MR. WILSON IS ANSWERED BY JOHNSON

Crowds Besiege Auditorium to Hear Senators in First Speeches on Tour in Reply to Treaty Talks of President

PROMISE TO REPORT UNFULFILLED CHARGE

"Confinement" of Month in Washington Treated With "Charity"

CHICAGO, Sept. 10.—Crowds in vain tonight besieged the Auditorium theatre, where Republican senators began their western speaking tour in answer to President Wilson's demands for unconstitutional acceptance or total rejection of the peace treaty and league of nations covenant. Before 8 o'clock the hour for opening the speaking, the theatre was filled and thousands of persons were left in the streets.

The thousands within and without had come to hear Senators William E. Borah, of Idaho, Hiram W. Johnson of California and Medill McCormick of Illinois, the latter presiding at the meeting, expound their views of the peace treaty and league covenant and reply to President Wilson's utterances on his swing around the country.

Senator Johnson had spoken earlier in the day at a luncheon at the Hamilton club, but Senator Borah did not arrive until late in the day and both delivered night addresses formally starting their campaign of the west.

Crowd Cheers "Next President" The crowd outside was led into repeated cheering by a man who shouted that Senator Johnson would be the next president. The cheering, however, seemed about equally vigorous at mention of Senators Borah and McCormick.

While the throngs storebore about the various entrances after the doors had been closed by the police, a parade was led by a soldier in uniform blowing a bugle along Michigan boulevard. Several hundred persons were in line with banners bearing such inscriptions as "Welcome to the men who are bringing our boys back from Siberia" and "We want our boys back from Siberia."

"Confinement" Amuses Senator Hiram W. Johnson of California, said tonight in part: "The opening sentence of the president at Columbus in his memorable swing around their circled with you as with me a responsive and sympathetic chord. I have for a long time chafed at the confinement."

PERSHING AND FIRST DIVISION MARCH IN LAST GREAT REVIEW

Two Million Acclaim Flower of A. E. F. Along Flower-Strewn Miles

NEW YORK, Sept. 10.—Over a five-mile flower strewn pathway, General Pershing led his famous First division down Fifth avenue today to the wild plaudits of 2,000,000 proud countrymen. It was the last great review of the world war for New York and it was a fitting climax to a long series of military spectacles.

The commander of America's armies shared honors with the battle-scarred veterans who won undying fame on the fields of France. For all of them it was one life's most memorable days. As he rode down the avenue the stern lines of the leaders face relaxed into the now famous Pershing smile and when he dismounted in Washington Square at the end of the march surrounded by his staff, he exclaimed: "It was the most enthusiastic and patriotic outburst I have ever seen."

GERMAN PEACE PACT AT LAST GIVEN SENATE

Minority Report Urging Ratification With Out Change Due Today

FIGHT STARTS MONDAY Kenyon Launched Bitter Attack Against Present Form of Covenant

WASHINGTON, Sept. 10.—The German peace treaty, with amendments and its league of nations covenant, with reservations, was reported to the senate today by the foreign relations committee, a majority of whose members opposed ratification in the form submitted by President Wilson.

Immediately after it was presented by Chairman Lodge, two months to the day from the time the president laid it before the senate, Senator Hitchcock, of Nebraska, ranking democratic member of the committee, announced that the minority report, urging ratification without amendment or reservations would be filed tomorrow.

Fight Starts Monday. The fight over ratification will begin Monday, Chairman Lodge announcing that the treaty would be taken up then and kept continuously before the senate. First will come the effort to amend the treaty, and then the fight for reservations, mild or strong. Leaders of the administration forces continued to predict today that the treaty with the league of nations covenant would be ratified in its original form.

Republican leaders declared, however, that if put to a vote now the league would be rejected by the senate. Efforts to reach some agreement on the question of reservations meanwhile are being made.

The formal report of the majority was presented with a little formality as if it had been a bill to carry on the routine work of the government. There was a larger attendance on the floor than usual, however, indicating the interest in the forthcoming battle.

Kenyon Bitter.

On the heels of its presentation, Senator Kenyon, Republican, Iowa, in whose state President Wilson made an address in support of the league covenant, launched a bitter attack upon it and declared the covenant never could be adopted as it now stands. The big crowd in the galleries broke forth into applause as the Iowa senator concluded, one woman standing up and waving an umbrella in great excitement. There were many references to the treaty in later debate, and tomorrow Senator Harding to Ohio, a Republican member of the foreign relations committee, will speak against ratification.

