GOOD MEN MAKE A GOOD TOWN

The most profitable investment that can be made is in men—young men. That which raises the character of men, makes them better physically, morally, and mentally, makes the town better.

Good men make a good town. They make it better commercially, politically and socially. The purpose of the Young Men's Christian Association is to make good men.

Good men physically, through athletics and gymnasium, swimming pool and shower baths.

Good men mentally, through educational classes, interesting addresses, reading rooms and libraries.

Good men morally, through social rooms, home privileges, amusements under proper environment, and Bible study and religious service.

The Y. M. C. A. triangle stands for physical, mental and religious development.

Good men make a good town.

That is another splendid slogan for the newer and better Salem. The purpose of the Salem Y. M. C. A. is to make good men. Salem needs the Young Men's Christian Association. It is an important manhood making industry of Salem.

The Salem Y. M. C. A. is going out after funds for its budget of next year. Fresno, Cal., is raising \$615,000 for a new building for the Y. M. C. A. and Y. W. C. A. Fresno is the raisin city. It has a population of 55,000. Salem is surrounded by a country potentially richer than the district around Fresno. Salem will have more than 55,000 people some day, and she will overtake and pass Fresno in population at no very distant day in the future. The time will come when Salem will need as large a Y. M. C. A. and Y. W. C. A. building as Fresno, and should have it. For the present, however, building arrangements for the two related associations in this city will serve. Good work with the present facilities is being done, and better work is being planned. So Salem people should be well content to subscribe the budget money that is now being solicited.

Now, is the tug of peace.

The world is inclined to let the Letts go to it.

The ex-kaiser still continues to be a liability to the Germans.

What are they doing in the senate? Oh, nothing but talking.

The man who does not waste his money and does a full day's work is the salt of the earth.

Where does David Lloyd George get his recipe for curing strikes? He might pass it over this way.

It has been figured out that 47 per cent of the hotels and eating-houses in Seattle are run by the Japanese. But it is claimed that the Japanese know how to cook.

The profiteers would better pay some attention to the statement in San Francisco of Herbert Hoover that the high costs of things will now begin to tumble down. Mr. Hoover does not talk through his hat.

When the fifty-two issues of the Salem Slogan pages of The Statesman are completed, there will be in them a very complete history of the basic industries of Salem and a mass of brass tacks facts concerning the

production of the soil in the country surrounding this city. It will be information that will be worth millions to this community. It will be Prunes tomorrow.

Chalk up another victory for prohibition. In the old wet days in the republic the present debate in the senate on the peace treaty and the covenant of nations would have produced a half-dozen duels by this time.

ALL DRESSED UP.

On a recent review of his forces at Fiume the madcap poet, D'Annunzio, was reported as wearing five rows of ribbons and sixteen orders and medals.

This does not include, however, the double cross of the league of nations which he has coming to him. People hardly know whether the Italian is a bald eagle or a bird of paradise.

COMING AND GOING.

It is announced that the doctors of Brooklyn have organized for the purpose of demanding increased fees for their professional services and will inaugurate the movement by boosting the scale about 40 per cent. At the same time the grave-diggers at Youngstown, O., have formed a

Do You Drive

a Car?

Eyestrain may very easily be aggravated by driving a car. The attempt to focus the eyes on objects which you are passing rapidly irritates the already strained eyes.

Don't give up the car—but have your eyes attended to.

Begin by letting us examine them to find out what causes the strain. Good sight is too valuable for your success and comfort to run the slightest risk of impairing it.

Our equipment, together with our skill and experience, enables us to determine exactly the condition and needs of your eyes.

Henry E. Morris & Co.

union and affiliated with the American Federation of Labor.

People who have cultivated the thought that they could duck the high cost of living by shuffling off are destined to disappointment. The doctors will reach out from the edge of things and, even if the patient himself gets away, his estate will be touched for a larger sum.

The grave-diggers are organized for the purpose of having a strike and they either will not permit a man to be buried at all or else they will boost the price of their work 100 per cent. This is certainly a grave matter whichever way you look at it. Coming or going, 'tis all the same.

A HANDY KING.

The king of Belgium can pilot an airplane and run a railway locomotive.

He took charge in the engine cab on a part of his western journey.

If he wants to go anywhere he doesn't have to worry about strikes. He hitches up Mercury with a monkey wrench and gets there. As a king he is a jack of all trades.

ON DRY LAND.

The attorney general, who has a lot to do with the enforcing of the prohibition law, is disposed to hold that the war is not officially ended until the peace treaty is ratified.

The thirsty ones who have been entertaining themselves with the hope that October would find the ban on their booze lifted for a time have little on which to hang their expectations. It is only a season of wishing.

THEY'RE WELCOME TO 'EM.

Paris dressmakers have launched a campaign to make monkey-skin robes popular with the fair sex of the smart set; but their difficulty seems to lie in the fact that they are not able to secure enough monkey skins to supply the trade. The deficiency might easily be remedied if the fashionmakers would come to

DAD! YOUR HAIR IS FALLING FAST

"Danderine" Will Check That Ugly Dandruff and Stop Hair Coming Out

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of "Danderine" at any drug or toilet counter for a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair usually stops coming out and you can't find any dandruff. Soon every hair on your scalp shows new life, vigor, brightness, thickness and more color.

