

### BONDS TO SELL FOR NEW ROAD

#### Strahorn Confers With Schulderman Relative to Big Railway Issue

Robert E. Strahorn, promoter of the Oregon, California & Eastern Railroad proposed to extend from Klamath Falls to Bend, has made a personal application to Corporation Commissioner Schulderman for the floating of \$550,000 bonds to be applied to the construction. The system is being built in units. The system as surveyed and proposed, it is said, will total a length of 400 miles. The Oregon, California & Eastern will connect with the Nevada, California & Oregon road at Lakeview, with the Southern Pacific at Klamath Falls, with the Oregon-Washington & Navigation company and the Oregon Trunk at Bend with the Oregon Short Line and the Union Pacific at Burns. Twenty miles of the system has already been

built from Bend to Dairy in Klamath county. It is said the roads will tap 17 operating mills and it is said 700 carloads of cattle can be shipped as soon as the road is completed. Corporation Commissioner Schulderman said yesterday he will rush all preliminary formalities relative to the bonds so that they may be floated as soon as possible.

### MANY THOUSANDS PAID STATE BY GASOLINE AND DISTILLATE LAW

Under the motor fuel tax law passed by the 1919 legislature, which became effective February 26 last through having the emergency clause attached, the several companies selling fuel oil in Oregon have paid a total of \$165,420.18 in taxes up to July 31, says a statement issued yesterday by Sam A. Kozor, deputy secretary of state. The law assesses a tax of 1 cent a gallon on gasoline and 1/2 cent a gallon on distillate. The same statement shows that the number of licensed automobiles in the state on that date was 75,044. Relative to the total tax paid a statement by Mr. Kozor says: "This amount represents a total of 15,311,011 gallons of gasoline and 2,462,003 gallons of distillate sold in Oregon between February 26 and July 31, 1919. "At the end of February, 1919, there were 54,216 licensed automo-

biles and at the end of July the number of licensed cars had increased to 75,044. "This tax, immediately upon its receipt by the secretary of state, is turned over to the state treasurer who places it to the credit of the road fund of the state for general road construction and improvement. "The following statement shows the amount of gasoline and distillate sold during the several months since the law has been in effect, the amount of the tax paid during each month and the number of licensed automobiles at the end of each month. This law has been in effect approximately five months, and should the same rate of sales be maintained keeping the balance of the year, it is not unlikely that the receipts from the tax on motor vehicle fuel will aggregate \$350,000 per year."

#### Union Meeting is Held in Absence of Pastor

PRATUM, Ore., Aug. 18.—Rev. S. S. Baumgartner was called to Polk county last Sunday to conduct a funeral service. During his absence a union meeting was held at his church. Dr. E. Sherwood of Salem who otherwise would have preached at the Methodist church; preached at the Mennonite church and both congregations met together. Mr. and Mrs. John Welly purchased a new car recently. Threshing is progressing rapidly in this neighborhood. The yield of wheat is from 30 to 50 bushels or more an acre with an average of about 40 bushels. I. Klein recently applied a new coat of paint to his house. Since Charles Sappingfield has his barn completed he has one of the most modern barns in the community. Melvin Lien attended the camp meeting at Jennings Lodge the first of last week. Mr. and Mrs. A. W. Powell and Mr. and Mrs. William Scharf attended camp meeting at Quinaby last Sunday. When Fred de Vries advertised his hay for sale the first of the week he soon realized that the demand was greater than the supply. If it had not been for the add the conditions would have probably been different.

#### Polk County Fires Are Nearly All Under Control

DALLAS, Or., Aug. 19.—(Special to The Statesman)—W. V. Fuller, supervising fire warden for Polk county states this morning that timber fires which have been burning around the logging camps in the western part of the county are now practically under control but that a strict watch is still being kept up to see that no new fires were started. Mr. Fuller said that for a time last week conditions were practically the same as in 1910 when a big fire in the Siletz basin destroyed millions of dollars worth of the finest timber in the world and that patrolmen were kept on the go from early in the morning to late at night to see that the fire did not get away from the fighters. The Polk county patrolmen are being aided in locating fires by airplanes from the state forestry office at Salem and almost every day machines pass over Dallas to and from the timbered section of the county.

#### B. R. T. Strikers Taken From Barns in Busses

Officials of the Brooklyn Rapid Transit supplied trucks and busses to take strikers away from the car barns in order to prevent rioting. The strike has so tied up Brooklyn that it is impossible to stop disorders.

### Why Lack Of Iron In The Blood May Be Costing You Money Every Day

Many a Capable Man or Woman Falls Just Short Of Winning Because They Don't Back Up Their Mentality With Physical Strength and Energy. Get some of the money—don't let the other fellow have it all—just because you are too weak, nervous and run-down to go after it with the same vim that gets him what he wants. Make yourself a man of blood and iron—a woman of power and vitality. "Many a capable man or woman falls just short of winning because they don't back up their mentality with the physical strength and energy which comes from having plenty of iron in the blood," says Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital. "Lack of iron in the blood not only makes a man a physical and mental weakling, nervous, irritable, easily fatigued, but it robs him of that virile force, that stamina and strength of will which are so necessary to success and power in every walk of life. It may also transform a beautiful, sweet-tempered woman into one who is cross, nervous and irritable. To help make strong, keen, red-blooded Americans there is nothing in my experience which I have found so valuable as organic iron—Nuxated Iron. It often increases the strength and endurance of weak, nervous, run-down people in two weeks' time."

F. E. Davis Accidentally Killed When Gun Explodes  
DALLAS, Or., Aug. 19.—(Special to The Statesman)—Word was received in Dallas, Sunday afternoon that F. E. Davis, a former Dallas business man, had been accidentally shot and killed at his home in Phoenix, Ariz. From the information received here it appears that Mr. Davis was packing his household goods prior to moving to Portland and was handling a revolver which was not supposed to have been loaded when the accident was accidentally discharged, fatally injuring him. He died late Saturday afternoon. Mr. Davis was formerly in the furniture business in this city and at the outbreak of the war with Germany left his business and entered the service as a Y. M. C. A. worker. After the close of the war he took up his residence with his family at Phoenix, where they went for the benefit of Mr. Davis' health and Mr. Davis intended to enter business in that city. Mrs. Davis passed away about two months ago, leaving her husband and two children and Mr. Davis was coming to Portland to re-open the road for a large furniture firm when killed. Mr. Davis was for some time a member of the Dallas city council. The family has a large circle of intimate friends in this city.
