BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "foggy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 10c and 25c.

PRESIDENT OF NEW FACTORY GETS HEARING

J. C. Steward Tells Commercial Club of New Concern Established Here

MANY ARTICLES MADE. Tempting Delicacies Are Designed to Reduce High Cost of Living

At the luncheon of the Salem Commercial club yesterday, J. C. Steward, president of the Steward Food Products company, spoke in response to a call to explain what the men present had been eating.

They had been feasting on some delectable pies, cakes, and other confections of the culinary art calculated to tickle the taste and satisfy the cravings of hunger.

They were made from the regular wares of the Steward Food Products company, the new Salem manufacturing company that occupies the basement of the large store room in the Argo hotel building on Chemeketa street near North Commercial.

The assembled guests were well satisfied with both the food and the explanation of its contents.

This new food company makes about 30 different articles, all food products excepting its laundry powder.

All calculated to help reduce the high cost of living, besides adding to the delectable joys of eating.

They make pure non-alcoholic extracts; all the known flavors. They require only about one-third as much ounce for ounce.

Egg-lesso. That is one. It is an egg substitute. The housewife can use it anywhere that regular eggs are used, except for boiling and scrambling; and the cost is on the basis of about 19 cents a dozen for the cankerberry product of the poultry yard.

Appelo. That is another. It is a substitute for apple butter. It is as good as the regular apple butter of commerce, and costs about one-fourth as much.

And extracts; 40 known flavors, for use in the kitchen.

And pie fillings—pineapple, banana cream, chocolate, lemon, oxblood cherry, custard cream and red raspberry. That is all of them for the present, but many more can be added.

And Quicker-jell; that's another. It's for dessert, in raspberry, pineapple, cherry, strawberry and other flavors.

And Fruit Puddens, all flavors. And custard powder, in lemon, maple, cherry and strawberry flavors, so far.

And chocolate pudding powders. Then baking powder; good as the best, and cheaper than any.

The laundry powder is to boil with the clothing; boil for 30 minutes, and the clothes are clean; just wring them out; no scrubbing. Does not injure the clothes.

The Salem factory of the Steward Food Products company is the second of what will be a chain of factories. The first one is at Tacoma, Wash., which was the home of Mr. Steward, who was in the aviation service overseas during the world war.

F. L. Huston and F. O. Worthington, both of them vice presidents of the company, were present yesterday, and all three are in Salem getting the business established here.

There are a number of prominent Salem people who are stockholders of the Salem company, and the local company will be one of the most important of all, especially in the manufacturing end, on account of the fruits that are raised here being a large end of the great business they expect to develop, covering this and other countries.

Salem is surely coming into its own in many ways, and not the least of the great institutions will be the Steward Food Products company.

unlike the art of other nations it does not lack in its true value and each year finds more persons appreciating the unusual colorings and lines.

Also in the collection are some excellent oil paintings. The collection will be in Salem for three days, with today the first showing.

Mrs. L. D. Curtis and Mrs. R. D. Allen have returned from a ten days visit in Portland and Seaview, Wash. While at Seaview Mrs. Allen visited with her son, Victor, who is secretary-treasurer of the cranberry association at that place.

Mrs. N. J. Burford, mother of Mrs. A. B. Gardner leaves this morning for a visit with friends in Portland.
