

WOOD AGAINST ALL ALLIANCES

General Urges Preparedness for Sake of Humanity at Large

SANTA FE, N. M., Aug. 7.—"The armies of America," declared Major General Leonard Wood, in a speech following the conferring of a medal by the state of New Mexico at the capital here today, "will never go to war at the mandate of any foreign nation, nor group of nations."

General Wood urged national preparedness as a steadfast policy, declaring that it is "not humanity, but brutality."

He received loud applause when he appealed for the wiping out of "cheap little racial and social distinctions" and the perpetuation of the "battlefield spirit of democracy."

"Avoid internationalism as you would death," said General Wood in

in denunciation of bolshevism and allied evils.

The medal was presented in recognition of General Wood's service in the great war.

Coast Shipping Strike Ends With Granting of Demands

SAN FRANCISCO, Aug. 7.—A strike affecting the masters and mates of thirty-four steam lumber schooners in this port and forty-two similar craft in other Pacific coast ports was ended here today when an agreement on a new wage scale was adopted.

Under the new schedule the mates will receive \$1 an hour overtime, the same rate received by sailors. The employers, it was announced, also had granted an increase in wages to the masters. The schedule, it was said, will not apply to the masters of eleven small steam schooners making short coast trips. The wages of these skippers has been set at \$250 a month while the commanders of the larger schooners are to receive \$275 a month.

THEATERS CLOSED BY ACTOR STRIKE

15,000 Show-Goers Disappointed Through Action of Players

NEW YORK, Aug. 7.—Thirteen of New York's "leading" theatres were closed tonight by an actors' strike, called an hour before the curtains were to go up, by the Actors' Equity association.

More than 15,000 theatre attendants were disappointed.

The strike order followed close on the heels of rejection by the Producing Managers' Protective association of an ultimatum demanding action by 7 p. m. on demands submitted several days ago.

Recognition Sought.

These demands included recognition of the actors' equity association, extra compensation for performances in excess of eight a week and continuation of the standard "equity"

form of contract in use since 1917.