BOOK DEALERS HOLDING OUT No Accession to Gill Terms and Independent Exchange May Be Result

To attempt some solution of the school text-book situation in Marion county, a representative of J. K. Gill & Co., of Portland, distributors for the publishers, is expected in Salem this week and there is a strong probability that an exchange for school books will be established independent of local dealers. This is likely to be the culmination of refusal by local book dealers to handle the books at a profit of 15 per cent that has been offered by the distributors. The dealers hold out for 29 per cent.

OFFICES OF CHEMIST TO BE IN SALEM

Department of Agriculture Sends Expert to Collaborate in Development of Dehydration Industry

VALLEY'S RESOURCES LAUDED BY MANGELS

Representative of Federal Bureau Commends Salem King's Establishment

A chemist representing the division of dehydration, United States department of agriculture, is to be located in Salem, and will work in collaboration with the Salem King's Products company in the development of the dehydration industry. The chemist will be one of a group of three under the direction of P. F. Nichols, who will be assigned by the department to the Pacific northwest. This information was brought to Salem yesterday by C. E. Mangels, an investigator of the commercial dehydration division of the agricultural department.

Mr. Mangels asserted that the Willamette valley, with its possibilities in fruit and vegetable production, has virtually unlimited resources for development of the dehydration market. He is making a survey of conditions and opportunity for development of this new industry for the entire country, and is devoting much of his investigation to the Pacific northwest and the Willamette valley.

Salem Plant Lauded. The dehydration man arrived in Salem at 10 o'clock yesterday morning and spent most of the time going over the Salem King's products company's plant here and in making inquiries as to varieties of produce and the scope of production in the vicinity of Salem. Asked as to his findings in this regard, Mr. Mangels said the Willamette valley with the high quality and abundant yields in fruits and farm products, has practically unlimited resources for this market. The investigator had just arrived from The Dalles where he had inspected the plant of the King's products company, this company being the only concern in the west engaged in dehydration enterprises.

Mr. Mangels stated that plants of this concern are conducted in a sanitary and scientific manner and that they are the largest dehydration projects in the United States.

Such an order was asked in the objection. The investigation will be followed by a report to the supreme court, and if held necessary the court will then set a date for formal hearing.

3 DIE; MANY WOUNDED IN BOSTON RIOT

Guardsmen Turn Machine Gun on Mob When Attacked With Deluge on Missiles—Property Damage is Slight

CAVALRY CHARGE CROWD WITH WEAPONS

Sympathetic Strike Looms as Result of Walkout of Policemen

BOSTON, Sept. 10.—Two men and a boy were killed tonight in turbulent outbreaks growing out of a police strike. There were numerous injuries of a minor nature to members of mobs, police officers and state guardsmen.

The most serious disturbances were in the vicinity of Scollay Square and South Boston. Cavalrymen charged the crowds and a machine gun was used, one man being killed and several wounded by its fire. At a late hour the mob was still uncontrolled.

Property damage was slight compared to that inflicted by the wild rampage of hoodlums last night. Sympathy Strike Looms. One of the most serious elements in the complicated outlook was the possibility of sympathetic strikes by labor unions which have declared their support of the policemen's union. Like the patrolmen's organization most of these unions are affiliated with the American Federation of Labor.

The crowd early became riotous and cavalrymen were sent to disperse it. The mob surged in and out of the square. Shots were fired and an unidentified man was killed. A woman was wounded in the arm, a middle aged volunteer policeman was so badly beaten that he was removed to a hospital and three cavalrymen were hit over the head by other missiles and also were given hospital treatment. After military reinforcements arrived the square was finally cleared.

STEEL WORKERS TO STRIKE SEPT. 22 DESPITE A PPEAL OF WILSON

Recognition of Unions and Collective Bargaining Are Demanded

WASHINGTON, Sept. 10.—Regardless of the request of President Wilson that they take no action pending the coming industrial conference representatives of organized workers in the steel industry late today called a strike, effective September 22, to compel recognition of their unions and of the principle of collective bargaining by the United States Steel corporation.

The executive council of the 24 union represented among the workers made known their decision in an announcement issued after they had requested the president by telegraph for a "more definite statement" as to the possibilities of arranging a conference with steel corporation officials and after they had received a reply from the president asking that they withhold action until after the industrial conference.

Information Unofficial. The president's telegram was not made public by the steel union heads but its context became known in Washington tonight through press dispatches. In their statement the executive council merely said they had said the had not been advised "that the efforts of the president have been any more successful" than the efforts of the men.
