DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, dizzy headache; or, if your meals sour and turn into gas and acids, you have a real surprise awaiting you.

Tomorrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleaning, sweetening and purifying the entire alimentary canal.

Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning inside-bath. It is said that men and women who try this become enthusiastic and keep it up daily.

Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless.

Dallas Couple Marry and Will Make Home in Spokane

DALLAS, Or., May 2.—(Special to The Statesman)—Judge and Mrs. Ed F. Coad of this city have announced that their youngest daughter, Miss Ava, was united in marriage Monday, April 21, at Spokane to Julius Herzog of Portland, a former Dallas business man. The bride was one of the members of the younger set of Dallas and was popular with a large circle of friends. For the past few months she has been engaged in senographic work in Portland. The young couple will make their home in Spokane.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed With Sulphur It Brings Back Its Beautiful Lustre At Once.

Grey hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns grey and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

"Don't stay grey! Look young! Either prepare the recipe at home or get from any drug store a bottle of 'Wyneth's Sage and Sulphur Compound,' which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the grey hair disappears; after another application or two, its natural color is restored, and it becomes thick, glossy and lustrous, and you appear years younger.

COMPANY LOSES DAMAGE ACTION

Spaulding Firm Fails to Collect Damages from Siletz Lumber Concern

DALLAS, Or., May 2.—(Special to The Statesman)—The Siletz Lumber and Logging company was awarded the verdict in a damage case instituted by the Charles K. Logging company in the circuit court, Thursday when the jury, after being out but a few minutes returned with a verdict for the defendant. The case was one of the most important civil actions brought in the Polk county courts for a number of years and its settlement will have much weight in the settlement of cases between holders of timber in this state for years to come.

The action was brought by the Spaulding company against the defendants for the alleged setting of a back fire last June at the time a forest fire was raging in the western part of Polk county, the fire destroying a number of logs and green timber of the plaintiffs. The plaintiffs attempted to show that the back fire was unnecessary at the time to protect her property of the defendant and incidentally some of its own property as alleged by the defendant; and that the fire was set without the consent of a representative of the Spaulding company.

The defendants showed in their testimony that if the back fire had not been started and the fire stopped, a large bridge about 500 feet long

SOLDIER IS HOME

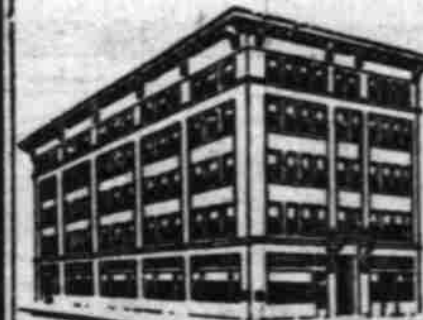

SILVERTON, Ore., May 2.—(Special to The Statesman)—Alvin H. Hemmingsen came to Silvertown Tuesday night. He received his honorable discharge at Camp Lewis Sunday and left immediately for Donald where he visited at the Williams home until Tuesday night. P. Moberg, S. Williams and Alvin Williams brought Mr. Hemmingsen down in the Williams car. Mr. Hemmingsen has been overseas for about 10 months. He says that although he cannot complain of the treatment he received on the other side he is very glad to get home again. Mr. Hemmingsen is staying with his sister, Mrs. Pearl Miller. He will probably remain at Silvertown during the summer.

"I notice a good deal in the papers about our soldiers taking up farming when they return from overseas," musingly said honest Farmer Hornbeak. "So, probably, by this time next year I'll be deferentially saying, 'Pardon me, colonel, ut the dinner horn has just blown,' or a trifle more briskly, 'Captain, them hog's is out again,' or yelling in no uncertain tones, 'Lieutenant, daddurn your ornery picture, do you want to lay abed all day?'"—Country Gentleman.

A SEASON OF SAVING

BEFORE some other season catches you napping—this in-between time should find every farmer in the Valley looking forward to his harvest needs—and striving to accumulate the necessary cash to "carry on." That very effort in itself forms a very good reason here at the United States National Bank to extend a little credit also if necessary.

We are always glad when called upon to lend practical assistance.

Gas Range and Kitchen Heater

This new two-in-one creation is a triumph of stove making, for it combines all the advantages of the gas range and all the conveniences of the kitchen heater in a single unit.

Coal or Wood Kitchen Heater Cook With Gas the Year Round

The heater burns wood, coke or coal, which may be ignited by a gas kindling flame. Or it burns gas alone if you prefer. Hot water coils may be installed, which will insure a constant hot water supply while your kitchen is being made warm and comfortable. This range has a six-hole cooking top—two holes for the heater—four holes for gas—made of rust resisting iron, with a perfectly proportioned, efficient, quick-baking oven. Enameled oven doors, splashes and drip pans complete the beauty of this ideal combination.
