## NUXATED IRON A DRIVING FORCE BEHIND KEEN SUCCESSFUL MEN AND WOMEN

When you think of the successful men and women you know—people who are doing things worth while—you will find that they possess force, vim and energy—the kind that simply brim over when the blood is filled with iron. Nuxated Iron by enriching the blood and creating new red blood cells, strengthens the nerves, rebuilds the weakened tissues and helps to instill renewed force and energy into the whole system. Three million people use it annually as a tonic, strength and blood-builder.

### MAKE THIS TEST

See how long you can work or how far you can walk without becoming tired; next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Numbers of nervous, run-down people who were ailing all the while have most astonishingly increased their strength and endurance simply by taking iron in the proper form.

### Norman Hackett With "Tea For Three"

Coming to the Grand Opera House on Wednesday, October 15, in "Tea for Three," the new and sparkling three-act comedy by Roi Cooper Megrue, which is being presented by the Selwyns, is Norman Hackett, an actor of considerable fame in the northwest. For several seasons Mr. Hackett was a member of stock companies in Seattle and Salt Lake and later toured the country at the head of his own company, in such plays as "Beau Brummel," "The Knife," in which he was starred as "Saton Sanderson," and "Clausmates." A season in New York with George Grundy players won for him great personal success. His long experience in Shakespearean roles has equipped Hackett with a stage presence of much ease and distinction, pure diction and a resonant agreeable voice. These qualities stand him in good stead in "Tea for Three," in which he has not only the most important but the greatest in length of all the roles he has ever attempted. He is on the stage constantly.

and the rapid, quick-fire of the dialogue requires the utmost concentration and presence of mind. Mr. Hackett displays a versatility quite remarkable in his adaptation to the snappy comedy of the part. During the last year of the war Mr. Hackett enlisted and served at Camp Dix, N. J. He was detailed to organize and supervise all amusements and entertainments. This he did with such facility and success that he was authorized to direct the Camp Dix Revue, called "You'll Like It," an organization which toured the states of New York and New Jersey, even playing a week in New York city with remarkable financial as well as artistic success. This Mr. Hackett, claims, is the greatest part he has ever played, but next in line comes that of Phil in "Tea for Three." Those who have seen Mr. Hackett will welcome his coming in such a successful role with joy, and those who are unfamiliar with his work will feel they have discovered a new artist.

## 300,000 Maxwells to Date; 100,000 More This Year

THIS shows the rapidly growing appreciation of the Maxwell.

60% of those seeking a Maxwell will be able to have one.

100,000—one-third as many as are in existence today—are being built this year.

A desire for a car that has proved its worth in many latitudes and many longitudes.

That means one every 1 1/2 minutes of the working day.

A liking for the long run the tires give, for the definite and extended mileage from gas and oil.

These new post war features, which have classified it as the Post-War Maxwell, are well spoken of everywhere. That's but one reason why the drift is towards Maxwell.

A fondness for a car that expresses reliability in a most decisive way.

Compare it point for point with any car under \$1200 and you will more readily understand.

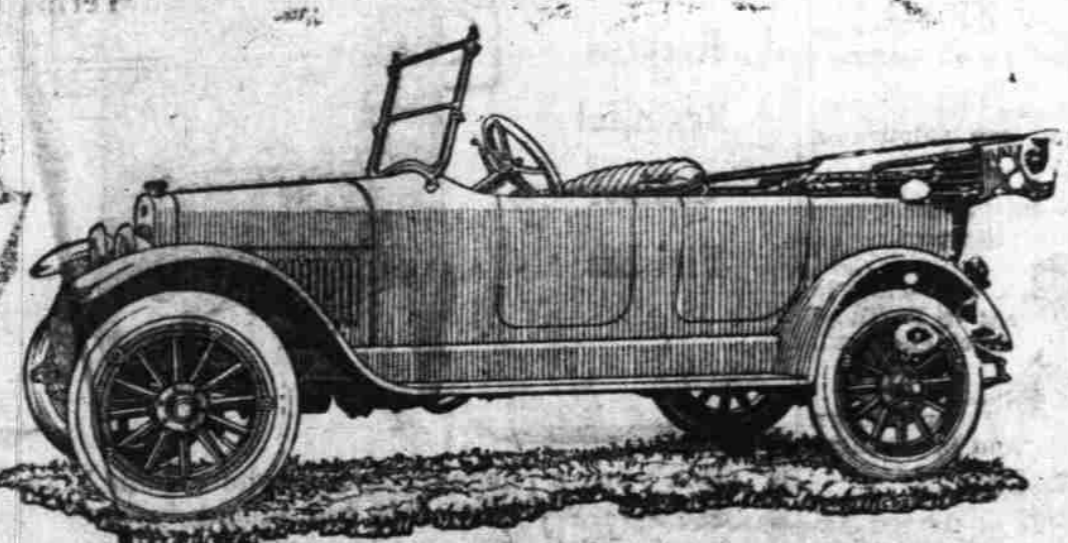

This year, more than any before, the 300,000 idea behind the Maxwell has increased in public favor.

And as a result less than

**REMEMBER THIS**  
True coffee economy means figuring your coffee bill by the satisfaction and enjoyment you receive rather than by the price you pay. Many consumers buy sufficient coffee to supply their requirements for several months but unless that coffee is packed in vacuum cans it will become stale and lose its satisfying fragrance.  
Golden West Coffee is vacuum packed.
