TELEPHONES: Business Office, 23.  
Circulation Department, 583.  
Job Department, 583.

Entered at the Postoffice in Salem, Oregon, as second class matter.

## THE SALEM SLOGAN CAMPAIGN GETTING RESULTS

The Salem Slogan campaign of The Statesman is getting results. Already it is bringing new people here to go into the growing of loganberries, prunes, flax, filberts, walnuts, strawberries, and to engage in dairying.

And it is inducing larger efforts in all these lines on the part of our own people.

Not only this, but it is inducing the setting out and planting of the right varieties for our soil and climate.

It is a free lance campaign.

It has shown that Franquette and Mayette walnuts, grafted on the California black stock, are the safest walnuts to set out.

It has shown that the Barcelona and Du Chilly are the proper filberts.

And so on down the line.

The Statesman has no nursery or other stock to sell or boost. The idea is only to induce the planting of the best, without respect to whose ox is gored.

Wrong plantings, especially of the slow growing trees, is an expensive operation.

A leading loganberry grower is going extensively into Barcelona and Du Chilly filberts, since that Salem Slogan matter was published.

One man is going to set out ten acres of strawberries, because of the strawberry publicity.

A number are going to graft their American black walnut trees to Franquettes and Mayettes.

One man is using The Statesman Salem Slogan matter to bring a colony of farmers from Nebraska.

This campaign will without doubt stimulate powerfully the right kind of immigration.

It will make all our home people appreciate what wonderful possibilities we have here around Salem, and in Salem.

It will build up our foundation industries as nothing else in the wide world could.

For all of which it is intended.

The Statesman is very proud of results so far, and it is a compensation for the hard work involved. The campaign is only fairly started. It will be interesting to watch it through the coming weeks and months, and to note the beneficial results.

“LET NOT HIM THAT IS HOMELESS PULL DOWN THE HOUSE OF ANOTHER, BUT LET HIM DILIGENTLY WORK AND BUILD FOR HIMSELF.” THUS BY EXAMPLE, ASSURE HIM THAT HIS OWN SHALL BE SAFE FROM VIOLENCE WHEN BUILT.”—ABRAHAM LINCOLN.

The Consumers' union, 35,000,000 and the sooner and stronger the better, is going to strike—and wage war on styles. Let them go to it.

It is peanut politics run amuck in the United States senate.

The doughboys made the world safe for democracy, but no one could make the United States senate sane.

Nobody has yet seconded the nomination of Senator Poindexter for president.

American common sense can be depended upon to bring order out of the present unrest.

The next thing on the strike program will be a walkout of the school children for a shorter hour. Why

### LENS GRINDING

not? It would be just as sensible as some of the strikes.

The peace treaty is not dead but sleeping, while the world waits on the bone-heads in the United States senate.

Each side blames the other in the ratification squabble in the United States senate. And each one is more to blame than the other, if possible.

Oh, well, of course turkeys are high. But most of us can live without turkey; even over the Thanksgiving days.

### BLESSINGS OF WORK.

“We work to live, not live to work,” says a publication erupted by a radical group of workers in an eastern city.

This subversion of the generally-accepted philosophy of life is a challenge to the thought of all the ages. It is easy to understand how it may be accepted by the indolent, the idle, the selfish, but the ambitious, energetic and well balanced will reject it just as they reject the inverted morality of tales that have criminals for heroes.

The universal impulse is to create. Man ascribes to the Omnipotent this faculty in its supreme expression, and notes through all animated nature its various manifestations. In man the effort is not restricted to exercise of reproductions of his kind, but embraces so wide a field of activity that humanity has been blessed and civilization enriched because men have lived to work.

If the idea voiced by the thoughtless group had prevailed in the beginning man would never have advanced from his aboreal life, for then he could live with even less of personal effort than is now required. He could eat and sleep and amuse himself in whatever way his animal in-

### DOUBLE BEAUTY OF YOUR HAIR

“Danderine” creates mass of thick, gleamy waves

In a few minutes you can transform your plain, dull, flat hair. You can have it abundant, soft, glossy and full of life. Just get at any drug store or toilet counter a small bottle of “Danderine” for a few cents. Then moisten a soft cloth with the “Danderine” and draw this through your hair, taking one small strand at a time. Instantly, yes, immediately, you have doubled the beauty of your hair. It will be a mass, so soft, lustrous and so easy to do up. All dust, dirt and excessive oil is removed.

Let Danderine put more life, color, vigor and brightness in your hair. This stimulating tonic will freshen your scalp, check dandruff and falling hair and help your hair to grow long, thick, strong and beautiful.

stinct suggested, but he knew nothing of the real delights of existence. If a man had worked only to live none of the creature comforts that now pad existence would have come to soften our physical life.—Omaha Bee.

### INFLATED CURRENCY AND ITS HANDIWORK.

The universal practice in all the countries at war of raising funds by inflation of currency is now bringing home its burden of trouble, and in extreme cases the most resolute action must be taken and at once. In other countries with even a lesser degree of inflation such currency must be reduced and included in the funded debt or alternatively the price

### The Easiest Way To End Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you need. This simple remedy has never been known to fail.

## EYESIGHT SPECIALIST

### Says:--

There is absolutely no guesswork in my fitting of glasses. Scientific examination reveals the exact condition of the eyes. Scientific principles determine the exact shape, character and strength of lenses required to correct the defect or abnormal condition.

If you are near sighted you require a different character of lenses than if you are far sighted—and, in any case, the strength or power of the lens must be in proportion to the magnitude of the defect. Astigmatism, etc., requires still different lenses; in fact, each irregularity must be specifically and precisely fitted.

That's My Stronghold—I Fit You Perfectly.  
Don't neglect your sight, but have it attended to at once.

of wages, living and international exchange must be expected to adjust itself to this depression. The outcry against the high cost of living, the constant increase of wages and the fall in exchange that is going on is in a considerable degree due to this inevitable readjustment.—Herbert Hoover in the World's Work.

CABLE: MENANDER, NEW YORK

March 6, 1919.

Grand Lodge of Oregon,  
Ancient Order United Workmen,  
Portland, Oregon.

Gentlemen:--

We hereby certify that we have made a valuation of the Grand Lodge of Oregon, Ancient Order United Workmen, as of December 31, 1918, and that we find it to be in the following condition, to wit:

|  |                |
|--|----------------|
| <b>Assets, actual and contingent:</b>                    |                |
| Present mid-year value of future net contributions ----- | \$1,090,839.00 |
| Assets -----   | 396,551.83     |
| Total  | \$1,487,390.83 |
| <b>Liabilities, actual and contingent:</b>               |                |
| Present mid-year value of promised benefits -----        | \$1,419,776.00 |
| Liabilities -----  | 9,000.00       |
| Total  | \$1,428,776.00 |
| In excess of liabilities -----                           | \$58,594.83    |
| Ratio of assets to liabilities 104.09%                   |                |

The above valuation indicates that, on the basis of the National Fraternal Congress Table of Mortality with interest at 4 per cent, the future assessments of the Society, at the net rates now being collected, together with the new invested assets, are sufficient to meet all certificates as they mature by their terms, with a margin of safety of \$58,594.83 (or 4.09%) over and above statutory standards.

Fraternally submitted,  
*Miles M. Dawson & Son*  
Consulting Actuaries.