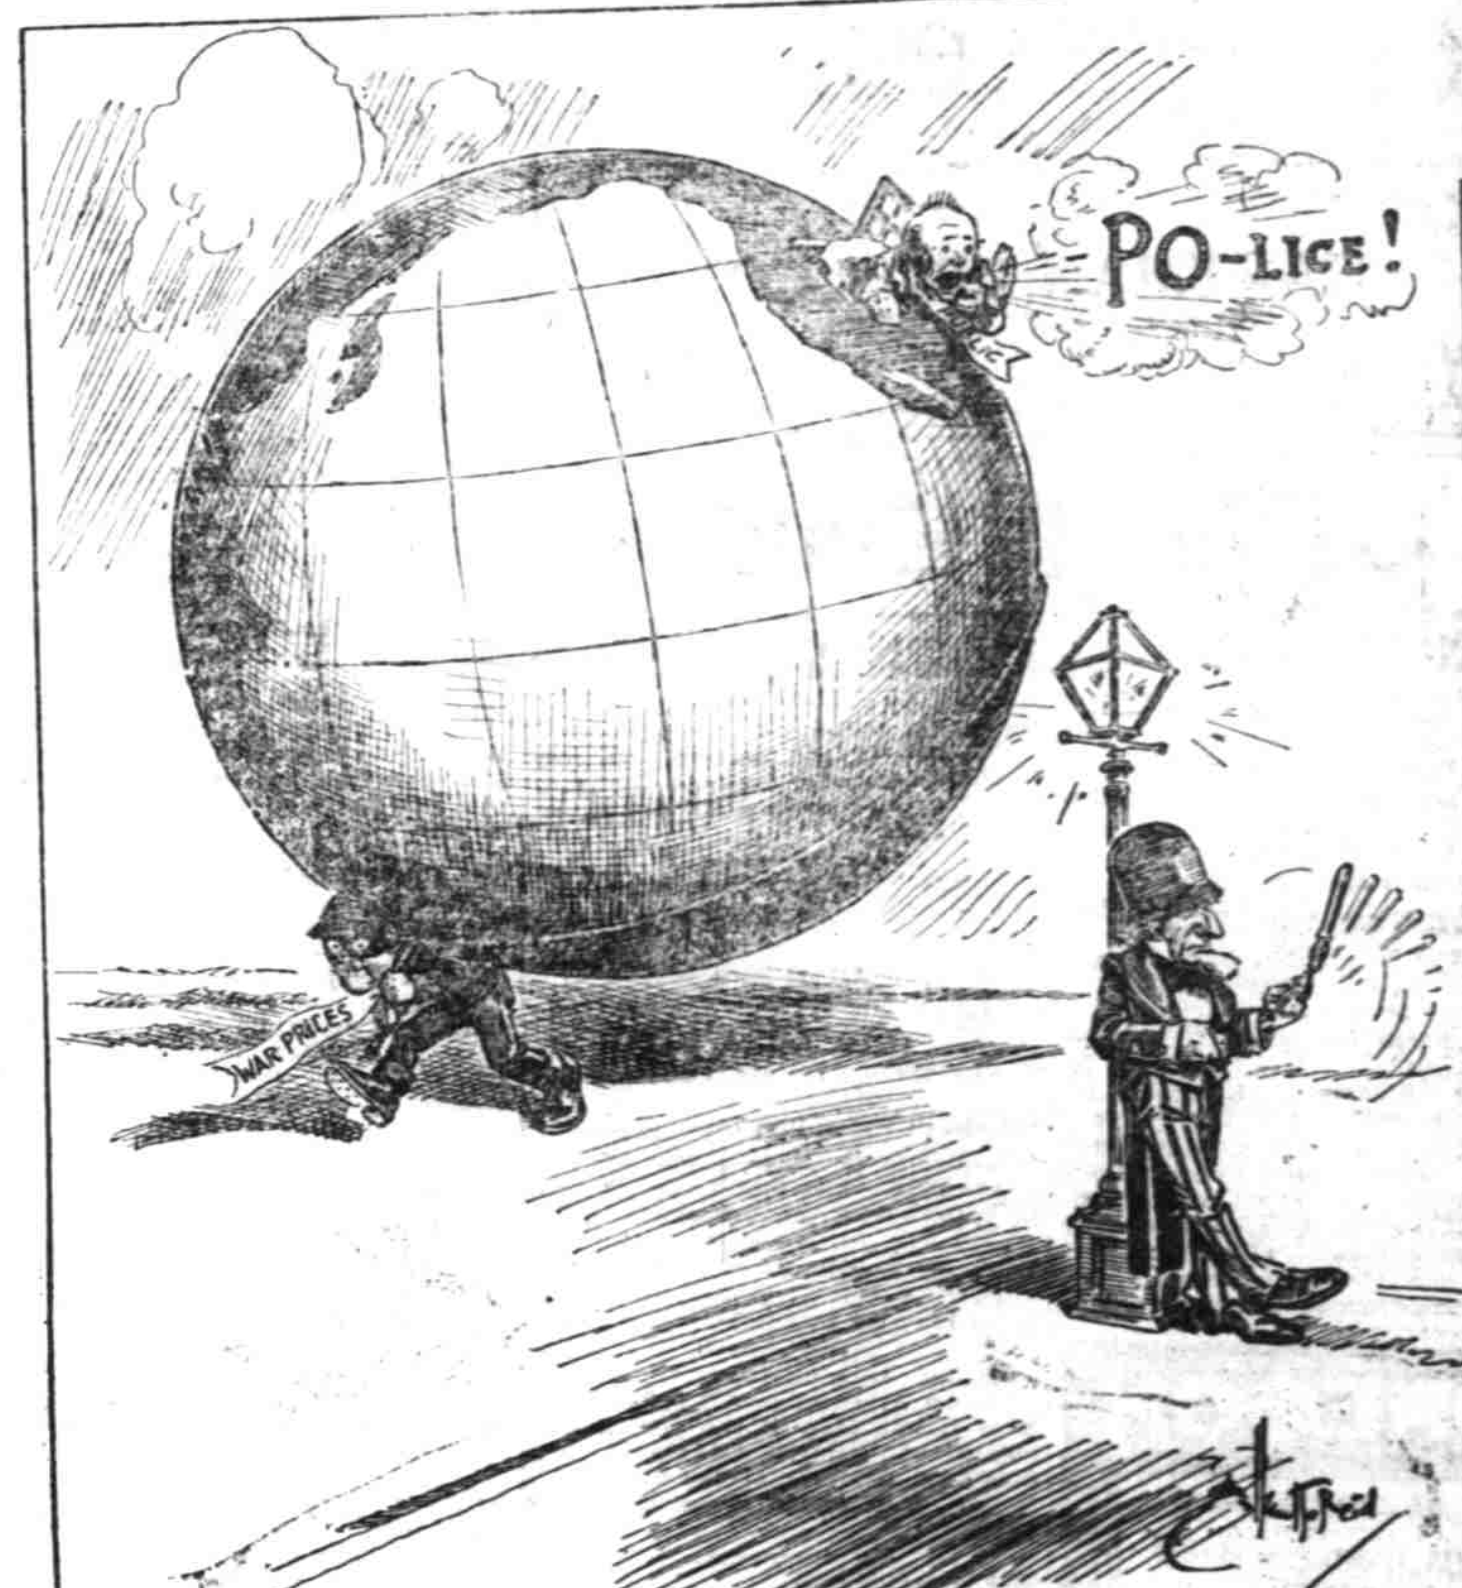

Officials of the managers' association have announced that they are "ready for a fight" and that steps have been taken for an organization of the "legitimate" vaudeville, burlesque and moving picture interests to combat the efforts for unionization of stage and screen artists.

HOME PRACTICE NEEDED.

"Home economic schools throughout the country are recognizing the need of more practice for their students," said Ava B. Milam, dean of home economics, Oregon Agricultural College. "Skill in cooking, sewing etc. can only be obtained through practice. I think the plan adopted by some who go into their own homes and persuade their mothers to turn over to them the responsibility of the management of the diet of the family, marketing, planning, preparing and serving the meals is very good. This, I think, should be done with a definite sum of money agreed upon by the mother and the girl. The sewing work, which would come in connection with the household, is also valuable."
