

Here We Are

RIGHT IN YOUR VERY MIDST—JUST WHERE YOU WANT US

It's a POSITIVE FACT that we're here to furnish the people of SALEM and VICINITY with THE FINEST and MOST SATISFACTORY BREAD they have ever tasted.

That's a BROAD STATEMENT, as we know, but such has been our phenomenal success in other cities under exactly the same conditions, that we KNOW JUST WHAT WE CAN DO HERE!

Starting—as we always do—in a very modest way, it is very interesting to see how rapidly we step into the good graces of the Bread-eating Public, for people soon learn to discriminate between the old and the NEW, and, if you join the crowds at our counters, you'll hear, on every hand, such expressions as these:

**"Why I Never Tasted Such Remarkable Bread"
"This Bake-Rite Bread Is Simply Delicious"
"It Tastes Better Than Any 'Home-Made' Bread I Ever Ate"**

And the same applies, with equal force to every one of our "BAKE-RITE" Products. All we ask is that you take our word for this ONCE, and the rest we leave entirely in your hands.

BAKE-RITE SANITARY BREAD COMPANY
457 State Street

NO QUAIL READY TO DISTRIBUTE

Distribution Possible in Few Years—Clatsop Gets No Pheasants

PORTLAND, Or., Aug. 14.—State Game Warden Carl D. Shoemaker announced today that no quail will be available for distribution this fall in Oregon. On account of the close season, however, quail in the Willamette valley are increasing to such an extent that distribution will be possible within four or five years. There will be no open season on Chinese pheasants in Clatsop county this year and shooting of these birds will be prohibited until the county becomes well stocked.

Albany Fire Department Slated for Improvement

Improvement in fire protection facilities at Albany are likely to be made as a result of a conference held there Tuesday night between the city council and representatives of the state fire marshal's department.

H. H. Pomeroy and George H. Stokes of the department conferred with the Albany council and recommended that paid members of the department be increased from two to six, that an inspection system be installed and that the horse drawn fire engine be discarded and a triple combination pumper be given its place. Another recommendation was that water for fire fighting purposes be taken directly from hydrants instead from cisterns as at present.

Following the conference the council authorized its fire and water committee to investigate with power to act. Stokes left today for Bend, where he will assist the fire department in placing in operation a new engine with which it has had some difficulty.

AERIAL DEFENSE CITE CONFIRMED

Buildings Costing Million to Rise at San Francisco Station

SAN FRANCISCO, Aug. 14.—The immediate construction of the buildings which will comprise an aerial coast defense station located at the San Francisco Presidio, was authorized in instructions from Washington received here today by Colonel N. M. Arnold, western department air service officer.

The buildings, which will be of permanent character, will cost approximately \$1,000,000. The station will be built to care for both land and water airplanes. One aero squadron, it was said, will be stationed permanently at the station which will be the first of its kind on the Pacific coast.

Horticulturists Meet at Astoria From All Oregon

ASTORIA, Or., Aug. 14.—The 34th annual convention of the Oregon State Horticultural society was convened here today with delegates present from all sections of the state. The sessions will continue for three days and additional delegates were expected tonight to arrive tomorrow. Today's session was devoted principally to organization and preparing for the real business session which will begin tomorrow. An address of welcome was delivered by Mayor Bremner and responded to by J. O. Holt of Eugene, vice president of the organization. B. S. Worsley, president of the society delivered his annual address showing what had been accomplished during the last year.

Marion County Bonds Are Approved by Legal Firm

The Marion county market road bond issue of \$850,000 voted by the people at the special election of June 3 has been approved by the legal firm of Storey, Thorndyke, Palmer & Dodge of Boston, and as soon as the county needs the money \$200,000 of the bonds will be sold.

The first issue will be sold either in two blocks of \$100,000 each or in a single block of \$200,000. The issue will be a short term issue of four or five years. It is the desire of the county court to have the bonds taken up by local people, and an effort is being made to have them bought by the banks of the county to be re-sold to patrons of the banks.

Medford Plans to Regulate Airplane Traffic Over City

MEDFORD, Or., Aug. 14.—An ordinance regulating the flying aeroplanes over the city will be considered at the next meeting of the city council. Low flying over the business district by some of the visiting aviators is the reason. Some of the councilmen claim such is a menace to pedestrians as well as flyers. Other councilmen take the opposite view.