Mildred Evans in "Tea For Three"

Do you believe in platonic friendships? Perhaps not, but after you have seen "Tea for Three," the new triangular comedy written by Roi Cooper Megrue which is to be at the Grand Opera house on tonight, for one night only under the direction of the Selwyns, it's almost safe to say that if not absolutely convinced of their existence, you'll at least grant that the author has made one seem very plausible and probable. It would not be fair to reveal the plot of "Tea for Three" and rob the auditor of the thrill and suspense of its development. Mr. Megrue has described his play as "an angle of the triangle" and still further as a "school for wives," a lesson for husbands and an example for lovers. This latter sounds like it might be a bit of moralization. That is just exactly what "Tea for Three" is not. Its main object is to amuse, yet there is a lesson in the tale. One that strikes home too, if the attitude of the audience may be taken as a criterion. Stand in the back of a theatre during a performance of the comedy and if the house is not too dark and you watch close-

ly you may see any number of wives nudging their husbands when a particularly telling bit of domestic philosophy comes over the footlights. Many a conjugal little tangle has been straightened out on the way home from the theatre by the application of some of the "advice of married people" contained in the play, combined with a sense of humor.

There are three acts and a prologue with as many effective changes of setting. Norman Hackett in the leading role is excellent. This is by far the best role Mr. Hackett has ever appeared in and he is equal to every emergency of the long and difficult part. Mildred Evans is gracious and charming as the feminine point of the angle while Hayden Stevenson is convincing and natural as the conspirator-against-husband. Smaller parts are capably taken by Marie Newkirk and S. Sydney Chon. This is the first season on tour for "Tea for Three," it having been one of the genuine hits of the past season in New York, where it occupied Maxine Elliott's theatre for 12 months.

the United States and capture the parlor socialists who are aping the Russian Bolsheviks.

Unimpeachable—if you were to see the unequalled volume of unimpeachable testimony in favor of Hood's Sarsaparilla, you would upbraid yourself for so long delaying to take this effective medicine for that blood disease from which you are suffering.

BITS FOR BREAKFAST

Tonight's the night.

The night for "Tea for 3."

The Bits for Breakfast man got it for last night, in yesterday's paper. It is tonight, at the Grand opera house.

Prunes is the theme of the Salem Slogan page of the Statesman tomorrow. It will be full of prunes.

The kick-off of the Salem Y. M. C. A. budget drive will be today.

The safety drive of the American railroads will commence on Saturday, and last the rest of the month. Let the whole nation help. Let the entire country grow more safe and more sane.

It will be sixty years tomorrow since John Brown's raid. His soul goes marching on, and a lot of water has gone down the Willamette river in the sixty years that have intervened.

It is Nip and Tuck between loganberries and prunes; with some backing Nip and others backing Tuck, and still others backing both.

Gabriel (D'Annunzio) is still blowing his horn.

The fact that ex-Ambassador Paul Reinsch has accepted a post with the Chinese government indicates that the American diplomat is able to distinguish a good thing when he sees it. The pay is a measly \$20,000 a year.

American soldiers returning from Russia are bringing Russian wives who are not able to speak a word of English with them. Their experience is likely to be as unsatisfactory as the French wives who accompanied the boys home. Foreign wives, as a rule, do not "jibe" very well with American ways.

Hog-killing time is approaching in the east—when the neighbors pass baskets filled with ham trimmings, tenderloins and spareribs (actually containing meat) to their neighbors only to have the pleasant process repeated to them when the neighbors kill their hogs. They were the happy days.

It is announced that five thousand English women are coming to this country to get American husbands. To your tents, oh, Israel!

So far the job of hitching a bucking broncho with a wild buffalo has produced nothing beyond negligible results in the Balkans. Teamwork

The \$1,000,000 were issued the amount authorized by the act would be exceeded by \$400,000. Were it not for the \$10,000,000 highway bonds authorized by the legislature of 1919 and the \$6,000,000 authorized by the legislature of 1917 it is contended by some persons that \$29,000,000 or the full amount of bonds allowable under the 2 per cent limitation could be issued under the act. This limitation means 2 per cent of the state's assessed property valuation, which under the 1918 assessment would be an estimated \$20,000,000.

Highway Commission Will Sell Million in Bonds

Sealed bids will be received by the state highway commission at a meeting in Portland November 4 for \$1,000,000 in state highway bonds. The bonds carry 4 1-2 per cent interest.

dated November 1, 1919, and will be in denominations of \$1000. The bonds will mature serially, \$25,000 April 1, 1925, and a like amount each October 1 and April 1 thereafter until the full amount is paid.

TEXAS OIL BULLETIN

which is issued weekly and written by men who know the oil business, contains reliable news of all the oil fields of the State and of the good, active, substantial companies operating therein. Upon request we will mail this publication to you for three months ABSOLUTELY FREE. Write for it today and ask us for any information you may desire about any oil company or oil field in Texas or the Southwest. Address

IS A DOLLAR SAVED—A DOLLAR MADE?

THAT'S what it used to be in the old days when its exchange value was about "fifty-fifty." But, NOW doesn't it strike you that a dollar saved is TWO DOLLARS MADE—should normal conditions return?

Why, that's a real investment which promises as high a rate of return as "wildcat schemes"—but without any of the risks.
