THE OREGON

FRATERNAL RECEPTION
DRAWS IMMENSE CROWD

(Continued from Page 1)

Ten from Salem received the medals.

While the program was in progress 36 candidates were given the royal purple degree by a degree team from Portland at Odd Fellows hall. The night's entertainment was one continuous round of joy. Beginning with a banquet at 5 o'clock in the

Presbyterian church for Patriarchs and women of the auxiliary newly formed in Salem and those taking the degree, the program ended with a reception and dance at the armory after the speaking and music had been concluded. One hundred and thirty-three guests attended the feast at the church. All marched in uniform to and from the meeting place.

Mrs. C. C. Clark was in charge of the meeting at the armory and introduced Governor Olcott, Manager T. E. McCroskey of the Commercial club, Mayor C. E. Albin, Grand Master W. F. Walker, Mrs. Jeanie Burke, P. A. Hantz, newly elected grand patriarch, and W. E. Wadsworth. The governor praised the principle of the order, pointing out the significance of the three links of Odd Fellowship, saying that its spirit is the kind needed to quell the unrest that is cropping out from time to time. He invited the visitors to go through the state institutions.

Mr. McCroskey extended a welcome on behalf of the Commercial club and Mayor Albin, for the Che-

BITS FOR BREAKFAST

This is the big day in Salem. And the big night is tonight. The Odd Fellows and the Jersey men will be with us. The hop-off on the east leg of the great air race has been made. Congress also has hopped off. And Germany will have to hop off tomorrow. Paris does not take seriously the German threat about not signing. Looks like the Ebert government in Germany will be damned if it does and damned if it don't. In the meantime Foch is taking no chances. He is ready for whatever comes. The date of commencing construction of Salem's big paper mill is apparently merely postponed till next Tuesday. Hope so. The old Company M soldier boys at Nevers, France, think they are going to get home before long; by July 4th, anyway.

meketa lodge, of which he is a member. To these Mr. Walker and Mrs. Burke responded on behalf of the 20,000 Odd Fellows and 15,000 Rebekahs in the state, who have sent delegates to state conventions in this city 11 times. Mr. Hantz' address was of a patriotic nature, while Mr. Wadsworth traced the history of the Patriarchs Militant.

Miss Ada Miller, Mrs. Blanche Liston Niemeyer, Miss Alice Judd, Professor John R. Sites and the Apollo club furnished musical selections.

Among yesterday's general business was the conferring of the grand encampment degree on 45 members during the session at the state house. Reports of officers were received and referred to committees. Standing committees were also appointed by the Rebekahs, who met in the senate chamber.

One Cause of a Bad Complexion—the Remedy

"Look at a section of skin under the microscope and you will readily understand why cosmetics generally mislead the complexion," says a well known physician. "The skin, smooth as it looks to the naked eye, under the glass exhibits a lacework of tiny holes, mouths of myriads of little glands. To keep the skin healthy, these holes must be unobstructed, that the perspiration and natural oil can have free outlet. Should the glands be blocked up with irritating gritty particles, a common result of using powders and creams, nature retaliates by causing sallowness, roughness, blotches or pimples.

"As a substitute for all cosmetics I recommend ordinary mercurized wax. It not only does what the various face preparations are supposed to accomplish but its peculiar absorbent action frees the pores from the daily accumulation of impurities, also absorbing the devitalized particles of surface skin. This produces a natural, healthy, youthful complexion. One ounce of this wax, to be had at any drug store, usually suffices to rejuvenate the poorest complexion. If put on night like cold cream and washed off mornings."
