tires, extra large for the weight of the car, render not only extraordinarily long service, but promote easy riding and freedom from tire troubles.

Summed up, the Oakland Sensible Six meets all the needs of motor car users better than other cars of anywhere near its cost, having those qualities which make it the most economical and practical car built giving true comfort, convenience and service.
