TELEPHONES: Business Office, 23.  
Circulation Department, 583.  
Job Department, 583.

Entered at the Postoffice in Salem, Oregon, as second class matter.

## What do you know about apples?

Apple slogan Thursday. You will find that Salem is also the apple center, and growing more so fast.

But there are few coal miners whose wives are allowed to work but 30 hours a week.

An extension of the American merchant marine is needed to furnish means for the deportation of the reds if for no other reason.

Of course, there are a lot of questions to be answered, but the American Legion is doing fairly well with a number of them.

Another thing, what will the rest of the country be doing while the reds put into effect their proposed program? Sucking their thumbs? Scarcely.

A local clergyman recently delivered a sermon on the question, "Is There a Hell?" Anybody who reads the daily newspapers ought to answer that in the affirmative.

If you know anything outstanding about the apple industry, as applied to this district, it is your duty to tell the world, through The Statesman. Do it now. Today or tomorrow.

Attorney General Palmer says sugar may go to 20 cents a pound. But then, Palmer says so many things. He promised to reduce the high cost of living in 60 days if a kick was put in the Lever law. Where is that promise of yesteryear?

Millions of women will vote in the coming presidential election, and leaders of both parties might as well understand that pre-election promises to the sex must be kept just the same as to the men. It is going to be quite a job attuning the platforms so as to attract the voters of both sexes.

Sane and sensible Americans would like to see a readjustment of wages that will enable all alike to meet conditions, without lowering living standards. But when a few undertake by force to better their own welfare at the expense of the many they may be expected to see the wrath of public sentiment coming down upon them like a whirlwind.—Baltimore American.

## HAVE COLOR IN CHEEKS Be Better Looking—Take Olive Tablets

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days, you must keep your body free from poisonous wastes. Dr. Edwards' Olive Tablets (a vegetable compound mixed with olive oil) act on the liver and bowels like calomel—yet have no dangerous after effect. Take one nightly and note results. They start the bile and overcome constipation. That's why millions of boxes are sold annually. 10c and 25c.

# Teachers

Call today or Wednesday and let us explain to you how to make a preliminary test of students eyes.

A test that will give reliable information and enable you to send a student to any optometrist to have their eyes examined—knowing that a defect exists.

We will take pleasure in showing you the advantages of knowing when a defect exists.

**HENRY E. MORRIS & CO.**

305 State Street

ets of the federal constitution a world significance; to make every section of the earth a safe abiding place for the women and children of the present and future generations.

The gallant sons of freedom fought for the preservation of the justice, honor, integrity and liberty of every people.

And these loyal Americans are not content to see the spirit of intolerance and injustice that they stamped out in western Europe blossom forth into a noisome harvest in their own country.

The fight which they began at Chateau Thierry did not end with the signing of the armistice.

They returned to their homes carrying with them the memory of those whom they left behind, conscious of the debt which they owed to their fallen comrades to keep alive the spirit that has dominated America during a century of free government.

And they will not stand idly by while the forces of radicalism and rebellion build up in this country what they demolished beyond the seas.

Those loyal service men were with in their rights when they broke up meetings of I.W.W.'s in different parts of the country.

They are hated by the radicals and Bolshevik emissaries with that unreasoned hatred to which injustice alone gives birth.

The fomenters of revolution have judged aright that the members of the American Legion must be killed off before the red terror can gain away over free America; for they are the true avengers of freedom.

Hats off to the men whose hats are first removed when Old Glory passes.

They represent the highest type of American manhood.

As long as the American Legion survives no rebellious faction will be permitted to defile American institutions with impunity.

## WHAT'S YOUR HURRY.

The self-styled ambassador of soviet Russia to this country declares that it is not necessary to depart the adherents of Russian sovietism from American shores. He says that they are only too anxious to leave. That certainly ought to make it unanimous. There are surely no national guests whose absence is more cordially desired and if they, too, are eager to return the details should be easily arranged. Here's your hat.

## SLOW RETURNS.

It is presumed that Lady Nancy Astor has been elected to the British house of commons. If so, it is safe to assume that she will make some effort to reform an election law which makes it impossible to fully determine the results of the balloting until two weeks after it is taken. No woman will patiently wait that long for a decision.