Carcasses of 700 Sheep Found in Wake of Blaze

LEWISTON, Ida., Aug. 14.—Advices tonight from Grangeville state that the carcasses of 700 sheep owned by Charles Mumford of Lewiston have been found in the Adams Camp forest fire zone on the Nez Perce reserve. A band of 250 have been located alive, but there are 300 to 400 more missing. Other bands of sheep are reported in danger.

Educational Institutions Want to Come Under Law

Below is given a list of private educational institutions in Oregon that have filed with the secretary of state evidence to show that they are institutions of learning under the provisions of the soldiers', sailors, and marines' educational aid enactment: Willamette university Salem; Capital Business college, Salem; Philomath college, Philomath; Eugene Business college, Eugene; Behrke-Walker Business college, Portland; Pacific university, Forest Grove; Adcox Auto and Gas Engine school, Portland; North Pacific college, Portland; The Northwestern College of Law, Portland; Columbia university, Portland; Reed College, Portland; Albany college, Albany; Young Men's Christian association, Portland; Laurelwood academy, Gaston; DeKeyser Institute of Optometry, Portland; Link's Business college, Portland; McMinnville college, McMinnville; Holmes Business college, Portland; Astoria Business college, Astoria; Bursell Private Business school, Portland; Mount Angel college, St. Benedict.

"You say you have a fire escape at each floor?" said the applicant for a room. "Yes, we have," replied the boarding house lady. "Must give you a feeling of security." "It does if the boarders are all paid up."—Grit.

GOOD PAINT CHEAPEST.

There is a difference in paint—not only in price, but in covering capacity and years of service, the qualities by which economy should be judged and not the price per gallon. A good grade of ready-mixed paint will cover considerably more surface than adulterated paint, enough so that the difference in price really favors the quality goods at the higher original cost.

In the years of additional service and protection through the use of the high grade paint, the real economy will become evident in the long time between coats, and a thorough protection from the ravages of winter storms and summer heat, eliminating expensive repair bills.

Therefore, in selecting a paint, the owner should, if possible, be induced by the dealer and master painter to buy a good grade of paint, even if first cost is thereby increased.

The Old Woman Who Lived in a Shoe—My family is awfully crowded in this old Oxford. Haven't you something better to rent? Peter Piper, Pumpkin Eater—I have a fine, modern three story swede shoe for rent, but children are not allowed.—Washington Star.

WILLIAM CLARK MAKES ESCAPE

Man Who Robbed Beaverton Bank Runs Away From Prison Working Gang

Chester William Clark, who robbed a bank at Beaverton during the noon hour several months ago and who was received at the state penitentiary a month ago today, made his escape early this morning from a berry vineyard on the prison farm. Clark is 21 years old. He was employed on the farm with several other prisoners.

Clark got away with \$3800 when he robbed the Beaverton bank after locking the cashier in a vault with a customer who happened to be in the bank at the time. The berry field crew was working under armed guards and the field was surrounded as soon as the absence of Clark became known.

Long Hard Fight Looms in Couer d'Alene Mine Strike

WALLACE, Idaho, Aug. 14.—Lines appeared drawn tonight for a long hard fought strike in this section of the Couer d'Alene mining district.

About 100 miners disregarding instructions of the International Union of Mine, Mill and Smelter workers, struck today demanding a six-hour day and \$1 an hour.

Governors to Take up H. C. L. for Full Day at Convention

SALT LAKE CITY, Aug. 14.—Governors who will meet at Salt Lake in conference August 18 to 24 will devote all of next Wednesday to discussion of bringing about a reduction of the high cost of living. Twenty-two governors exclusive of Governor Ramberger of Utah, will be present, according to information received.

"There are ants in the sugar," said the summer boarder. "You're the first to complain," remarked the hostess. "I hope you'll excuse me. But—you see—I'm a vegetarian."—Washington Star.

A SPORTIVE REVIEW.

I read that one of our leading hotels "threw out" a woman who appeared in the dining-room without stockings. I wonder if they were afraid she would put her feet on instead of under the table.

We are to have German opera this season. The only objection I see is the probable recrudescence of the indignation squad.

