A REAL IRON TONIC

Like Peptonin May Be Just What You Need This Spring.

Probably nine people out of ten have lost or are losing their grip on health in these trying months of awful epidemics, exposure to damp, changeable weather, and association with sick people in overheated homes.

Depleted blood, loss of the red corpuscles, shattered nerves, loss of appetite, dull, foxy feelings in the head, irritability, all loudly call for the real tonic strength and nourishment that Peptonin will give you. It is a wonderful corrective of anemic tendency, paleness, languor, nerve exhaustion.
Peptonin restores the red corpuscles to the blood and gives a natural vigor and snap that keeps up courage, makes you cheery and helpful to your family and friends, and contributes wonderfully to the health of all. Remember this one thing—as vitality, positively true—Peptonin is real iron tonic.

STATE OFFERED NOTED PICTURE

Painting of Battleship Oregon in Action for Sale by Association

The state of Oregon is the first of several specially interested states to be given an opportunity to purchase from the Lincoln Gettysburg Memorial association of Boston a painting of the battleship Oregon, in which the battleship Oregon took a conspicuous part 21 years ago. This state is also given preference over the government, a letter to Governor Olcott from James D. Ball, president of the association, stating that the picture soon will be the property either of the government or one of the states. The picture is considered the masterpiece of S. G. Seby, a marine and naval painter of New York.

The letter suggests that if the governor give the matter public mention some citizen of the state may buy the picture and donate it to the state, or, in lieu of this suggests that the painting could be purchased through public contribution.

Describing the picture the letter says: "The moment is the high water mark of the battle—a number of the enemy ships have been put out of the fight by our superior gunnery—and the immortal chase of the Oregon after the Cristobal Colon the last of the Spanish fleet to succumb—is in full swing. It is an inspiring scene and the artist has served this and coming generations well in producing this masterpiece. Its accuracy and grandeur has been enthusiastically endorsed by many of the distinguished men of the nation. Every American is vitally interested in this historical piece—but it has a peculiar interest for citizens of several individual states: Indiana, Iowa, New York, Oregon and Texas—as ships by these names are so vividly portrayed in action in the painting. It will become the permanent property of the government or one of these states."

BOARD VACANCY TO BE FILLED

Taxpayers Will Elect New School Director on June 16; Clark May Run

In addition to voting funds for junior high school gymnasiums at the regular school election on June 16, taxpayers are to elect a new member of the board. The term of Chairman H. L. Clark expires this year, but it is not unlikely that he will run again. Mr. Clark declined definitely to state his intentions in this regard when questioned yesterday, but it is believed by many that he would poll a fairly heavy vote.

A possible candidate for the vacancy is U. G. Shipley, despite the fact that not long ago he declared he did not want the place. It is understood that a number of business men are ready to back him strongly and members of the present board look upon him with favor.