## A WEATHER FORECAST.

(By Astronomer Irl R. Hicks in the Bible Advocate.)

One might watch the planetary configurations for a lifetime and not see a grouping of the celestial bodies like or even very similar to this for December. Note that at the end of this month, all the planets, including earth are grouped on one side of the sun, except Uranus (U), who is away off in space alone on the other side. Considering all these bodies as great, polarized magnets, whose local polarization correspond to that of the whole stellar space, generally speaking, but whose several poles vary enough to produce antagonism or agitation of forces whenever near each other or at antagonizing angles in

## NERVOUS PROSTRATION

May be Overcome by Lydia E. Pinkham's Vegetable Compound—This Letter Proves It.

West Philadelphia, Pa.—"During the thirty years I have been married, I have been in bad health and had several attacks of nervous prostration until it seemed as if the organs in my whole body were worn out. I was finally persuaded to try Lydia E. Pinkham's Vegetable Compound and it made a well woman of me. I can now do all my household

and advise all ailing women to try Lydia E. Pinkham's Vegetable Compound and I will guarantee they will derive great benefit from it."—Mrs. FRANK FITZGERALD, 25 N. 41st Street, West Philadelphia, Pa.

There are thousands of women everywhere in Mrs. Fitzgerald's condition, suffering from nervousness, headache, headaches, and other symptoms of a functional derangement. It was a grateful spirit for health restored which led her to write this letter so that other women may benefit from her experience and find health as she has done.

For suggestions in regard to your condition write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years experience is at your service.

## BITS FOR BREAKFAST

Salem will welcome Santa.

She will be all dressed up in holiday attire.

Watchful waiting in the attitude of the United States towards Mexico is having another jolt.

But it is likely that nothing will be done about it—as usual.

Three jobs for every ex-service man in the Salem territory sounds good. But we must keep our record clear in this respect.

The pupils are enjoying the slight of the teachers going to school.

Speed the proposed Salvation Ar-

my building in Salem. If that organization carries out its program, it will perform a most useful service—not the least important of its proposed activities being an employment bureau. The great increase in acreage of fruits and nuts in this territory that is going one and will of necessity continue will make most active work along this line a crying need. The big problem will be the securing of enough workers to gather the crops.

## MOVE ON!

The idea of the American Legion that there should be no lodging or resting place for the I. W. W. organizations or leaders is a good idea along the lines of safety first.

If these birds of evil omen have no place to roost they cannot accomplish much harm.

It should be impossible for them to rent quarters in which to live, move and have their being.

Property owners should be expected to 'ware them as they would the plague. Keep them moving on until they get back to their own miserable soil.

## AN UGLY AFFAIR.

Hazing is in such public disfavor that Colgate university finds it necessary to ascribe the death of a kidnaped student who tried to swim ashore from an island on which he had been marooned, and was drowned, to "immature judgment" on his part. This finding may help cover up an ugly affair and soften the regrets of the playful youths responsible for it, but the young man was hazed nevertheless.—New York World.

## NERVE TONICS.

Dempsey has been taking iron for the blood. It must be scrap iron, for it has given him nerve enough to demand \$200,000 to fight a Frenchman or an Englishman. There was only one John L. Sullivan in the world and he would fight for the joy of it.

# 186,000 Children Had Defective Eyesight

The alarming increase yearly noted in the number of school children suffering with eyestrain is proof enough that state recognition and regulation of this important profession—Optometry—has come none too soon.

In 1907 the New York World, commenting editorially upon the estimate of the school committee that in New York City alone 186,000 children had defective eyesight, said:

"All the more reason why steps should be taken to remedy this physical defect in so vast an army of little citizens. Glasses will often turn a stupid, ailing girl into a bright and healthy one; a whining, backward boy into a manly, fast developing little fellow. The effect in cases of extreme need is almost magical. In most cases parents are slow to suspect the need but are gladly willing to supply it when informed."

To learn with certainty whether or not such need exists, it is only necessary to consult a competent optometrist. Delay in ascertaining this may result in serious injury to eyes or health, or both. It is my rule never to recommend glasses unless they are needed unquestionably and unless good results are clearly promised. To this rule I strictly adhere.