It's so stimulating to read while contemplating a three-dollar dinner check on the side that there is a food

German Prisoners, Who Aided Pershing, Brought to America for Their Own Safety

Alfred Scholz (left) and Alwin Grothe

These are the two mysterious Germans, prisoners of war, who were brought to this country aboard the transport Agamemnon and turned over to the Military Intelligence Service. It is understood that Alfred Scholz, an infantryman, and Alwin Grothe, an aviator, furnished plans of the German military staff which were of great benefit to General Pershing at the time of the American advance. They were brought to this country, it is believed, because it was feared German officers would attempt reprisals for the betrayal of their plans.

glut in Berlin, caused by lifting the blockade and that prices are dropping to the pre-war level. The Prince of Wales sails for Canada August 9, and already I am wondering how many American heiresses the magazine sections will have married to him before his return. What has become of the old-fashioned Ruprecht, crown prince of Bavaria.

An effort is to be made to refloat the German navy at Scapa Flow—so that we can resume agitation of the advisability of sinking it again, I suppose. Five-cent coffee has disappeared from even the cheaper restaurants—but toothpicks are still free, if you need a tooth pick after a session at the table. Now that peace has come to the

Dempsey to Meet Meehan for 8 Rounds in November

NEW YORK, Aug. 14.—Jack Dempsey, heavyweight champion, will meet Willie Meehan in an eight-round no decision bout in the state in November, according to a statement issued tonight by Meehan who said he had the promise of Jack Kearns, Dempsey's manager, for the match.

MISS SOUTHWICK IS SURPRISED

Woman Denies She Had Anything to Do With Escape of Two Convicts

Miss Florence Southwick, sister of E. B. Southwick, one of the convicts who escaped Tuesday from a working crew of the state hospital, and who was believed to be implicated in the break, appeared at the hospital yesterday and expressed surprise when upon asking to see her brother she was informed that he had escaped.

Miss Southwick denied having anything to do with the escape or having any knowledge of it. She told Superintendent Griffith that her brother had told her he might try to get away, but that she had spoken against it and believed she had persuaded him not to try to get away. She declared that if she gets into communication with him she will endeavor to persuade him to return.

Miss Southwick said her 14-year-old brother who accompanied her to Salem several weeks ago had returned to the home of relatives in Idaho on July 11. Miss Southwick has been working in a Salem household. She had not read the newspaper articles in which authorities expressed suspicion that she had aided in the escape.

Doubt that Dave Brichoux and Southwick fled in a mysterious automobile was expressed by Superintendent Griffith of the state hospital prior to the visit by Miss Southwick yesterday.

It was believed that an automobile was waiting the two men, according to prearranged plans. After talking further with attendants who were in charge of Brichoux and Southwick, Dr. Griffith thinks this improbable. The attendants say the automobile was following the hospital truck. When Brichoux and

Southwick leaped to freedom there was much confusion caused by the other patients attempting to follow them, and when the excitement was over the automobile had disappeared. Hospital and prison authorities are without a clue in the search for the runaways.

Van Winkle Makes Ruling for Welfare Commission

I. H. Van Winkle, assistant attorney general, has written an opinion for the guidance of the industrial welfare commission in fixing hours of labor, compensation and regulating working conditions of women workers. He interprets the law to mean that all orders in this regard shall emanate from the commission, and that the reports of any conferences the commission may call contain only facts and recommendations which the commission may approve or reject.

The question has arisen in connection with a conference report which would establish a week of 48 hours for Portland women workers with 9 hours as the maximum for any one day. The commission, it appears, prefers to retain the eight hours and 20 minutes now in effect as a maximum working day. The opinion holds that this matter is in the commission's hands. The opinion is written for Mrs. Millie R. Trumbull, secretary of the commission.

Mummified Body Found by Editors at Crater Lake

MEDFORD, Or., Aug. 14.—The mummified body of what is believed to have been a woman was found recently in the Crater Lake National park by B. F. Platt and party of this city and efforts will be made to have the University of Oregon scientists determine its origin. The outlines of the form are good and the arms seemingly have been raised as in self-defense. A number of the editorial visitors to Crater Lake saw the specimen. It will be brought to Medford and placed on exhibition in a few days.
