NASAL CATARRH
Though Very Common It is a Serious Disease—Worse at This Season.
It is an inflammation of the mucous membrane, causing a discharge and is aggravated by colds and sudden changes of weather, but depends on an impure condition of the blood. When chronic it may develop into consumption by breaking down the delicate lung tissues and impairing the general health.
Begin treatment with Hood's Sarsaparilla at once. This medicine purifies the blood, removes the cause of the disease, and gives permanent relief. It has been entirely satisfactory to three generations.
If a cathartic is needed take Hood's Pills—they are gentle and thorough, enliven the liver, regulate the bowels.
