Use Coconut Oil For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Mulsified coconut oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get Mulsified coconut oil shampoo at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

BITS FOR BREAKFAST

Glorious showers.

Now, the hop-off of the paper mill construction.

It will start out with befog the finest paper mill ever built; and it may develop into the biggest.

Lenine and Trotsky can see their finish.

A week from today, the hop-off of the reconstruction program, and the kick-off of Oregon's period of great growth and development.

Marion county's market roads, according to the plans, will cost not any one any additional taxes. The voters will merely make themselves a present of 100 miles of paved roads
