ROTARY CLUB FIGHT BITTER ON PROPOSAL

(Continued from Page 1.) and educate the foreign population we now have.

"Men are flexible before they are 20," he said. "They come to this country with views and a philosophy shaped by impressions made in Ger-

many of Russia, and they are worked upon by agitators that know these views, but the conditions and principles that applied in those lands do not apply in America and the problems here are not to be settled through agitation and violence.

"It is highly important that we hold back the tide of immigration until we assimilate and educate the foreigners we already have here. It is better to pay higher for American labor that is intelligent than it is to pay lower for foreign labor that is ignorant and a menace. It is sound politics to do so, because in the end the problems of discontent will vanish; it is good business to do so, because in the end there is more profit."

Violence Decried.

Speaking on the subject of economic disputes, Dr. Suzzalo declared there must be no legislation that would force the American nation to take steps towards the use of violence in the settlement of economic disputes.

"Ultimately there will be," he said, "not a compulsory arbitration but a court of conciliation."

COVENANT ENDORSED BY LABOR FEDERATION

(Continued from page 1.) supported by the so-called radical labor wing, declined to accept nomination and his candidate, F. B. Clifford, of the Tacoma shipyard laborers, was nominated in his stead.

Prohibition Endorsed. After a bitter fight the convention selected one of five prohibition resolutions offered and adopted it. The resolution severely castigates Samuel Gompers, president of the American Federation of Labor for his stand against complete national prohibition. Following this the convention instructed its secretary to send a telegram to the American Federation of Labor convention at Atlantic City condemning "the officials of the American Federation of Labor for their support of the liquor traffic," and also condemning the trip made by delegates from Atlantic City to Washington in a "booze special" to

conduct a protest demonstration in front of the national capitol. The telegram declares that Washington organized labor "stands emphatically for national prohibition."

The fight in the convention was clearly between supporters of Gompers' policies and those against Gompers.

At tonight's session the radical element scored a victory when they elected L. W. Buck of Seattle secretary-treasurer over Charles Perry Taylor, incumbent. Taylor was defeated by 12 votes. Spokane was selected for next year's convention.

INDICATIONS TOWARD SIGNING ARE STRONGER

(Continued from Page 1.) The conservative press is declaring it is willing to sign and inveighing against the cowardice of the government. The extreme radical papers declare the working people want peace at any price while the middle group admits there is nothing left but to sign.

Conference circles are cheerful over the outlook. It is believed that the signing of the treaty by Germany now is assured.

SUPREME COUNCIL APPROVES MILITARY ADVANCE PLANS. PARIS, June 20.—(By the Ascl confirmed today the plans made associated Press)—The supreme council by the military authorities for a resumption of the advance into Germany in the event of the failure of the Germans to sign the peace treaty within the allotted time.

The reports of the fall of the Scheidemann government had not reached the council when these plans were discussed.

Defendant Has Money and Doesn't Care to Be Cook

Mattie C. Robinson of South Thirtieth street has filed suit for divorce against H. C. Robinson. She asks \$1000 alimony, \$75 costs and attorney's fees, and custody of their 7-year-old daughter. A 9-year-old son is now in a state institution.

Mrs. Robinson alleges extreme cruelty and asserts that at various times her husband has kicked her and struck her about the head. Yesterday before Mr. Robinson had learned of his wife's having filed suit he appeared before both the justice court and the police court and demanded papers which would enable him to bring his wife home when he found her. He asserted that he had money enough to ride on all the trains in the United States and that he intended to find his wife and make her go home, as he hadn't time to cook for himself.

POLHAMUS URGES LINES TO CUBA

Steamers from Portland to West Indies Held Key to Huge Commerce

PORTLAND, June 20.—Portlanders should at once take steps to establish a steamship line between this port and Cuba and the business community here should awaken at once to the possibilities of a highly remunerative trade which is certain to arise from such a service," said J. Nelson Polhamus, general manager of the Atlantic trading company of Havana, former consul general of the island, for 12 years chief of the Cuban customs service and minister from Cuba to both China and Bolivia. He arrived here today for a short stay.

"The need for a permanent steamship line from Portland to the West Indies is urgent," said Polhamus. "Cuba has an import trade of \$174,000,000 a year at the present time with the United States and there is no reason why this city should not receive its just proportion of this magnificent commerce. The products of the northwest and especially this district produce are in demand by the people from the West Indies. At this time when a steamship line from this port to the Atlantic coast is more than a remote possibility, it would be a lucrative service to have these steamers stop at Havana and other West Indian ports with their east bound cargoes, which is the cargo generally accepted to be the lightest."
